Shaftoe,2014-11-19 Shaftoe's willingness to put her characters in real danger ups the stakes, for a vividly realized adventure. - Kirkus Reviews Zachary Marek is an Ontario police inspector who has crossed daggers with the wrong villain while working as a member of an international drug task force. After he is imprisoned and marked for death by his powerful foe, Albanian Mafioso, Burim Gjojak, Zach is presumed gone forever-until his brothers mount a daring rescue and return him to his wife and son. But after months away, home is not the sanctuary that Zach hoped it would be. His son, Gideon, recently diagnosed with autism, is a mystery of volcanic meltdowns and violent opposition to change. His wife, Christie, is a stranger. Determined to embrace the challenges of autism and win back Christie's heart, Zach embarks on a cross-country journey from Niagara to Wyoming to reconnect and build a new beginning with both of them. However, Gjojak doesn't want Zach to return to any life at all. As he builds a web of betrayal and deceit around Zach, Gjojak sets a lethal snare that not only endangers Zach's life, but also the lives of those he loves. *Imperfect* is a gripping tale of danger and deceit and of love lost and found again as a police inspector attempts to defeat a drug lord once and for all and find the second chance in life he so desperately needs.

**English as a Foreign or Second Language** Mohammed S. Assiri,2015-09-01 This book offers a brief review of the theoretical perspectives and empirical findings that have shaped our understanding of salient facets of English language teaching, learning, and testing. It also communicates my personal views in regard to certain issues in these three domains. The book is divided into five chapters that range in their foci from theory to practice. Chapter one presents the most influential theoretical perspectives that have sought to account for the processes involved in second language acquisition and the roles of the so many variables that affect how a learner acquires a second language. The second chapter discusses several methods and practices commonly used in EL2 (English as a foreign/second language) teaching. Chapter three highlights the differences between Basic Interpersonal Communication Skills and Cognitive Academic Language Proficiency (or BICS vs. CALP) as well as the various categories of language learning and use strategies. In the fourth chapter, the presentation centers on EL2 testing and assessment. Chapter five is wholly devoted to my personal views, including my philosophy of language education, critiques of some scholarly views, and practical recommendations. Such views have had their inspiration and support from my experiences both as a learner and as a teacher.

**Mother-Daughter Wisdom** Christiane Northrup, M.D.,2006-03-28 With such groundbreaking bestsellers as *Women’s Bodies*, *Women’s Wisdom* and *The Wisdom of Menopause*, Dr. Christiane Northrup is one of today’s most trusted and visionary medical experts. Now she presents her most profound and revolutionary approach to women’s health. . . . The mother-daughter relationship sets the stage for our state of health and well-being for our entire lives. Because our mothers are our first and most powerful female role models, our most deeply ingrained beliefs about ourselves as women come from them. And our behavior in relationships—with food, with our children, with our mates, and with ourselves—is a reflection of those beliefs. Once we understand our mother-daughter bonds, we can rebuild our own health, whatever our age, and create a lasting positive legacy for the next generation. *Mother-Daughter Wisdom* introduces an entirely new map of female development, exploring the “five facets of feminine power,” which range from the basics of physical self-care to the discovery of passion and purpose in life. This blueprint allows any woman—whether or not she has children—to repair the gaps in her own upbringing and create a better adult relationship with her mother. If she has her own daughter, it will help her be the mother she has always wanted to be. Drawing on patient case histories and personal experiences, Dr. Northrup also presents findings at the cutting edge of medicine and psychology. Discover: •How to lay the nutritional foundation to prevent eating disorders and adult diseases •The truth about the immunization controversy-and the true meaning of immunity •How we can change our genetic health legacy •Why financial literacy is essential to women’s health •How to foster healthy sexuality and future “love maps” in our daughters •How to balance independence with caring, and individual growth with family ties Written with warmth, enthusiasm, and rare intelligence, *Mother-Daughter Wisdom* is an indispensable book destined to change lives and become essential reading for all women.

Social Determinants of Health in Non-communicable Diseases Katsunori Kondo, 2020-11-02 This book is open access under a CC BY-NC-ND 4.0 license. This open access book is the first compilation that reviews a wide range of social determinants of health (SDHs) for non-communicable diseases (NCDs) and healthy ageing in Japan. With the highest life expectancy and the largest elderly population in the world, Japan has witnessed health inequality by region and social class becoming more prevalent since the 2000s. The first half of this volume describes in detail major NCDs, such as cancers, heart and kidney diseases, diabetes, stroke, and metabolic syndrome. The second half, on the other hand, explores various SDHs relating to healthy ageing. All chapters review and focus on SDHs, particularly health inequality associated with socio-economic status and social capital, which are widely addressed in the field of social epidemiology. The book makes the argument that "Health for All" advocated by the WHO should be implemented based on social justice and benefits for the greater society. Public health researchers and policymakers, both in Japan and other nations, will gain scientific evidence from this book to prepare for the coming era as ageing becomes a global issue.

The Contemporary Violin Patricia Strange, Allen Strange, 2003-01-21 Written by a composer and a musician, The Contemporary Violin offers a unique menu of avant-garde musical possibilities that both performers and composers will enjoy exploring. Allen and Patricia Strange's comprehensive study critically examines extended performance techniques found in the violin literature of the latter half of the twentieth century. Drawing from both published and private manuscripts, the authors present extended performance options for the acoustic, modified, electric, and MIDI violin, with signal processing and computer-related techniques, and include more than 400 notated examples. The authors begin with bowing techniques and proceed systematically through other aspects of string playing, including MIDI technologies. Their correspondence and research with many performers and composers, the book's extensive score and text bibliography, and the discography of more than 130 recordings make The Contemporary Violin a valuable contemporary music reference and guide. An additional benefit is its listing of Internet resources that will keep the reader up to date with recent developments in contemporary performance and composition. First published by UC Press, 2001.
