Historic Photographic Processes: A Guide to Creating Handmade Photographic Images Richard Farber,1998-10-01 Historic Photographic Processes is a comprehensive user's guide to the historical processes that have become popular alternatives to modern and digital technology. Though many of the techniques, applications, and equipment were first developed in the nineteenth century, these same methods can be used today to create hand-crafted images that are more attractive and permanent than conventional prints or digital outputs. Fine-art photographer Richard Farber incorporates extensive research with clearly-written directions and resource lists to provide in-depth information on eight of the most enduring processes in photographic history, including salted paper, albumen, cyanotype, kallitype, platinum/palladium, carbon/carbro, gum bichromate, and bromoil. He guides the reader through each step, from selecting the appropriate paper and sensitizing it to exposing, developing, and toning the final print. Each method is accompanied by a short explanation of how it was originally used and its significance in the evolution of photography. Historic Photographic Processes contains more than fifty color and ten black-and-white images that beautifully illustrate each of the processes described. Chapters include an introduction to photographic techniques and applications, such as useful safelights, sizing paper, measuring solutions, exposure controls, ultraviolet light sources, and making enlarged negatives, as well as an extensive section on safety in- and outside of the darkroom. The appendix provides important information on the chemicals discussed, as well as health-and-safety references, supply sources in the United States, Canada, and Europe, and a complete catalog of Internet resources. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

**Using Internet Primary Sources to Teach Critical Thinking Skills in Geography** Gary S. Elbow,Martha B. Sharma,2000-09-30 Geography teachers and school library media specialists will find this resource indispensable for providing classroom lessons and activities in critical thinking for geography students in grades 7-12. It is filled with over 75 primary source Internet sites covering such topics as Places and Regions,

Physical Systems, Human Systems, Environment and Society, and the Uses of Geography, and will be an invaluable tool in helping teachers and librarians meet the standards set forth in the 1994 publication Geography for Life: National Geography Standards. Each site is accompanied by a site summary that describes the site contents and usefulness to geography teachers and school library media specialists. Site subjects include: Urban Landscapes, Volcanoes and Earthquakes, Weather, The U.S. Census, and the World Wildlife Fund Global Network. The questions and activities that follow are designed to develop critical thinking skills for both oral and written presentations. An appendix of additional geography resources includes Internet addresses for approximately 25 sites relating to maps, primary sources, and critical thinking. This will provide teachers and librarians with even more resources for developing lessons to help each student meet all 18 of the National Geography Standards.

**Sams Teach Yourself Microsoft Office FrontPage 2003 in 24 Hours** Rogers Cadenhead,2003 This book includes shortcuts and ways to accomplish the most common tasksin FrontPage. Readers are able to work at their own pace through the one-hour lessons. After completing the lessons, readers will have a solid foundation of the basics and know the most efficient way to utilize the new version of FrontPage.
