Irish Religious Conflict in Comparative Perspective John Wolffe, 2014-05-27 By setting the Irish religious conflict in a wide comparative perspective, this book offers fresh insights into the causes of religious conflicts, and potential means of resolving them. The collection mounts a challenge to views of 'Irish exceptionalism' and points to significant historical and contemporary commonalities across the Western world.

Stepping Up to Stepping Out: Helping Students Prepare for Life After College George S. McClellan, Jill Parker, 2012-06-21 Undergraduate students come to college from a myriad of pathways for a variety of purposes, and the same can be said of them as they leave to head off into their next endeavors. Arguably, the most important goal of higher education is to prepare students to achieve their postcollege aspirations, and campuses typically pursue

that goal through a combination of curricular and co-curricular programs and services for students. This issue offers readers a glimpse into contemporary context and practice related to helping students with their after-college transition from one form of education (two-year or four-year) to the next (four-year, graduate, or professional school), from education to workforce, or from education to military service. This is the 138th volume of this Jossey-Bass higher education quarterly series. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals, *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual.

Differential Diagnosis for the Advanced Practice Nurse Dr. Jacqueline Rhoads, Marilee Murphy Jensen, 2014-07-17 This clinical guide is targeted for nurse practitioner students and for those who are starting practice to help them with the basic skill of how to use the history and physical exam findings to form a differential diagnosis, and then evaluate the best treatment choice for common problems.

Conservation Alison Richmond, Alison Bracker, 2010-07-15 'Conservation: Principles, Dilemmas, and Uncomfortable Truths' presents multi-perspective critical analyses of the ethics and principles that guide the conservation of works of art and design, archaeological artefacts, buildings, monuments, and heritage sites on behalf of society. Contributors from the fields of philosophy, sociology, history, art and design history, museology, conservation, architecture, and planning and public policy address a wide range of conservation principles, practices, and theories from the US, Canada, Europe, Australia and New Zealand, encouraging the reader to make comparisons across subjects and disciplines. By wrestling with and offering ways of disentangling the ethical dilemmas confronting those who maintain and sustain cultural heritage for today and tomorrow, 'Conservation: Principles, Dilemmas, and Uncomfortable Truths' provides an essential reference text for conservation professionals, museum and heritage professionals, art and cultural historians, lecturers and students, and all others invested in cultural heritage theories and practices. Alison Richmond, as a Senior Conservator in the Victoria and Albert Museum and Deputy Head of the Conservation Department at the Royal College of Art, maintains teaching and research roles in conservation theory, principles and ethics, and has developed decision-making tools for conservators. She is an Accredited Conservator-Restorer (ACR), a Fellow of the International Institute for Conservation (FIIC), and a Trustee of the UK's Institute of Conservation (Icon) since 2005. Alison Bracker received her PhD in the History of Art from the University of Leeds, and manages the Events & Lectures programme at the Royal Academy of Arts in London. As co-founder of Bracker Fiske Consultants, she advises on the presentation, description, documentation, and care of artworks comprising modern media, and lectures and publishes widely on the theoretical and practical issues arising from the conservation of non-traditional and impermanent materials in contemporary works of art.

Preparing Nurses for Disaster Management - E-Book Joanne Langan, 2022-02-15 Learn how to plan for and respond to disasters! *Preparing Nurses for Disaster Management: A Global Perspective* helps you build the skills you need to prepare for, respond to, and recover from emergency situations efficiently and effectively. It includes the personal stories of nurses who have experienced disasters, describing the specific incident, the response, what worked or didn't work, and the lessons learned. Case studies show how to apply international response guidelines in providing care for those in need. Written by Joanne Langan, an internationally known expert in disaster preparedness, this reference will help you feel more confident in handling the aftermath of both natural and man-made disasters. Coverage of disaster management includes the stages of disaster response, nursing roles, and personal case studies of actual disasters and public health emergencies around the world, e.g., natural disasters, global earthquakes, radiation disasters, chemical disasters, biologic or infectious disease outbreaks, and man-made disasters. Actual Disasters unit provides a description of each event, preparedness, response, recovery, personal preparedness equipment, legal and ethical issues, special considerations, and lessons learned. Tabletop exercises and drills allow organizations and institutions to assess their readiness, determine community vulnerabilities, and prepare appropriate responses to disaster events such as an active shooter, cyberattacks, and the grid/power going down.

Case studies help you learn to apply concepts to practice. User-friendly content includes definitions of key terms and the role expectations for different nurse specialties and levels. Discussions of International Council of Nurses' Core Competencies in Disaster Nursing use this benchmark as an outline for effective nursing practice before, during, and after disasters. Reviews of psychiatric/mental health issues discuss interventions to improve mental health following disasters. Expert contributors share perspectives and experience from a number of different countries.

The Making of International Trade Policy Hannah Murphy, 2010-01-01 This book investigates the contributions of Non-Governmental Organizations (NGOs) to policymaking at the WTO, challenging the idea that NGOs can be narrowly understood as potential democratic antidotes to the imperfections of Inter-Governmental Organizations (IGOs). The book highlights the significance of interactions between states, NGOs and IGOs, in order to understand their contributions to international trade governance. Based on case studies in the areas of labour standards, intellectual property and investment rules, the author finds that NGO activities serve an agenda setting function: they publicize neglected traderelated issues, persuade others to support their positions, enhance the resources of less developed member states and highlight normative rationales for policy change. In evaluating NGO campaign tactics and emphasizing relations between NGOs and WTO member states, this book advances understandings of the parameters of NGO agency in global governance. The Making of International Trade Policy will appeal to scholars and students with an interest in NGOs, research institutes and thinktanks, as well as policymakers, national trade negotiators, government departments and the trade policy community. NGO personnel active on WTO and trade policy issues - both researchers and activists - will also find this book thought-provoking.

Mosquito Men David Price, 2022-10-13 In November 1940, a remarkable prototype aircraft made its maiden flight from an airstrip north of London. Novel in construction and exceptionally fast, the new plane was soon outpacing the Spitfire, and went on to contribute to the RAF's offensive against Nazi Germany as bomber, pathfinder and night fighter. The men who flew it nicknamed this most flexible of aircraft 'the wooden wonder' for its composite wooden frame and superb performance. Its more familiar name was the de Havilland Mosquito, and it used lightning speed and agility to inflict mayhem on the German war machine. From the summer of 1943, as Bomber Command intensified its saturation bombing of German cities, Mosquitos were used by the Pathfinder Force, which marked targets for night-time bombing, to devastating effect. Mosquito Men traces the contrasting careers of the young men of 627 Squadron, including that of Ken Oatley - last living member of an illustrious group - who flew twenty-two operations in Mosquitos as a navigator. David Price's atmospheric narrative interweaves the human stories of the crews of 627 Squadron with events in the wider war as the Allies closed in on Germany from the summer of 1944. Mosquito Men is rich in evocative and technically authoritative accounts of individual missions flown by an aircraft that ranks alongside the Spitfire, the Hurricane and the Lancaster as one of the RAF's greatest ever flying machines - and perhaps the most versatile warplane ever built. For those fans of the Mosquito aircraft recently described by Rowland White, Mosquito Men will add the human element to this iconic plane.

Integration of Medical and Dental Care and Patient Data Amit Acharya, Valerie Powell, Miguel H. Torres-Urquidy, Robert H. Posteraro, Thankam Paul Thyvalikakath, 2018-11-30 This largely revised second edition comprehensively reviews the need and rationale for the integration of medical and dental patient data. The reader will find extensive guidance on issues involved with care and data integration, and how to achieve an integrated model of healthcare. The book discusses how the use of state-of-the-art, fully integrated (dental-medical), electronic health records can improve clinical, financial as well as societal outcomes. In the book you will also find different aspects that

play a role in integration including existing clinical software implementations (and their paths for integration), clinical touch points, and how current and future developments will facilitate the integration process in a more efficient way. This second edition of *Integration of Medical and Dental Care and Patient Data* details the available methods and technologies for successfully integrating patient medical and dental data. It is, therefore, an important and timely update for informaticians and a broad range of both dental and medical professionals and other health professionals (dental assistants, hygienists, nurses) as well as clinical students entering the professional environment.

Women at Midlife Ski Hunter, Sandra Stone Sundel, Martin Sundel, 2002 The number of women at midlife served by the helping professions is substantial. Thorough and insightful, this book fills the gap in knowledge about these women and examines critical issues concerning family, caregiving, work, physical health, emotional and mental health, and more. Dispelling restrictive and outdated myths, the authors probe the meaning and direction of women at midlife. This scholarly volume, highlighted by compelling vignettes and backed by extraordinary research, explores the full range of midlife experiences, from how to define midlife to individual development to relationships with other family members. Social work instructors, students, and practitioners, as well as women who themselves are at midlife, will find that the work offers important professional and personal benefits.
