The Long Honduran Night Dana Frank,2018-11-27 This powerful narrative recounts the tumultuous time in Honduras that witnessed then-President Manuel Zelaya deposed by a coup in June 2009, told through first-person experiences and layered with deeper political analysis. It weaves together two perspectives; first, the broad picture of Honduras since the coup, including the coup itself, its continuation in two repressive regimes, and secondly, the evolving Honduran resistance movement, and a new, broad solidarity movement in the United States. Although it is full of terrible things, this not a horror story: this narrative directly counters mainstream media coverage that portrays Honduras as a pit of unrelenting awfulness, in which powerless sobbing mothers cry over bodies in the morgue. Rather, it's about sobering challenges and the inspiring collective strength with which people face them. Dana Frank is a professor of history at the University of California, Santa Cruz. She is the author of *Bananas: Women Transforming the Banana Unions of Latin America* from Haymarket Books. Since the 2009 military coup her articles about human rights and U.S. policy in Honduras have appeared in *The Nation*, *New York Times*, *Politico Magazine*, *Foreign Affairs.com*, *The Baffler*, *Los Angeles Times*, *Miami Herald*, and many other publications, and she has testified in both the US Congress and Canadian Parliament.

The Baby King Must Die! Robert W. Fuller,2007-12 Fuller's insightful book provides addicts, counselors, and laypeople with deeper insight into the already complicated lives of addicts whose selfish brains produce the erratic behaviors that cannot be turned off with demands, threats, or pleadings. (Motivation)

Presidential Elections Nelson W. Polsby,Aaron B. Wildavsky,David A. Hopkins,2008 Brimming with data and examples from the heated 2004 election, and laced with previews of 2008, the twelfth edition of this classic text offers a complete overview of the presidential election process from the earliest straw polls and fundraisers to final voter turnout and exit interviews. The comprehensive coverage includes campaign strategy, the sequence of electoral events, and the issues, all from the perspective of the various actors in the election process voters, interest groups, political parties, the media, and the candidates themselves.

Trivializing Teacher Education Dale D. Johnson,Bonnie Johnson,Stephen J. Farenga,Daniel Ness,2005-07-21 This book is a critical examination of the practices, processes, and tactics of the National Council for Accreditation of Teacher Education (NCATE), the largest accreditor of teacher education programs in the country. Those who have concerns about how well teachers are prepared in our country need to become aware of this influential organization and its stranglehold on teacher preparation.

Was the 2004 Presidential Election Stolen? Steven F. Freeman,Joel Bleifuss,2011-01-04 On the afternoon of election day 2004, the world was abuzz with the news: exit polls indicated that John Kerry would decisively win the election and become the next president of the United States. That proved not to be the case. According to the official count—the number of votes tallied, not necessarily the number of votes cast—George W. Bush beat Kerry by a margin of three million votes. The exit polls, however, had predicted a margin of victory for Kerry of five million votes. Occurrences of vote manipulation, vote suppression, and outright election fraud were alleged at the local level in many precincts throughout Ohio and other battleground states. Where the controversy of the 2000 presidential election had come about as the result of an extremely close race, in 2004 the irregularities were widespread and appeared to follow a clear pattern. Why then did the Democrats concede the election early the next morning? Why has there been no investigation by any major news organization? What does it say about our democracy when the slot machine industry is more strictly regulated than our electronic voting machines? *Was the 2004 Presidential Election Stolen?* analyzes the available data, and attempts to answer the question of whether America's sitting president was inaugurated after winning, or losing the 2004 presidential race.

Campaign Finance Robert E. Mutch,2016 Why did Congress create the Federal Election Commission?

Our Broken Elections John Fund,Hans von Spakovsky,2021-11-02 Behind the deeply contentious 2020 election stands a real story of a broken election process. Election fraud that alters election outcomes and dilutes legitimate votes occurs all too often, as is the bungling of election bureaucrats. Our election process is full of vulnerabilities that can be — and are — taken advantage of, raising questions about, and damaging public confidence in, the legitimacy of the outcome of elections. This book explores the reality of the fraud and bureaucratic errors and mistakes that should concern all Americans and offers recommendations and solutions to fix those problems.

Great Powers and Regional Orders Markus Kaim,2016-04-22 *Great Powers and Regional Orders* explores the manifestations of US power in the Persian Gulf and the limits of American influence. Significantly, this volume explores both the impact of US domestic politics and the role played by the region itself in terms of regional policy, order and stability. Well organized and logically structured, Markus Kaim and contributors have produced a new and unique contribution to the field that is applicable not only to US policy in the Persian Gulf but also to many other regional contexts. This will interest anyone working or researching within foreign policy, US and Middle Eastern politics.

[Piecing a Democratic Quilt?](#) Edward R. McMahon,Scott H. Baker,2006 Developing a global consensus on democratic entitlement has been, and continues to be, a daunting task. While domestic factors will always play a significant role, regional organizations are also shaping the adoption of democracy. McMahon and Baker fill the gaps in this story by assessing the differing approaches that regional organizations are developing to promote and protect member state adherence to democratic principles. Timely, and written in an engaging and readable style, *Piecing a Democratic Quilt?* provides essential insights and analysis of processes and organizations that affect the lives of everyone.--BOOK JACKET.

Librarians and Educators Collaborating for Success Marcia A. Mardis,2016-12-05 The first in the IASL-Libraries Unlimited partnership series, this book features contributions written by authors from around the world about their effective collaboration experiences. Collaboration between teachers and school librarians is a topic that is often discussed in the quest for educational excellence, but the international perspective is something that is rarely explored. This text documents the collaboration endeavors in international school libraries and—drawing upon research and direct experience—demonstrates effective collaboration experiences in a range of countries. It also features selected brief case studies as well as several original essays on the topic of collaboration between teachers and teacher librarians in curriculum planning. The result of a joint effort between Libraries Unlimited and the International Association of School Librarianship (IASL), this book shows how collaboration with teachers looks in the international arena. It addresses

topics such as collaborating for success with student searching, the roles of librarians and teachers in the research process, principal involvement, information literacy, inquiry-based learning, use of digital resources, models of collaboration for diversity, and evaluation of collaboration. Additionally, the current research findings presented will offer readers new insights into their profession.

The International Baccalaureate Diploma Program and the School Library Anthony Tilke,2011-03-11 This book, a blend of practice and theory, shows how the school library can contribute to the success of the International Baccalaureate Diploma Program. Written for librarians in schools that are applying to offer the program as well as those who already work with it, *The International Baccalaureate Diploma Program and the School Library: Inquiry-Based Education* provides information and strategies specifically relating libraries to the IBDP. The guide includes information about the IBDP ranging from the subject matrix to unique aspects of the program, such as the Theory of Knowledge course, the Extended Essay requirement, and the Learner Profile. The book also discusses other important features of IB programs, such as internationalism and academic honesty. Finally, it blends theory and practice by providing details and findings from the only two-year research study to follow students and teachers through the IBDP. The study demonstrates the role of the school library in the program, showing how both students and teachers used and valued it. Each chapter concludes with a series of points or strategies for the librarian to reflect upon and/or use as the basis of action.

Political Communication Ethics Robert E. Denton Jr.,2000-05-30 This essay collection examines ethical concerns related to the traditional areas of political communication, including campaigns, media, discourse, and advertising, as well as new technologies, including the Internet. In total, the collection provides one of the few volumes to examine political ethics from an academic perspective rather than from a moralistic or rule orientation. Bruce Gronbeck provides an assessment of presidential campaigns, arguing that ethical judgments of citizens are based on candidates' actions and motives, character, and competence. Ronald Lee explores the ethics of campaign discourse, and he charts the relationship between presidential candidates' projection of civic virtue and the political arrangements that dictate the course of the campaign itself. Steven Goldzwig and Patricia Sullivan examine what happens to discourse when the divide between the haves and have-nots translates into a local community disconnected from virtual politics. The nature, types, and impact of the growing use of hate speech in contemporary politics is explored by Rita Whillock, while Robert Denton investigates television as an instrument of governing and its impact on the nature of democracy. Gary Woodward looks at the ethics of political journalism, and Lynda Lee Kaid analyzes the ethical issues raised by political advertising in all forms. Clifford Jones looks at the impact of campaign finance rules on campaign communication strategy; Gary Selnow explores the ethics of politics on the Internet; and Robert Denton concludes by examining the relationship between constitutional authority and public morality. An important text for students as well as scholars investigating contemporary American politics.
