**Global Strategic Trade Management** Rajiv Nayan,2019-02-26 This book examines whether India is successfully integrating and adapting to the global strategic management system. It offers essential insights into the evolution of export controls for goods, which may have implications for the development of Weapons of Mass Destruction – an aspect that is especially relevant given India’s robust biotechnological, chemical and nuclear industrial base. In security studies, the phrase “strategic trade management” is now slowly replacing the phrase “export control”. However, for the policymaking community, export control remains popular, at least for the sake of reference. The book also describes the mechanisms India is adopting in this regard. It demonstrates the shift in the Indian approach to strategic trade management, from an outspoken critic to a supporter. Politically, the country was initially skeptical of the idea of export controls because it was a target of such systems. The book also explains the tools, forces and incentives that moved India to adapt its policy on export controls or strategic trade management.

**The EU's Human Rights Dialogue with China** Katrin Kinzelbach, 2014-10-03 The European Union uses a confidential, institutionalized Dialogue to raise human rights concerns with China, but little is publicly known about its set-up, its substance, its development over time and its impact. This book provides the first detailed reconstruction and assessment of the EU's responses to human rights violations in China from 1995 to the present day. Using classified documents in the EU's historical archives and interviews with diplomats, officials and human rights experts in Europe, China and the United States, Kinzelbach lifts the veil of secrecy on the EU-China Human Rights Dialogue and provides a rare insight into how the European Union and China conduct quiet diplomacy on human rights. The book reconstructs the evolution of the Dialogue and the EU's internal debate on the merits of quiet diplomacy, and draws comparisons with the approach of other actors, notably that of the United States. In doing so, the EU's relative impact is concluded to be tenuous if not counter-productive. The book also chronicles and analyzes numerous human rights concerns that were raised in the period, ranging from structural issues to individual cases. This ground-breaking, in-depth case study will be of interest to students and scholars of international politics, human rights, international law, EU politics, especially the EU's Common Foreign and Security Policy, and Chinese politics.

**Empire of the Fund** William A. Birdthistle, 2016-06-01 Empire of the Fund is an exposé and examination of the way we save now. With the rise of the 401(k) and demise of the pension, the United States has embarked upon the richest and riskiest experiment in our financial history. Over the next twenty years, nearly eighty million baby boomers will retire at a pace of ten thousand per day. The hypothesis of our experiment is that millions of ordinary, untrained, busy citizens can successfully manage trillions of dollars in a financial system dominated by wealthy, skilled, and powerful financial institutions, many of which have a record of treating individual investors shabbily. The key tools in our 401(k) plans and individual retirement accounts are mutual funds, which have ballooned to hold more than \$16 trillion. But these funds pose dangers to our savings in three ways: through structural vulnerabilities that give money managers the incentive to focus on marketing over investing; through the very human challenges of managing our savings decades into the future; and through the peril of financial professionals behaving badly, to our economic harm. Though Americans often hear of the importance of low fees in fund investing, few are aware of the astonishing panoply of ways that some financial advisers have illegally

diverted money out of mutual funds: from abetting hedge funds to trade after the legal deadline, to inflating the assets on which they are paid a percentage, to paying kickbacks for brokers to sell their funds. This book will forewarn and forearm Americans by illustrating the structural flaws, perverse incentives, and litany of scandals that have bedeviled mutual funds. And by setting forth a pair of policy solutions to improve Americans' financial literacy and bargaining power, it will also attempt to safeguard our individual financial destinies and our nation's fiscal strength.

NATO and the Western Balkans Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO's evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991, with a particular focus on Bosnia, Kosovo and the former Yugoslav Republic of Macedonia, in both the conflict and post-conflict phases. While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism, less has been written on NATO's overall role in these conflicts. This text, therefore, fills the gap, offering a thematic study of NATO's roles and duties in this region from the early 1990s to the present day. The 'levels of analysis' introduced by Mulchinock provide a new framework for examining NATO's response to the Yugoslav wars of secession, focusing on the role of key NATO member states and the role of different NATO Secretaries-General, along with the impact of inter-institutional cooperation (and conflict) with other international organisations.

**Social Media** Regina Luttrell, 2021-07-13 Updated to reflect the latest technological innovations and challenges, the fourth edition of Social Media gives students a comprehensive understanding of the principles behind social media, allowing them to manage social media platforms, including TikTok and Clubhouse, and succeed in the changing field of public relations.

**Reshaping World Politics** Craig Warkentin, 2001 This text examines the ways in which non-governmental organizations (NGOs) contribute to the development and maintenance of global civil society. The author investigates eight NGOs and connects their organizational activities to global civil society's constitutive dynamics and processes.

The New and Changing Transatlanticism Laurie Buonanno, Natalia Cuglesan, Keith Henderson, 2015-03-24 The European Union and the US are currently negotiating the Transatlantic Trade and Investment Partnership (TTIP), with potentially enormous economic gains for both partners. Experts from the European Union and the US explore not only the groundwork laid for TTIP under the New Transatlanticism, but also the key variables – economic, cultural, institutional, and political – shaping transatlantic policy outcomes. Divided into four parts, Part I, consisting of three chapters, contextualizes the transatlantic relationship with an historical survey, contemporary foreign relations and policy, and cultural dynamics. Together, these chapters provide the background for understanding the evolving nature of the EU-US relationship. Part II of this volume focuses on governance and comprises two chapters – one on transatlantic governance and the other administrative culture. Part III consists of six policy chapters: competition, trade, transport, mobility regimes, financial services regulation, and GMOs. Part IV, consisting of

three chapters, explores prospects and challenges associated with transatlanticism, including the TTIP. The last chapter concludes with lessons learned and future challenges with respect to policy convergence; the nature of the EU-US relationship; power, resources, and bargaining within the transatlantic partnership; and, an assessment of the future of deeper cooperation and integration. This insightful account into policy cooperation between the EU and the US is a welcomed resource for policy specialists oriented toward comparative public policy wishing to enter the arena of Transatlantic Studies.

Israel Yearbook on Human Rights, Volume 36 (2006) Yoram Dinstein, Fania Domb, 2006-11-01 The Israel Yearbook on Human Rights- an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971- is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war, with particular emphasis on problems relevant to the State of Israel and the Jewish people.

Israel's Strategic Agenda Efraim Inbar, 2013-09-13 Divided into two clear parts, the first part of this book examines political and economic factors in the global strategic environment including, the approach of US and EU foreign policies towards Israel, global trends in the field of defence industries and the energy sector and their implications for the Middle East and Israel. The second part focuses on Israel's strategic agenda as reflected in its military force design and doctrine, the dilemmas the country has faced in the course of fighting its wars of attrition, the relations between military and civil sectors in Israel, the struggle against Israel on the part of non-governmental organizations, Israel's main security challenges and national grand strategy. This book was previously published as a special issue of Israel Affairs.

**Fintech, Pandemic, and the Financial System** Suk-Joong Kim, 2023-01-17 Volume 22, Fintech, Pandemic, and the Financial System, examines systemic challenges faced by a wide range of financial market participants and the continued disruptions introduced by financial innovations (Fintech).

**The American Environment Revisited** Geoffrey L. Buckley, Yolonda Youngs, 2018-03-01 This innovative book provides a dynamic—and often surprising—view of the range of environmental issues facing the United States today. A distinguished group of scholars examines the growing temporal, spatial, and thematic breadth of topics historical geographers are now exploring. Seventeen original chapters examine topics such as forest conservation, mining landscapes, urban environment justice, solid waste, exotic species, environmental photography, national and state park management, recreation and tourism, and pest control. Commemorating the twenty-fifth anniversary of the publication of the seminal work *The American Environment: Interpretations of Past Geographies*, the book clearly shows much has changed since 1992. Indeed, not only has the range of issues expanded, but an increasing number of geographers are forging links with environmental historians, promoting a level of intellectual cross-fertilization that benefits both disciplines. As a result, environmental historical geographies today are richer and more diverse than ever. *The American Environment Revisited* offers a comprehensive overview that gives both specialist and general readers a fascinating look at our changing relationships with nature over time.

**Internet Guide to Knowledge Management and Intellectual Capital** Sabine Pekarz, 2002-03-07 Inhaltsangabe: Abstract: This survey has shown that, although the internet is full of information, it is difficult to find the information required fast. Before starting an internet survey, it is essential to be conscious of the intention of the search and the expected results and to translate this into one or more keywords. The intention of the keyword searches knowledge management and intellectual capital was to find out how the topic is treated on different pages. The categorization by content has shown that a main part of the links can be assigned in the advertisement categories. This is the case for both, the hits of MetaCrawler and those of Umap. A further community of the results of the two search instruments is that the categories knowledge base and best practices only take a small part whereas the categories content discussion and collection of resources are relatively well-attended. Great importance has been attached to the category content discussion in the index and chapter 6 is fully dedicated to interesting links concerning the content. This is because the discussion of the topics, combined with definitions and explanations, is the background and the basis for the rest of the categories. As the assignment to the category content discussion does not declare anything about the quality of the discussions, the index in chapter 4 has to be included in the study. Strictly speaking, a great part of those links is dedicated to advertisement and gives some explanations concerning the topics. It has been detected that most of the pages with content discussion give only a short introduction into the topic. The pages that examine the topics more closely are an exception to the rule. Five links of this minority are introduced in chapter 6. Two of them are very interesting pages concerning the content. They are listed at top position, because different opinions concerning knowledge management and intellectual capital are introduced, the topics are treated in great detail and the explanations are good and quite easy to duplicate. In order to find out, if the results are capable to represent the totality, the reliability of the categorization, built up with Umap (artificial intelligence) and that built by human intelligence have been analyzed with the means of hypotheses. The test of the hypotheses, that are based on a comparison of the results and processes of the categorizations, has shown that the categorization by [...]
