🄿 Virtual Reference Services Stacey Kimmel,Jennifer Heise,2003-09-10 A state-of-the-art guide to virtual reference services! This essential book provides a snapshot of virtual reference (VR) services in all kinds of library settings and discusses the issues, trends, and practices involved in offering this kind of service. The chapters go beyond descriptions of services to offer practical advice and suggestions for product selection, policy setting, technical support, collaborative efforts, staffing, training, marketing, budgeting, evaluation, and administration. Case studies, relevant Web sites, and vendor information are included. An ample selection of tables, figures, and illustrations makes important information easy to access and understand. From the editors: "The purpose of this book is to describe the state of the art in virtual reference services, by which we mean real-time, interactive reference service with a librarian, offered online via chat or videoconferencing. Significant players in virtual reference services have prepared chapters for this book. Some of these address virtual reference as a service trend. Others describe services in a variety of settings, including public, academic, and special libraries. Some focus on one aspect of virtual reference, such as statistics/evaluation, policy setting, or the reference interaction. Our intent is to provide an opportunity for reflection on the impact of virtual reference services on librarians, clients, and libraries, as well as to offer a glimpse of the future." Virtual Reference Services: Issues and Trends addresses topics that will help institutions and VR professionals provide more effective services. Chapters focus on: the principles and concepts of continuous quality improvement (CQI) for virtual reference, such as the Kano Model of user satisfaction—and how it can help libraries improve their VR services a case study of the adoption of VR service at the Suffolk Cooperative Library System in

New York, with emphasis on the benefits of maintaining a user-centered perspective to help inform decisions about procedures and services staff selection, structuring the work environment, scheduling, and other VR issues at a large university library collaborative VR services in the state of New Jersey and the development of the "Q and A NJ" initiative and the experiences of two participating public libraries the development and testing of innnovative software developed through a partnership with a high tech company statewide and regional VR collaboration in Florida, with a comprehensive and detailed overview of that state's VR initiatives post-implementation issues such as high call volume, difficult users, training and quality assessment, and service improvement a report from a medical/dental library participating in a multitype library collaborative VR service—with insights on budgeting, training, administration/coordination, morale, marketing, user reaction, and how a health sciences library contributes to (and benefits from) this kind of initiative VR services at The Boeing Corporation a model and framework for collecting and making use of statistical data in a VR service, with AskERIC's implementation as an example the nature of the user-librarian VR interaction, with an insightful analysis of chat transcripts from Carnegie Mellon University how users interact with various services offered on library Web pages, with an illuminating comparison of the use of the library Web site search tool at Southern Illinois University-Carbondale vs. the use of the VR service available on that site

⚆ **Blindsight** Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

the sgt 600 industrial twin shaft gas turbine modeling - Oct 05 2022

web oct 1 2015 here the off design performance and behavior of the axial compressor component of a 25 mw industrial gas turbine derived from the sgt 600 gas turbine 36 are modeled and studied

sgt600 pdf gas turbine electricity generation scribd - Dec 07 2022

web makes it ideal for simple cycle combined climates ranging from hot deserts to arctic cycle cogeneration and other heating cold oil platforms and harsh industrial applications environments small footprint for easy fitting variable power turbine speed 50 to 105

the sgt 600 industrial twin shaft gas turbine modeling for - Mar 30 2022

web this paper presents the sgt 600 twin shaft gas turbine design and off design model for mechanical drive applications also the integration of components and component matching of the gas turbine at base and part loads are studied

sgt 600 siemens power genereration pdf catalogs - Sep 04 2022

web catalog excerpts 24 5 mw e gross efficiency heat rate turbine speed pressure ratio exhaust mass flow exhaust temperature note all performance values are based on standard design iso ambient conditions and natural gas fuel siemens energy is a trademark licensed by siemens ag
