**Running Cultures** John Bale,2004-06 Running is one of the world's most widely practised sports and recreations. This book 'reads between the lines' of both running and some of its textual and visual representations. It deals with the runner's body and also with the globalisation of running and its practitioners. Although it focuses mainly on serious running, it also examines alternative forms of the sport such as jogging. Drawing on a variety of sources including literature, poetry, art, sculpture, statistics and training manuals, Running Cultures breaks new ground in several ways. It introduces the work of the renowned humanist.

*Handbook of Pediatric and Adolescent Obesity Treatment* William T. O'Donohue,Brie A. Moore,Barbara J. Scott,2008-02-22 This volume brings together behavioral, medical, and public health approaches and provides the knowledge necessary for a wide range of practitioners to effectively address the current obesity epidemic among children and adolescents. The book addresses several themes in pediatric and adolescent obesity. Experts in the field discuss the prevalence, etiology, and sequelae of pediatric and adolescent obesity, as well as the medical and behavioral assessment of the overweight child, adolescent, and family. The book offers a comprehensive understanding of the wide range of approaches to pediatric and adolescent obesity treatment, in order to promote an individualized approach that will best fit the patient and family.

Runner's World Run Less, Run Faster Bill Pierce,Scott Murr,Ray Moss,Editors of Runner's World Maga,2012-04-10 The Furman Institute of Running and Scientific Training (known as FIRST) is dedicated to make running more accessible and limit overtraining and burnout while producing faster race times. FIRST is one of the foremost experts in the world on the science of running; its authority is unmatched and the promise of training less and accomplishing more has made the first two editions of Run Less, Run Faster a solid and steady seller. With 50 percent updated content, this new edition of Runner's World Run Less, Run Faster by Bill Pierce, Scott Murr, and Ray Moss continues to promise the same tantalizing results: Readers can get stronger, faster, and better by training less. It will also include more sections for novice runners, broadening the audience appeal, as well as training plans tailored to the new qualifying times for the Boston Marathon. The quality-over-quantity approach optimizes training time and yields better performance—results runners will love no matter what distance they are racing.

*Parenting Young Children* Paris S. Strom,Robert D. Strom,2010-01-01 Parents feel that a fast-paced lifestyle requires constant hurry to complete the next task and causes them to lose control over how time is spent. This environment makes it more difficult to build relationships with their children and teach them to honor priorities, care about others, maintain health, manage conflicts, and achieve balance. Our cross-cultural studies of families have found that the most important gift parents can give their children is spending time together. Being together without multitasking or other interruptions increases sharing, in depth conversations, learning, and closeness. This book shows how to prepare children for school by providing the following experiences. • Parents have a new obligation, introducing their children to the Internet. Parent and child Internet visits are presented for each chapter with guidelines for teaching online. Information about child development stages are provided for parents on additional Web sites. You can link to these Web sites at Information Age Publishing (<http://www.infoagepub.com/strom-young-children>) • Parents and children spend more time watching television together than doing other things. Conversation questions are provided as a tool that parents can use to find out how children interpret events they see and detect learning needs. • Children will more likely become creative adults if they receive support for imagination and curiosity. Examples illustrate the merits of playing alone, playing with friends, and pretending with parents. • Boys and girls like bedtime stories and are motivated to read when they see parents read for pleasure. Children's books that are recommended for discussion reinforce values parents hope to convey. • Parents are responsible for teaching foundation lessons about socialization. Methods are described to foster development of child self-control, getting along with others, managing fears, and setting goals. • Parents benefit from feedback on how well their goals and practices reflect

principles of child development. A parent self-evaluation form includes questions and answers to identify personal strengths and learning needs. This book is for parents, grandparents, and other educators of young children ages 3 to 8.

**Scream If You Want to Run Faster** Julie Creffield, 2017-01-08 Are you too embarrassed to join a running club for fear of getting left behind? Perhaps you have been running for a while now but are sick of always being the slow one plodding at the back? Or maybe you are just done with being dead last at every event you enter. Well now is the time to pull on your big girl superhero pants, summon your inner warrior princess and unleash the beast inside you in an exciting, awe inspiring quest to discover your faster than you ever imagined 5K. Scream if you want to Run Faster dispels the myth that improving your running speed as a plus sized runner is impossible...or even remotely difficult. With a simple change in attitude and a new found belief that you can actually improve this book with its 7 simple techniques will absolutely transform your pace and running confidence...and in just 60 days. This book also helps you to identify the villains in the running world and highlights the unhelpful barriers we place upon ourselves when it comes to speed and running confidence, and absolutely forbids you to use the S word ever again. The techniques in this book were tested on 100 women from the Fat Girls Guide to Running community, and the results were incredible, with most women who completed the programme knocking 5% off their time, but many smashed this eliminating between 5 and 10 minutes off of their initial 5k baseline times. Who is the Author? Julie Creffield is an award winning blogger, author, life coach and entrepreneur behind the Too Fat to Run global movement. She runs the world's only online running club for plus size women, and has clients from every continent in the world. Her online programmes help women at every stage of their journey whether starting out wanting to conquer the 5k distance, or women training for their first marathon...and her super incredible members taking on ultra marathons and Iron Mans. Julie has been running for more than 10 years now and has done 3 full marathons, a Tough Mudder and hundreds of other races at a range of distances...and all in her plus size body. Using the techniques in this book she took her 5k time from almost 50 minutes to 30.06....and is now focussing on getting a sub 60 minute 10K for 2017.

**Nutrition in Public Health** Arlene Spark, Lauren M. Dinour, Janel Obenchain, 2015-09-22 This second edition of a bestseller, *Nutrition in Public Health: Principles, Policies, and Practice* focuses on the role of the federal government in determining nutrition policy and influencing practice. Beginning with an overview of public health principles, the book examines the application of nutritional policy to dietary guidance, health promotion, and the practice of public health nutrition. Highlights of New Coverage in the Second Edition: Legislation such as Healthy, Hunger-Free Kids Act of 2010; Agricultural Act of 2014 (Farm Bill); and proposals for the next Farm Bill Discussions of study designs, the SEED-SCALE model for health promotion, health disparities and health equity, worksite wellness, Let's Move!, and other initiatives Impact of the ACA on menu labeling policies, the Ryan White HIV/AIDS Act, and legislation regarding breastfeeding Examination of health disparities, demographic trends, and health literacy; sexual orientation, gender identity, and gender expression; and the role of social media in tailored health communications 2010 Dietary Guidelines with analysis of potential upcoming changes in 2015 Dietary Guidelines, Healthy Eating Index 2010, MyPlate, and Harvard Healthy Eating Plate Best Bones Forever! Campaign, text messaging for tailored health communication, and 4 Day Throw Away study assessing the use of social media for education regarding food safety The book explores the importance of nutrition as a component of the broad field of public health. The authors review the principles of public health nutrition, examining nutritional epidemiology and programs that deal with health disparities, weight control challenges, and the needs of special populations. The text addresses the practice of public health nutrition through tools for conducting a food and nutrition assessment of a community, designing and carrying out a social marketing campaign, and developing large and small grant proposals. *Nutrition in Public Health* provides an integrated view of nutrition needs and the policies and political mechanisms that affect the delivery of quality food and nutrition services. It gives students a thorough understanding of the federal government's role in determining nutrition policy and influencing practice.

*Run Less, Run Faster* Bill Pierce, 2021 Advises on how to run faster by running less, providing a variety of training programs tailored to qualifying times for the Boston Marathon and an overview of the 3PLUS2 program aimed at improving endurance.

*Economics of Betting Markets* David Peel, 2013-09-13 During the last few decades, commercial gambling has increased substantially throughout the Western world. More people than ever before have access to sources of legalised gambling, leading to bumper revenues for the institutions involved. Naturally enough, this has led to an increased interest in the area of the economics of betting. This book addresses the issues raised by the continued growth of the gambling sector. How can we model the behaviour of people who seemingly act irrationally? What are the implications of different tax policies with regard to gambling? Are casinos capable of taking money away from state-run lotteries and the causes they fund? Can bookmakers' odds be influenced in such a way as to make the gambling market inefficient? The authors in this volume provide insights based on data from many different countries, including England, the USA, Australia, Spain and Cyprus. This volume brings together work which addresses the economic impact of the huge growth of commercial gambling in the Western world, as well as trying to model the cognitive processes which can explain why individuals are prepared to behave in such apparently irrational ways. This book was published as a special issue of Applied Economics. The academic editor of this journal is Mark P. Taylor.

*The Missile Defense Controversy* Ernest Yanarella, 2010-09-12 This revised and updated edition identifies the cultural factors and specific administrative agendas that have shaped the way we view ballistic missile technology. Three new sections connect our recent, sudden shifts in foreign policy to ongoing historical patterns. Whether cautioning against the “almost neurotic pursuit of absolute security” or examining the powerful influence of religion on military buildup, Ernest J. Yanarella uncovers the deeply ingrained attitudes that will determine the future of American missile defense.

Running Mac OS X on Windows Wei-Meng Lee, 2006-08-31 For a long time, a lot of Windows users have been clamoring for the opportunity to run the Mac OS X operating system on their Windows PCs. As Mac OS X was designed to run on a different CPU architecture (PowerPC), running Mac OS X directly on Intel's CPU would not work. It wasn't until recently that PC users saw a ray of hope, when Apple announced that it was moving to Intel's CPU architecture and would hence port Mac OS X to run natively on Intel's x86 CPU architecture. However, the joy was short-lived, as Mac OS X can still run properly only on Apple's customized hardware, not commodity PCs that run Windows. (There are hacks to make Mac OS X run natively on PC hardware, but that is not the legal way to do it). The only logical means of running the Mac OS X operating system on your Windows PC is to run it in an emulator capable of emulating the PowerPC CPU architecture. While popular virtualization software programs like Virtual PC and VMware have been around in

the market for a long time, none support running Mac OS X. Fortunately, an open source project, PearPC, makes it possible to run Mac OS X on Windows. PearPC is an architecture-independent PowerPC platform emulator. (It is released under the General Public License (GPL)-a freely used free software license.) PearPC emulates the PowerPC architecture by using a JIT (Just-in-Time) emulator to dynamically translate PowerPC code into x86 code. In this Short Cut, you will learn how to install Mac OS X on your Windows PC using PearPC. I will walk you through all the steps needed to successfully get Mac OS X working, as well as configure additional settings to make Mac OS functional.

**New Trends and Opportunities for Central and Eastern European Tourism** Nistoreanu, Puiu,2019-12-13 Within the past decade, there has been a re-emergence of tourism in Europe, especially in the central and eastern regions. With socialism becoming a distant memory, these former communist countries are now attractive destinations for travel. Research on this current phenomenon is essential, as professionals and scientists must stay informed on the modern development of this global region. New Trends and Opportunities for Central and Eastern European Tourism provides emerging research exploring the theoretical and practical aspects of contemporary tourism in Eastern Europe and its effect on economics and sociology. Featuring coverage on a broad range of topics such as monument protection, economic features, and socialist architecture, this book is ideally designed for travel agents, tour developers, restaurateurs, hotel management, economic analysts, government officials, policymakers, tourism journalists, tourism practitioners, researchers, and professors seeking current research on the development of travel in Eastern and Central Europe.

**WHOIS Running the Internet** Garth O. Bruen,2015-10-02 Discusses the evolution of WHOIS and how policy changes will affect WHOIS' place in IT today and in the future This book provides a comprehensive overview of WHOIS. The text begins with an introduction to WHOIS and an in-depth coverage of its forty-year history. Afterwards it examines how to use WHOIS and how WHOIS fits in the overall structure of the Domain Name System (DNS). Other technical topics covered include WHOIS query code and WHOIS server details. The book also discusses current policy developments and implementations, reviews critical policy documents, and explains how they will affect the future of the Internet and WHOIS. Additional resources and content updates will be provided through a supplementary website. Includes an appendix with information on current and authoritative WHOIS services around the world Provides illustrations of actual WHOIS records and screenshots of web-based WHOIS query interfaces with instructions for navigating them Explains network dependencies and processes related to WHOIS utilizing flowcharts Contains advanced coding for programmers Visit the book's companion website <http://whois.knujon.com> for technical and policy documents concerning WHOIS, WHOIS code examples, internet locations for WHOIS databases and more. WHOIS Running the Internet: Protocol, Policy, and Privacy is written primarily for internet developers, policy developers, industry professionals in law enforcement, digital forensic investigators, and intellectual property attorneys. Garth O. Bruen is an Internet policy and security researcher whose work has been published in the Wall Street Journal and the Washington Post. Since 2012 Garth Bruen has served as the North American At-Large Chair to the Internet Corporation of Assigned Names and Numbers (ICANN). In 2003 Bruen created KnujOn.com with his late father, Dr. Robert Bruen, to process and investigate Internet abuse complaints (SPAM) from consumers. Bruen has trained and advised law enforcement at the federal and local levels on malicious use of the Domain Name System in the way it relates to the WHOIS record system. He has presented multiple times to the High Technology Crime Investigation Association (HTCIA) as well as other cybercrime venues including the Anti-Phishing Working Group (APWG) and the National Center for Justice and the Rule of Law at The University of Mississippi School of Law. Bruen also teaches the Fisher College Criminal Justice School in Boston where he develops new approaches to digital crime.

**The Remaking of Social Contracts** Gita Sen,Marina Durano,2014-09-11 Development Alternatives with Women for a New Era (DAWN) argues that social contracts must be recreated if they are to fulfil the promise of human rights. In The Remaking of Social Contracts, leading thinkers and

activists address a wide range of concerns - global economic governance, militarism, ecological tipping points, the nation state, movement-building, sexuality and reproduction, and religious fundamentalism. These themes are of wide-ranging importance for the survival and well-being of us all, and reflect the many dimensions and inter-connectedness of our lives. Using feminist lenses, the book puts forward a holistic and radical understanding of the synergies, tensions and contradictions between social movements and global, regional and local power structures and processes, and it points to other alternatives and possibilities for this fierce new world.

The Barefoot Running Book Second Edition: A Practical Guide to the Art and Science of Barefoot and Minimalist Shoe Running Jason Robillard, 2010  
The Barefoot Running Book (second edition) provides expert advice for new and experienced runners interested in making the transition to barefoot or minimalist shoe running. Why? Because runners find shedding their heavy, overly-cushioned shoes provides a more enjoyable running experience while reducing injury and allowing better form. Jason Ribald uses a combination of research, collaboration, and his own experiences to bring the latest methods for making a safe, enjoyable transition to barefoot or minimalist shoe running. This new expanded second edition includes training plans, information on ultramarathons, photos, tested running tips and helpful hints. Includes contributions from top barefoot runners and experts including Barefoot Ted McDonald, Barefoot Rick Roeber, Dr. Daniel Lieberman, Dr. Michael Nirenberg, Dr. Mark Cucuzzella, Dr. Scott Hadley, Dr. Joseph Froncioni, and many more.

**Evolution of Government Policy Towards Homosexuality in the US Military** James E. Parco, David A. Levy, 2016-09-17  
Throughout history, homosexuality has been a complicating factor for men and women electing to serve in the armed forces of the United States. The right to serve became increasingly complicated when the Department of Defense responded to congressional legislation in 1993 by adopting a policy that later became known as don't ask, don't tell (DADT). DADT permitted homosexual members to serve in the forces, so long as they showed no evidence of homosexual behavior. The compromise policy remained in force until Congress passed the Don't Ask, Don't Tell Repeal Act of 2010 and finally, in September 2011, the ban on gay men and lesbians serving openly in the US armed forces officially came to an end. Reflecting on the 20-year period governed by DADT, this volume explores the history, culture, attitudes and impacts of policy evolution from the mid-20th Century through to the present day. It not only provides insight to the scholarly field of how the most powerful institution in the world has viewed and dealt with homosexuality as it transitioned into the 21st century, but it is also poised to become a seminal collection for researchers in the decades to come. This book was originally published as a special issue of the Journal of Homosexuality. Parco and Levy have produced a fine edited volume dedicated to deepening our understanding of the federal DADT policy. What has resulted is a deep analysis of the federal policies regarding gays and lesbians in the U.S. military. This volume is filled with rich descriptions and analyses written by the very best thinkers about issues pertaining to gays and lesbians in the U.S. military. Parco and Levy not only offer a comprehensive treatment of DADT, but their book will stand the test of time and spur additional important research about gay, lesbian, bisexual, and queer service members. The Rise and Fall of DADT is accessibly written and offers readers a comprehensive understanding of the DADT federal policy and the attendant issues of equity, social justice and ever-changing attitudes about LGBTQ people related to the U.S. military and to the larger American society. John P. Elia, Ph.D. Editor-in-Chief, Journal of Homosexuality and Professor and Associate Chair of Health Education at San Francisco State University, USA As Assistant Secretary of Defense for Public Affairs from 2010 to 2012, and the first openly-gay senior official to serve at the Pentagon, I was witness to and honored to be an active participant in the historic process that led to the ban on discrimination against lesbian and gay service members: men and women who had been hiding in plain sight while risking their lives to serve their country honorably. In this volume, Jim Parco and Dave Levy provide what is perhaps the most comprehensive account to date of the evolution of US government policy regarding LGBT service members. Their study includes outstanding firsthand narratives by many friends who played central roles in

the repeal of Don't Ask/Don't tell, including Sue Fulton, Jonathan Lee and former Congressman Patrick Murphy. Parco and Levy provide the opportunity for scholars, experts and ordinary citizens from all walks of life to share in those journeys and in the very positive results that were achieved. Douglas B. Wilson, former Assistant Secretary of Defense for the United States
