Human development Patricia Layzell Ward,Darlene E. Weingand,2013-08-26 The International Federation of Library Associations and Institutions (IFLA) is the leading international body representing the interests of library and information services and their users. It is the global voice of the information profession. The series IFLA Publications deals with many of the means through which libraries, information centres, and information professionals worldwide can formulate their goals, exert their influence as a group, protect their interests, and find solutions to global problems.

Saudi Arabia in a Multipolar World Zakir Hussain,2016-04-14 The Kingdom of Saudi Arabia has established itself as the twelfth-largest economy in the world, the largest West Asian economic power, world's largest oil producer, and a strong and capable force in international politics, particularly in the Sunni Islamic world. However, at present it is at crossroads. Should it continue as a 'kingdom' or usher in the process of inclusive political representation? This volume answers such questions and explores how the state is coping with domestic, regional and global developments to remain relevant in the changing times. It provides a holistic overview of a slew of economic, political, cultural, military and security policy measures that have been initiated by the government. The work also offers a detailed analysis of Saudi Arabia's relations with three significant powers – USA, China and India – and how they are evolving under new geopolitical and geostrategic dynamics. This book will interest strategists, policymakers, researchers and students of international relations, geopolitics, political science and political economy as well as the informed reader.

EMBEC & NBC 2017 Hannu Eskola,Outi Väisänen,Jari Viik,Jari Hyttinen,2017-06-12 This volume presents the proceedings of the joint conference of the European Medical and Biological Engineering Conference (EMBEC) and the Nordic-Baltic Conference on Biomedical Engineering and Medical Physics (NBC), held in Tampere, Finland, in June 2017. The proceedings present all traditional biomedical engineering areas, but also highlight new emerging fields, such as tissue engineering, bioinformatics, biosensing, neurotechnology, additive manufacturing technologies for medicine and biology, and bioimaging, to name a few. Moreover, it emphasizes the role of education, translational research, and commercialization.
