Arab Media Noha Mellor, Khalil Rinnawi, Nabil Dajani, Muhammad I. Ayish, 2013-05-20 This book provides a clear and authoritative introduction to the emerging Arab media industries in the context of globalization and its impacts, with a focus on publishing, press, broadcasting, cinema and new media. Through detailed discussions of the regulation and economics of these industries, the authors argue that the political, technological and cultural changes on the global media scene have resulted in the reorganization of the Arab media field. They provide striking examples of this through the particular effects on media policies, media technology and the content and genres developed for the new generation of media consumers. As part of the book's overview of the contemporary characteristics of Arab media, the authors outline the development of the role of modern Arab media from a tool of mobilizing the public to a tool of commercial and symbolic profit. Overall, the volume illustrates how the Arab region represents a unique case where the commercialization and liberalization of selected media industries has gone hand in hand with continuous state intervention and an increasing self censorship. Written for students without prior knowledge of the topic, Arab Media will be essential reading for all interested in the contemporary global media industries.

The Deepteachings of Merlyn Douglas Monroe, 2014-12-01 This is the third and final volume of Douglas Monroe's Merlyn series. The Dark Age of Druidism of Merlyn was entirely based upon the teachings of the Pheryllt, a British Megalithic Priesthood whose practices and philosophies set the essence of what later Druidism would become - set, quite literally, in stone. Drawing once again upon the 16th Century Book of Pheryllt in addition to countless other volumes from Plato to Einstein, the author clearly establishes that the answers to nature's deepest questions lie well within our capacity to grasp - providing we understand how to look at the completed picture. Does the mind possess supernormal abilities? Does individuality survive bodily death? Is rebirth the evolutionary design of a Creator? As a young military commander in training, Arthur now faces his deepest trials as he challenges Merlyn with these three ultimate questions. Alongside him, begin your own quest to search out - and find! - answers to these and many other age-old mysteries.

Niklas Zennström and Skype Jason Porterfield, 2013-07-15 In 2003, Swedish businessman Niklas Zennström sent out an email message to his friends,

asking them to take a look at a new Web site called Skype.com. With that message, he launched one of the most popular Internet services of the early twenty-first century. Skype revolutionized the way that people communicated by offering free and low-cost phone calls to anywhere in the world through the Internet. In the years since Zennström sent that e-mail message, more than six hundred million people worldwide have become Skype users. This informational text is aligned to content areas in social science and technology, providing readers with a compelling look at the technological world of Internet start-ups and Zennström's cutting-edge business savvy. The insightful narrative includes sidebars on some of the company's innovations, a biographical fact sheet on Zennström, and a fact sheet that profiles the company's achievements. A timeline provides students with a succinct overview of Zennström's life and Skype's history.

Global Media Giants Benjamin Birkinbine, Rodrigo Gomez, Janet Wasko, 2016-07-01 *Global Media Giants* takes an in-depth look at how media corporate power works globally, regionally, and nationally, investigating the ways in which the largest and most powerful media corporations in the world wield power. Case studies examine not only some of the largest media corporations (News Corp., The Microsoft Corporation) in terms of revenues, but also media corporations that hold considerable power within national, regional, or geolinguistic contexts (Televisa, The Bertelsmann Group, Sony Corporation). Each chapter approaches a different corporation through the lens of economy, politics, and culture, giving students and scholars a thoughtful and data-driven guide with which to interrogate contemporary media industry power.
