Doing Democracy Nancy S. Love, Mark Mattern, 2013-12-01 Demonstrates how activists and others use art and popular culture to strive for a more democratic future. *Doing Democracy* examines the potential of the arts and popular culture to extend and deepen the experience of democracy. Its contributors address the use of photography, cartooning, memorials, monuments, poetry, literature, music, theater, festivals, and parades to open political spaces, awaken critical consciousness, engage marginalized groups in political activism, and create new, more democratic societies. This volume demonstrates how ordinary people use the creative and visionary capacity of the arts and popular culture to shape alternative futures. It is unique in its insistence that democratic theorists and activists should acknowledge and employ affective as well as rational faculties in the ongoing struggle for democracy. □ Nancy S. Love and Mark Mattern have collected a first-rate set of

studies that illuminate the intersection between art and politics in the contemporary era. The text demonstrates how activist art and cultural politics can promote democratic politics and how democracy is enriched and enlivened by activist art projects. This book should interest everyone concerned with the fate of art and democracy in the contemporary era and how they can help nourish each other. □ □ Douglas Kellner, author of *Media Spectacle and Insurrection, 2011: From the Arab Uprisings to Occupy Everywhere*

Introduction to Film Nick Lacey, 2016-04-28 This core textbook offers a concise yet complete introduction to film, responding to shifts in the medium while addressing all of the main approaches that inform film studies. The rise of on demand internet-based video has transformed the way films are distributed and exhibited, with many previously unobtainable and obscure films becoming available for global audiences to view instantly. Interweaving historical and current theoretical approaches, Nick Lacey presents a tightly-focused and coherent overview of a discipline in transition, which can be

read 'cover to cover' or in distinct chapters. With its original narrative line and student-oriented philosophy, the text greatly enriches student's appreciation of cinema, while equipping them with the essential skills and vocabulary to succeed in film studies. This is an ideal foundational text for all lecturers, undergraduate or A-level students of film and cinema studies, as well as enthusiasts of film and cinema looking for a comprehensive guide. New to this Edition: - Content reflecting the increasing importance of production contexts, in chapters focusing exclusively on the film business, distribution and exhibition - A more detailed chapter on representation and greater emphasis on audience - Updated content addressing the significance of transnational cinema, drawing on a more global, non-Hollywood range of film examples and case studies from Europe, Asia and Latin America - Text is broken up by a wider variety of film stills, representing world cinema from the classics to the latest in contemporary cinema

Experiencing Gigli with Quality Audio Paul James, 2021-08-03 Music is a foundational language of being human. The singing voice can speak and depict the human condition with great expressiveness, and plays a hugely important role in music. However, scant attention has been paid to vocal reproduction in hi fidelity reproduction of music. Despite his huge profile as an opera singer, now, many years after his passing, Beniamino Gigli has been overlooked by many. These two themes intersect as no artist no longer living can be better recognised than being brought back to life by playing their music. Yet, with a singing voice as remarkable as Gigli's, no ordinary attempt at audio reproduction will do it justice. Not only does this book explore and explain what is involved in the hi fidelity reproduction of the voice, it also discusses why Gigli's singing is special and is still relevant in our musical era. His music highlights in stark relief changes that have happened in the recording and playback of music. In addition, while changes to listening practices have been well-studied, the implications for the experience of music have not. As Ernest Hemmingway said, most people never listen. Listening is an art, choice and gift. Through Gigli, this book also provides insights into the value of thoughtful listening. Listening begins and ends with, and is inseparable from, patience. When we make the time,

music can gives us a glimpse of something beyond the horizons of materialism or our contemporary values.

Beowulf Jodi-Anne George, 2009-12-09 Of unknown authorship, Beowulf is an Old English epic poem which incites contentious debate and has been endlessly interpreted over the centuries. This Reader's Guide provides a much-needed overview of the large body of Beowulf criticism, moving from 18th century reactions to 21st century responses. Jodi-Ann George: - Charts the changes in critical trends and theoretical approaches applied to the poem. - Includes discussion of J. R. R. Tolkien's pioneering 1936 lecture on Beowulf , and Seamus Heaney's recent translation. - Analyses Beowulf in popular culture, addressing the poem's life in film versions, graphic novels, music and comics. Clear and engaging, this is an indispensable introductory guide to a widely-studied and enigmatic work which continues to fascinate readers everywhere.

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software
