**Microsoft Azure Essentials Azure Machine Learning** Jeff Barnes,2015-04-25 Microsoft Azure Essentials from Microsoft Press is a series of free ebooks designed to help you advance your technical skills with Microsoft Azure. This third ebook in the series introduces Microsoft Azure Machine Learning, a service that a developer can use to build predictive analytics models (using training datasets from a variety of data sources) and then easily deploy those models for consumption as cloud web services. The ebook presents an overview of modern data science theory and principles, the associated workflow, and then covers some of the more common machine learning algorithms in use today. It builds a variety of predictive analytics models using real world data, evaluates several different machine learning algorithms and modeling strategies, and then deploys the finished models as machine learning web services on Azure within a matter of minutes. The ebook also expands on a working Azure Machine Learning predictive model example to explore the types of client and server applications you can create to consume Azure Machine Learning web services. Watch Microsoft Press's blog and Twitter (@MicrosoftPress) to learn about other free ebooks in the Microsoft Azure Essentials series.

A Complete Grammar of Esperanto (illustrated) IVY KELLERMAN, Illustrated with 10 images. This book will be a descriptive grammar of the Esperanto language invented by L. L. Zamenhof, which will be complete and comprehensive in regards to a) the grammar of Esperanto as first outlined by Zamenhof in Fundamento de Esperanto and other foundational documents, and b) Esperanto as it is spoken today by the most committed Esperantists. (Proposed reforms to the Esperanto language will be discussed if they have serious support from a significant fraction of Esperanto enthusiasts). This book was started practically on a dare from the August 2006 issue of Bob's Poetry Magazine, in which Robert Happelberg boasted that he could print a complete and comprehensive grammar of Esperanto in just one 6 by 7 inch page. While this is obviously wrong, it's not too far off the mark. When completed, this book will require several standard size (8.5 by 11 in the USA) pages, but will still be much shorter than a complete grammar of a natural language like English or Slovene. In view of this goal, the number of examples provided for each concept will be kept to a bare minimum. Those wishing to build their Esperanto vocabularies are also referred to the Esperanto textbooks. It is acceptable in the beginning to word the text in an accessible manner like in a textbook, but the goal should be for all the text to be technical with a full command of linguistic jargon.

"My Clan Against the World": U.S. and Coalition Forces in Somalia 1992-1994 ,2004 This study examines the American military's experience with urban operations in Somalia, particularly in the capital city of Mogadishu. That original focus can be found in the following pages, but the authors address other, broader issues as well, to include planning for a multinational intervention; workable and unworkable command and control arrangements; the advantages and problems inherent in coalition operations; the need for cultural awareness in a clan-based society whose status as a nation-state is problematic; the continuous adjustments required by a dynamic, often unpredictable situation; the political dimension of military activities at the operational and tactical levels; and the ability to match military power and capabilities to the mission at hand.

*The Kosovo Report* Independent International Commission on Kosovo, The@independent international commission on Kosovo, Independent International Commission on, 2000-10-19 The war in Kosovo was a turning point: NATO deployed its armed forces in war for the first time, and placed the controversial doctrine of 'humanitarian intervention' squarely in the world's eye. It was an armed intervention for the purpose of implementing Security Council resolutions-but without Security Council authorization. This report tries to answer a number of burning questions, such as why the international community was unable to act earlier and prevent the escalation of the conflict, as well as focusing on the capacity of the United Nations to act as global peacekeeper. The Commission recommends a new status for Kosovo, 'conditional independence', with the goal of lasting peace and security for Kosovo-and for the Balkan region in general. But many of the conclusions may be beneficially applied to conflicts the world-over.
