*Musicmakers of Network Radio* Jim Cox, 2014-01-10 Before television, radio was the sole source of simultaneous mass entertainment in America. The medium served as launching pad for the careers of countless future stars of stage and screen. Singers and conductors became legends by offering musical entertainment directly to Americans in their homes, vehicles, and places of work and play. This volume presents biographies of 24 renowned performers who spent a significant portion of their careers in front of a radio microphone. Profiles of individuals like Steve Allen, Rosemary Clooney, Bob Crosby, Johnny Desmond, Jo Stafford, and Percy Faith, along with groups such as the Ink Spots and the King's Men, reveal the private lives behind the public personas and bring to life the icons and ambiance of a bygone era.

**Cyber Worship in Multifaith Perspectives** Mohamed Taher, 2006 Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an 'everything you need to know' guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.
