County Courthouse Book Elizabeth Petty Bentley,2009 The County Courthouse Book is a concise guide to county courthouses and courthouse records. It is an important book because the genealogical researcher needs a reliable guide to American county courthouses, the main repositories of county records. To proceed in his investigations, the researcher needs current addresses and phone numbers, information about the coverage and availability of key courthouse records such as probate, land, naturalization, and vital records, and timely advice on the whole range of services available at the courthouse. Where available he will also need listings of current websites and e-mail addresses. -- Publisher website.

Between Manuscript and Print Sylvia Brockstieger,Paul Schweitzer-Martin,2023-07-24 A cross-cultural, comparative view on the transition from a predominant 'culture of handwriting' to a predominant 'culture of print' in the late medieval and early modern periods is provided here, combining research on Christian and Jewish European book culture with findings on East Asian manuscript and print culture. This approach highlights interactions and interdependencies instead of retracing a linear process from the manuscript book to its printed successor. While each chapter is written as a disciplinary study focused on one specific case from the respective field, the volume

as a whole allows for transcultural perspectives. It thereby not only focusses on change, but also on simultaneities of manuscript and printing practices as well as on shifts in the perception of media, writing surfaces, and materials: Which values did writers, printers, and readers attribute to the handwritten and printed materials? For which types of texts was handwriting preferred or perceived as suitable? How and under which circumstances could handwritten and printed texts coexist, even within the same document, and which epistemic dynamics emerged from such textual assemblages?

Integrating Research and Education National Research Council, Division on Earth and Life

Studies,Board on Life Sciences,Planning Group for the Workshop on Integrating Education in Biocomplexity Research,Bridget K. B. Avila,2003-06-02 The workshop summary provides guidance for researchers applying to the National Science Foundation (NSF) for funding. New NSF guidelines require applications to address the broader impact of the proposed research. Presentations at the workshop provided ideas on how to do this by engaging in undergraduate education, K-12 education or public outreach via museums or journalists. The workshop summary discusses issues to consider in choosing an appropriate collaborator for the education or outreach component of the project and how to build in methods for assessing the success of the project. It also provides lists of resources helpful in writing education proposals and discusses the similarities between research in education and scientific research.

The Environmental Brief Richard Hyde,Steve Watson,York St John Business School Steve Watson,Wendy Cheshire,Mark Thomson,2007-01-24 The built environment is responsible for an estimated forty-five per cent of all greenhouse gas emissions. As the greatest opportunities for reducing these emissions occur during the briefing and design processes, the pathway to better design lies in preparing environmental briefs, and using these to drive building design and produce buildings of high environmental performance. This process-driven book looks at the theoretical issues involved in an environmental brief, and outlines methods by which architects can approach the writing of a brief that considers all aspects of the natural and the built environment, and relates these concepts to a number of case studies from around the world.

Queen Hedwig Eleonora and the Arts Lisa Skogh, 2017-07-05 As queen consort and dowager, Hedwig Eleonora (1636?1715) held a unique position in Sweden for more than half a century. As the dominant collector and patron of art and architecture in the realm, she left a strong mark on Swedish court culture. Her dynastic network among the Northern European courts was extensive, and this helped to make Sweden a major cultural center in Northern Europe in the later seventeenth century. This book represents the first major scholarly publication on the full range of Hedwig Eleonora's endeavours, from the financing of her court to her place within a larger princely network, to her engagements with various cultural pursuits, to her public image. As the contributors show, despite her high profile, political position, and conspicuous patronage, Hedwig Eleonora experienced little of the animosity directed at many other foreign queens and regents, such as the Medici in France and Henrietta Maria in England. In this way, she provides a model for a different and more successful way of negotiating the difficulties of joining a foreign court; the analysis of her circumstances thus adds a substantial dimension to the study of early modern queenship. Presenting much new scholarship, this volume highlights one extremely significant early modern woman and her imprint on Northern European history, and fosters international awareness of the importance of early modern Scandinavia for European cultural history.
