Robert Frost's Poetry of Rural Life George Monteiro,2015-02-23 "Wise old Vergil says in one of his Georgics, 'Praise large farms, stick to small ones,'" Robert Frost said. "Twenty acres are just about enough." Frost started out as a school teacher living the rural life of a would-be farmer, and later turned to farming full time when he bought a place of his own. After a sojourn in England where his first two books were published to critical acclaim, he returned to New England, acquired a new farm and became a rustic for much of the rest of his life. Frost claimed that all of his poetry was farm poetry. His deep admiration for Virgil's Georgics, or poems of rural life, inspired the creation of his own New England "georgics," his answer to the haughty 20th-century modernism that seemed certain to define the future of Western poetry. Like the "West-Running Brook" in his poem of the same name, Frost's poetry can be seen as an embodiment of contrariness.

*That's It, I Quit* Dean Giannone,2003-09 About two-thirds of smokers want to quit smoking. So, why don't they? Because it's hard to quit, that's why. There are so many forces opposing smokers, it's a wonder that anyone is able to quit smoking. Those that are successful at quitting recognize the forces against them, and develop strategies to beat them. That's It, I Quit: A Guide to Quitting Smoking Forever outlines why people fail at their attempts to quit, and includes techniques to avoid failure. Author and physician Dean F. Giannone reveals the obstacles smokers face and offers individualized strategies to quit smoking forever. As a physician, I have seen the entire spectrum of the nicotine addiction and the smoking habit, from the young recreational smoker to the older medically-compromised hospital patient. I recognize the importance of stopping this progression to illness as soon as possible. Read this book, and stop smoking now. -Dean F. Giannone, M.D.

**They Must Be Stopped** Brigitte Gabriel,2008-09-02 They Must Be Stopped is New York Times bestselling author Brigitte Gabriel's warning to the world: We can no longer ignore the growth of radical Islam--we must act soon, and powerfully. Gabriel challenges our western and politically-correct notions about Islam, demonstrating why radical Islam is so deadly and how we can halt its progress. Brigitte Gabriel speaks her mind: \*Fundamentalist Islam is a religion rooted in 7th century teachings that are fundamentally opposed to democracy and equality. \*Radical Islamists are utterly contemptuous of all infidels (non-Muslims) and regard them as enemies worthy of death. \*Madrassas in America are increasing in number, and they are just one part of a growing radical Islamic army on US soil. \*Radical Islam exploits the US legal system and America's protection of religion to spread its hatred for western values. \*America must organize a unified voice that says enough to political correctness, and demands that government officials and elected representatives do whatever is necessary to protect us. Brigitte Gabriel has fearlessly faced down critics, death threats, and political correctness, and is one of the most sought after terrorism experts in the world. They Must Be Stopped is her clarion call to action. Gabriel thoroughly addresses the historical and religious basis of radical Islam, its frightening encroachment into societies around the world, and its abuses of democracy in the name of religion.

**Territoriality, Citizenship and Peacebuilding** Kelechi A. Kalu, 2013-06-29 Civil conflicts in Africa range from few interstate wars to several intrastate conflicts characterized by secessionist movements, irredentism, coups and counter coups, genocide, wars of liberation to resource-based wars. The varied causes of conflicts in the continent's diverse and complex social formations are seen in ethnic terms and include struggles for economic/environmental resources, poor institutions of governance and issues of identity such as religion, language and racial differences. The core issue addressed in this volume is how to understand and explain the structural and analytical reasons for persistent civil conflicts in Africa. The core assumption is that most civil conflicts in Africa erupt largely because of the nature of state formation in the continent. Other significant variables that are explored as explanations for the persistent instances of civil conflicts in sub-Saharan Africa and the slow efforts at nation-building across the continent include issues of territoriality, climate change, ethnicity, ideological incongruities, institutional problems, the nature of postcolonial state, unreformed governance and economic structures, and corruption. This book also examines some sources of unresolved issues of territoriality and explains their connections to political violence and socio-political and cultural tensions across sub-Saharan Africa. It offers suggestions on how scholarly research and policies could help mediate if not mitigate future territorially-based conflicts in Africa.
