A Strange Disappearance Anna Green,2018-02-12 Talking of sudden disappearances the one you mention of Hannah in that Leavenworth case of ours, is not the only remarkable one which has come under my direct notice. Indeed, I know of another that in some respects, at least, surpasses that in points of interest, and if you will promise not to inquire into the real names of the parties concerned, as the affair is a secret, I will relate you my experience regarding it. The speaker was Q, the rising young detective, universally acknowledged by us of the force as the most astute man for mysterious and unprecedented cases, then in the bureau, always and of course excepting Mr. Gryce; and such a statement from him could not but arouse our deepest curiosity.

Hauntings of the Underground Railroad Jane Simon Ammeson, 2017-08-01 Stories of the runaway slaves who left their spirits behind. “An easy read and an odd collection of tales of murders, mayhem, madness, and sadness.” —Folklore Before the Civil War, a network of secret routes and safe houses crisscrossed the Midwest to help African Americans travel north to escape slavery. Although many slaves were able to escape to the safety of Canada, others met untimely deaths on the treacherous journey—and some of these unfortunates still linger, unable to rest in peace. In *Hauntings of the Underground Railroad: Ghosts of the Midwest*, Jane Simon Ammeson investigates unforgettable and chilling tales of these restless ghosts that still walk the night. This unique collection includes true and gruesome stories, like the story of a lost toddler who wanders the woods near the Story Inn, eternally searching for the mother torn from him by slave hunters, or the tale of the Hannah House, where an overturned oil lamp sparked a fire that trapped slaves hiding in the basement and burned them alive. Brave visitors who visit the house, which is now a bed and breakfast, claim they can still hear voices moaning and crying from the basement. Ammeson also includes incredible true stories of daring escapes and close calls on the Underground Railroad. A fascinating and spine-tingling glimpse into our past, *Hauntings of the Underground Railroad* will keep you up all night.

Close Encounters of the Fatal Kind Nick Redfern, 2014-06-23 From a journalist specializing in conspiracy theories, an examination of mysterious deaths and missing persons related to sightings of UFO phenomena. Everyone has heard of Close Encounters of the Third Kind. But what about close encounters of the fatal kind? The field of UFOs is rife with unsettling examples of suspicious deaths. Accounts of accidents that might not have been accidents after all, abound. Researchers and witnesses have vanished, never to be seen again. Conveniently timed heart attacks are reported. Out-of-the-blue suicides that, upon investigation, bear the distinct hallmarks of murder, are all too common. And grisly deaths at the hands of both extraterrestrials and government agents have occurred. Highlights of *Close Encounters of the Fatal Kind* include: The strange saga of the incredible melting man The UFO-related death of the first U.S. Secretary of Defense, James Forrestal The mysterious disappearances of military

pilots and their connection to UFOs The connections between national security and the sudden deaths of UFO investigators Getting too close to the cosmic truth about alien abductions Roswell, and what the government really knows about UFOs can—clearly—be a deadly business The government's latest admission of the existence of Area 51 is barely the tip of a very big iceberg.

Learn the truth behind the famous murder ballad Tom Dooley. Delve into the criminal history of moonshine, and the tales of two unexpected bombers in idyllic Mayberry. Mediated Politics W. Lance Bennett, Robert M. Entman, 2000-11-20 Mediated Politics explores the changing media environments in contemporary democracy: the internet, the decline of network news and the daily newspaper; the growing tendency to treat election campaigns as competing product advertisements; the blurring lines between news, ads, and entertainment. By combining new developments in political communication with core questions about politics and policy, a distinguished roster of international scholars offers new perspectives and directions for further study. Several broad questions emerge from the book: with ever-increasing media outlets creating more specialized segments, what happens to broader issues? Are there implications for a sense of community? Should media give people only what they want, or also what they need to be good citizens? These and other tensions created by the changing nature of political communication are covered in sections on the changing public sphere; shifts in the nature of political communication; the new shape of public opinion; transformations of political campaigns; and alterations in citizens' needs and involvement.

Culture in Mind Karen A. Cerulo, 2013-05-13 What is thought and how does one come to study and understand it? How does the mind work? Does cognitive science explain all the mysteries of the brain? This collection of fourteen original essays from some of the top sociologists in the country, including Eviatar Zerubavel, Diane Vaughan, Paul Dimaggio and Gary Alan Fine, among others, opens a dialogue between cognitive science and cultural sociology, encouraging a new network of scientific collaboration and stimulating new lines of social scientific research. Rather than considering thought as just an individual act, Culture in Mind considers it in a social and cultural context. Provocatively, this suggests that our thoughts do not function in a vacuum: our minds are not alone. Covering such diverse topics as the nature of evil, the process of storytelling, defining mental illness, and the conceptualizing of the premature baby, these essays offer fresh insights into the functioning of the mind. Leaving the MRI behind, Culture in Mind will uncover the mysteries of how we think.
