Special Edition Using Microsoft Office 2007 Ed Bott, Woody Leonhard, 2006-12-22 Special Edition Using Microsoft® Office 2007 THE ONLY OFFICE BOOK YOU NEED We crafted this book to grow with you, providing the reference material you need as you move toward Office proficiency and use of more advanced features. If you buy only one book on Office 2007, Special Edition Using Microsoft® Office 2007 is the only book you need. If you own a copy of Office 2007, you deserve a copy of this book! Although this book is aimed at the Office veteran, Ed and Woody's engaging style will appeal to beginners, too. Written in clear, plain English, readers will feel as though they are learning from real humans and not Microsoft clones. Sprinkled with a wry sense of humor and an amazing depth of field, this book most certainly isn't your run-of-the-mill computer book. You should expect plenty of hands-on guidance and deep but accessible reference material. This isn't your Dad's Office! For the first time in a decade, Microsoft has rolled out an all-new user interface. Menus? Gone. Toolbars? Gone. For the core programs in the Office family, you now interact with the program using the Ribbon—an oversize strip of icons and commands, organized into multiple tabs, that takes over the top of each program's interface. If your muscles have memorized Office menus, you'll have to unlearn a lot of old habits for this version.

Beta Test Eric Griffith, 2011-12 PUBLISHERS WEEKLY: An unusually lighthearted apocalyptic tale. Sam Terra is having a bad week. He lost Molly, the woman he secretly loves, when she vanished before his eyes at the exact same time that ten percent of the inhabitants of Earth disappeared. Naturally upset, Sam follows clues about the global vanishing with questionable help from his friends including a misanthropic co-worker and a childhood pal. When Molly reappears in the body of a man during a night of monster-laden devastation, Sam finally learns the truth. Not just about her, but about the planet Earth and the entire cosmos surrounding it. What we consider mundane reality, others consider a game . . . and not a very good one. The whole thing is about to be shut down.
