Theorizing Local Migration Law and Governance Moritz Baumgärtel, Sara Miellet, 2022-09-22 In many regions around the world, the governance of migration increasingly involves local authorities and actors. This edited volume introduces theoretical contributions that, departing from the 'local turn' in migration studies, highlight the distinct role that legal processes, debates, and instruments play in driving this development. Drawing on historical and contemporary case studies, it demonstrates how paying closer analytical attention to legal questions reveals the inherent tensions and contradictions of migration governance. By investigating socio-legal phenomena such as sanctuary jurisdictions, it further explores how the law structures ongoing processes of (re)scaling in this domain. Beyond offering conceptual and empirical discussions of local migration governance, this volume also directly confronts the pressing normative questions that follow from the growing involvement of local authorities and actors. This title is also available as Open Access on Cambridge Core.

How We Forgot the Cold War Jon Wiener, 2012-10-15 Hours after the USSR collapsed in 1991, Congress began making plans to establish the official memory of the Cold War. Conservatives dominated the proceedings, spending millions to portray the conflict as a triumph of good over evil and a defeat of totalitarianism equal in significance to World War II. In this provocative book, historian Jon Wiener visits Cold War monuments, museums, and memorials across the United States to find out how the era is being remembered. The author's journey provides a history of the Cold War, one that turns many conventional notions on their heads. In an engaging travelogue that takes readers to sites such as the life-size recreation of Berlin's Checkpoint Charlie at the Reagan Library, the fallout shelter display at the Smithsonian, and exhibits about Sgt. Elvis, America's most famous Cold War veteran, Wiener discovers that the Cold War isn't being remembered. It's being forgotten. Despite an immense effort, the conservatives' monuments weren't built, their historic sites have few visitors, and many of their museums have now shifted focus to other topics. Proponents of the notion of a heroic Cold War

victory failed; the public didn't buy the official story. Lively, readable, and well-informed, this book expands current discussions about memory and history, and raises intriguing questions about popular skepticism toward official ideology.

A Manufactured Plague Abigail Woods, 2013-06-17 Foot and mouth disease (FMD) is currently regarded as one of the world's worst animal plagues. But how did this label become attached to a curable disease that poses little threat to human health? And why, in the epidemic of 2001, did the government's control strategy still rely upon Victorian trade restrictions and mass slaughter? This groundbreaking and well-researched book shows that, for over a century, FMD has brought fear, tragedy and sorrow- damaging businesses and affecting international relations. Yet these effects were neither inevitable nor caused by FMD itself but were, rather, the product of the legislation used to control it, and in this sense FMD is a 'manufactured' plague rather than a natural one. A Manufactured Plague turns the spotlight on this process of manufacture, revealing a rich history beset by controversy, in which party politics, class relations, veterinary ambitions, agricultural practices, the priorities of farming and the meat trade, fears for national security and scientific progress all made FMD what it is today.

Her beauty ignites a blaze of excitement in his troubled heart. But Francine is ravenous for attention, driven by a thirst for conquest, and when Ralph tries politely to extricate himself, he finds he is bound by chains of consequence from which it seems there is no escape. In **The Temporary**, Rachel Cusk paints a merciless portrait of the cut and thrust of modern romance, work, and life.
