The Internet for Radiology Practice Amit Mehta, 2007-11-23 The Internet has proven to be a great resource for the medical community. It has specifically had a great impact on the practice of Radiology. It has enabled the proliferation, installation, and acceptance of adjunct technologies such as Picture Archiving (PACS), electronic medical record (EMR) and Voice Recognition (VR). The number of radiology-specific web sites just 5 years ago was about 30. A recent compilation now numbers in the thousands. Computer technology and the Internet have revolutionized the way radiologists work on a daily basis. All aspects of the Internet and related technologies are explained in this book.

Comparative Perspectives on E-government Peter Hernon, Rowena Cullen, Harold Relyea, 2006 In the 1990s, many governments began to use information and communications technologies, especially Internet applications, to improve the efficiency and economy of government operations and to provide their citizens, the business community, and government officials with information and services. The goal of e-government is to become entrenched in the everyday lives of these people so that they become reliant on Internet access to government. *Comparative Perspectives on E-government* draws upon the expertise of its contributors, who have conducted research and policy analyses related to government information policy and e-government, and who have published previously in these areas. The focus of coverage is on five countries (Australia, Canada, New Zealand, the United Kingdom, and the United States) and topical issues such as the digital divide, the balance between access and security in the aftermath of 9-11, trust in government, the citizen's perspective on e-government, and the

evaluation of government Web sites. The book addresses the need to understand the phenomenon of e-government better_its development, mission and goals, success in achieving those goals, and future plans_extending an inquiry to both developed and developing countries. An additional need for detailed cross-country analyses and comparisons, introduced here, is also addressed.

Managing Performance Geert Bouckaert,John Halligan,2007-12-20
In recent years, concerns over the effectiveness of public administration have encouraged the widespread measurement and management of 'performance'. But is performance management an appropriate model for public sector organizations, and has it proved successful? Moreover, how do the principles of performance management affect how public bodies operate, and the way they relate to the wider community? In this important text, the viability of performance management in public sector organizations is systematically assessed across a number of international case studies. The book provides a framework through which models of performance management can be understood in terms of both their impact within a public sector organization, and the effects that have been seen in countries with contrasting administrative contexts. Managing Performance – International Comparisons critically examines the effects of performance management models in the public sector, and assesses their future evolution. It is an important book for all students and researchers with an interest in management, public administration and public policy.

Technical Assessment of Dry Ice Limits on Aircraft Michael John Murphy,T. I. McSweeney,2013 TRB's Hazardous Materials

Cooperative Research Program (HMCRP) Report 11: Technical Assessment of Dry Ice Limits on Aircraft describes a technical approach to determining the maximum quantity of dry ice that may be safely carried aboard aircraft. The report includes guidelines for helping to determine safe limits for carriage of dry ice on commercial airplanes and a CD-ROM-based software tool designed to assist in determining appropriate dry ice loadings. The CD-ROM is packaged with the print version of the report. -- publisher's description

Medical Gridlock And Health Reform Eli Ginzberg, 2019-04-11

The early 1990s saw the U.S. health care system under intensifying pressures and strains as a consequence of steeply rising expenditures, an increase in the number of uninsured persons, and a range of other challenges, including increasingly severe pressures on government and employers, the principal payers for health care. As a consequence of these

Architecture as a Performing Art Marcia Feuerstein, Gray Read, 2016-04-15 How do buildings act with people and among people in the performances of life? This collection of essays reveals a deep alliance between architecture and the performing arts, uncovering its roots in ancient stories, and tracing a continuous tradition of thought that emerges in contemporary practice. With fresh insight, the

authors ask how buildings perform with people as partners, rather than how they look as formal compositions. They focus on actions: the door that offers the possibility of making a dramatic entrance, the window that frames a scene, and the city street that is transformed in carnival. The essays also consider the design process as a performance improvised among many players and offer examples of recent practice that integrates theater and dance. This collection advances architectural theory, history, and criticism by proposing the lens of performance as a way to engage the multiple roles that buildings can play, without reducing them to functional categories. By casting architecture as spatial action rather than as static form, these essays open a promising avenue for future investigation. For architects, the essays propose integrating performance into design through playful explorations that can reveal intense relationships between people and place, and among people in place. Such practices develop an architectural imagination that intuitively asks, 'How might people play out their stories in this place?' and 'How might this place spark new stories?' Questions such as these reside in the heart of all of the essays presented here. Together, they open a position in the intersection between everyday life and staged performance to rethink the role of architectural design.

The Duties Of The Vizier G. P. F. Van Den Boorn, 2014-05-12 Part of a collection on Studies in Egyptology, and originally published in 1988, this monograph looks at 'Rekhmara expedie les affaires du gouvernement' a text by Phillippe Virey which describes the organisation of the Egyptian State under the eighteenth Dynasty. It was later renamed as 'The Duties of the Vizier'.

Scribal Tools in Ancient Israel Philip Zhakevich, 2020-12-15 In this book, Philip Zhakevich examines the technology of writing as it

existed in the southern Levant during the Iron Age II period, after the alphabetic writing system had fully taken root in the region. Using the Hebrew Bible as its corpus and focusing on a set of Hebrew terms that designated writing surfaces and instruments, this study synthesizes the semantic data of the Bible with the archeological and art-historical evidence for writing in ancient Israel. The bulk of this work comprises an in-depth lexicographical analysis of Biblical Hebrew terms related to Israel's writing technology. Employing comparative Semitics, lexical semantics, and archaeology, Zhakevich provides a thorough analysis of the origins of the relevant terms; their use in the biblical text, Ben Sira, the Dead Sea Scrolls, and ancient Hebrew inscriptions; and their translation in the Septuagint and other ancient versions. The final chapter evaluates Israel's writing practices in light of those of the ancient world, concluding that Israel's most common form of writing (i.e., writing with ink on ostraca and papyrus) is Egyptian in origin and was introduced into Canaan during the New Kingdom. Comprehensive and original in its scope, *Scribal Tools in Ancient Israel* is a landmark contribution to our knowledge of scribes and scribal practices in ancient Israel. Students and scholars interested in language and literacy in the first-millennium Levant in particular will profit from this volume.

Art Information and the Internet Lois Swan Jones, 2013-12-16 In the first book of its kind, art information expert Lois Swan Jones discusses how to locate visual and textual information on the Internet and how to evaluate and supplement that information with material from other formats--print sources, CD-ROMS, documentary videos, and microfiche sets--to produce excellent research results. The book is divided into three sections: Basic Information Formats; Types of Websites and How to Find Them; and How to Use Web Information.

Jones discusses the strengths and limitations of Websites; scholarly and basic information resources are noted; and search strategies for finding pertinent Websites are included. Art Information and the Internet also discusses research methodology for studying art-historical styles, artists working in various media, individual works of art, and non-Western cultures--as well as art education, writing about art, problems of copyright, and issues concerning the buying and selling of art. This title will be periodically updated.

Connecting the Sustainable Development Goals: The WEF Nexus Laura Cavalli,Sergio Vergalli,2022-06-20 This contributed volume offers a state-of-the-art, holistic overview of the employment of a

Water-Energy-Food (WEF) Nexus approach to implement the seventeen United Nations Sustainable Development Goals (SDGs), with a geographical focus on applications in different African regions. The book is divided into three sections, each composed of several chapters contributed by experts in their respective fields. Section I introduces the WEF Nexus and its role in the achievement of the 2030 Agenda and the SDGs. It highlights the attempt to connect different spheres of sustainability thanks to the Nexus, taking advantage of the existing interlinkages and interconnections among the Goals. Section II proposes a multi-scale and multi-stakeholder approach to various aspects of the Nexus and reviews existing quantitative tools. This section focuses on the issue of resource control and development aims and spotlights how Nexus dynamics influence the achievement of the SDGs as a whole. Section III applies the WEF Nexus to different African regions, which are balancing a rising population and an economic boom with severe vulnerability in the face of climate change. Chapter “Review of the Economic Impact of Water Availability on Food Security and the Related Ecosystems” is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Coaching and Mentoring Simon Western, 2012-07-18 Coaching is often discussed as if it is a new 'profession' without adequate attention to how it has evolved, what underpins its practice or its training methods. Situating coaching in a wider social and historical context, Coaching and Mentoring that contemporary 'coaching theory' is more

a collection of models and approaches mostly transferred from psychotherapy theory. Coaching claims to liberate creativity but can also entrap us by individualizing social experience. This vital new book brings a fresh and critical perspective on coaching and mentoring, challenging its normative assumptions and narratives, and proposing an ethical and emancipatory approach that takes it beyond instrumentalism and individualism.
