Race in American Television [2 volumes] David J. Leonard, Stephanie Troutman Robbins, 2021-01-26 This two-volume encyclopedia explores representations of people of color in American television. It includes overview essays on early, classic, and contemporary television and the challenges for, developments related to, and participation of minorities on and behind the screen. Covering five decades, this encyclopedia highlights how race has shaped television and how television has shaped society. Offering critical analysis of moments and themes throughout television history, *Race in American Television* shines a spotlight on key artists of color, prominent shows, and the debates that have defined television since the civil rights movement. This book also examines the ways in which television has been a site for both reproduction of stereotypes and resistance to them, providing a basis for discussion about racial issues in the United States. This set provides a significant resource for students and fans of television alike, not only educating but also empowering readers with the necessary tools to consume and watch the small screen and explore its impact on the evolution of racial and ethnic stereotypes in U.S. culture and beyond. Understanding the history of American television contributes to deeper knowledge and potentially helps us to better apprehend the plethora of diverse shows and programs on Netflix, Hulu, YouTube, and other platforms today.

Politics and the American Television Comedy Doyle Greene, 2015-01-28 This work examines the unique and ever-changing relationship between politics and comedy through an analysis of several popular American television programs. Focusing on close readings of the work of Ernie Kovacs, Soupy Sales, and Andy Kaufman, as well as *Green Acres* and *The Gong Show*, the author provides a unique glimpse at the often subversive nature of avant-garde television comedy. The crisis in American television during the political unrest of the late 1960s is also studied, as represented by individual analyses of *The Monkees*, *The Smothers Brothers Comedy Hour*, *Rowan and Martin's Laugh-In*, and *All in the Family*. The author also focuses on more contemporary American television, drawing a comparative analysis between the referential postmodernism of *The Simpsons* and the confrontational absurdity of *South Park*.

Canadian Television Today Bart Beaty, Rebecca Sullivan, 2006 *Whats on TV?* In *Canadian Television Today*, authors Bart Beaty and Rebecca Sullivan explore the current challenges and issues facing the English-language television industry in Canada.

Covert Advertising: Cutting or Placing Dr Ravi Vaidya ,Dr Gautam Dua, 2023-04-20 Advertising on

television has consistently demonstrated to be a cost-effective and efficient method for promoting various products. Marketing people have found a way to make their brands heard even more clearly and loudly by inserting them into reality shows, confirming the novelty genre's popularity with television viewers. It is essential, however, to track how long people look at these commercials in order to pinpoint the kinds of active participation that lead to the most rapid involuntary memories of certain brands. This book shows the research executed using a structured questionnaire and short video clips from five Indian reality programs to assess the effectiveness of stealth advertising on the youth of Surat, India (aged 18-25). The outcomes are discussed at the end with potential suggestions to use stealth advertising in an effective way.

Prime Time, Prime Movers David Marc, Robert J. Thompson, 1995-06-01 From dominant performers such as Jackie Gleason and Carol Burnett to powerhouse producers such as Norman Lear and Steven Bochco, this book reviews the stories and styles of the most important architects of the airwaves. Milton Berle brought a hellzapoppin' vaudeville aesthetic to TV. Gleason used it as an autobiographical medium. Red Skelton was the classic clown from the heartland. Paul Henning, who created, wrote, and produced *The Beverly Hillbillies*, was himself a kid from Missouri who grew up to become a millionaire in Los Angeles. Norman Lear modeled Archie Bunker after his own cantankerous father. Steven Bochco productions, such as *Hill Street Blues* and *L.A. Law*, made TV watching respectable for yuppies. Authors David Marc and Robert J. Thompson are the most outspoken proponents of the auteur argument. Covering a broad spectrum of TV programming formats, from old-time variety shows to sitcoms, from action/adventure shows to documentaries, from gameshows to soap operas, they challenge the tastes and interests of television viewers—a group roughly equivalent to the American population at large.

Tv's Greatest Hits Tim Brooks, Earle Marsh, 1985-05-12 A look at the top 150 television series of all time provides a complete broadcasting history of each show, listing producers, cast members, years on the air, and more for such hits as *Gunsmoke*, *I Love Lucy*, *MASH*, and *60 Minutes*

The American Family on Television Marla Brooks, 2015-03-12 The sitcom made its first appearance in January of 1949 with the introduction of television's first family, *The Goldbergs*. Since the advent of the sitcom, televised fictional families have reflected the changing structure of American society. The sitcom emphasized first the lives of suburban, working class European immigrants and gradually expanded to encompass the multicultural urban phenomena of the 1960s. The roles of men and women in the fictional family have similarly been adjusted to depict women's movement into the workforce and the changing identity of the father. As censorship laws became less stringent, sitcom viewers also began to be exposed to the realities of changing family dynamics in America, watching as the traditional nuclear family diverged to include single-parent, two-father, and two-mother households. From the cultural upheaval of the mid-century to the "reality" craze of the new millennium, television's families have mimicked and even influenced the changing values of American society. This broadcast history covers more than 100 television families, from the Goldbergs to the Osbournes, who have provided entertainment and inspiration for the American public since 1949. An introduction to the cultural trends and social developments of each decade is provided prior to a summary of the significant series of that decade. Each series entry includes a description of the family, the date of the show's first and last broadcast, the broadcasting network, the day

and time aired, and the cast of characters.

Television Program Master Index Charles V. Dintrone,1996 Television history has become one of the hottest areas of research in popular culture. Because the field is relatively new and so wide-ranging, no matter what one is researching much of the relevant material will be found scattered through numerous other works, frustrating scholarly progress. This work makes the television researcher's job easier by providing a single index to 341 books that include information on 1,002 shows. Most of the books deal exclusively with television, though some autobiographies, biographies, Congressional hearings, and works on communication and the media are also indexed. For a show to be included, it must have been carried on NBC, CBS, ABC or Fox and must have been a series. Shows on PBS are generally not included, though exceptions have been made for Sesame Street and Mister Rogers' Neighborhood.

The Complete Directory to Prime Time Network TV Shows, 1946-present Tim Brooks,Earle Marsh,1988 This is the must-have book for TV viewers in the new millennium - the entire history of prime time programs in one volume. It's a guide you'll turn to again and again for information on every series ever telecast. There are entries for all the great shows, from evergreens like I Love Lucy, The Honeymooners, and Happy Days, to modern classics like Will & Grace, Buffy the Vampire Slayer, and Friends; all the gripping sci-fi series, from Captain Video and The X-Files to all versions of Star trek; the popular serials, from Peyton Place to Dallas to Dawson's Creek; and the runaway hits on cable, including CNN, The Real World, The Osbournes, and SpongeBob SquarePants. This comprehensive guide lists every program alphabetically and includes a complete broadcast history, cast, and engaging plot summary - along with behind-the-scenes stories about the shows and the stars.--BOOK JACKET.

Crimes Against Nature Rob White,2013-08-21 Crimes Against Nature provides a systematic account and analysis of the key concerns of green criminology, written by one of the leading authorities in the field. The book draws upon the disciplines of environmental studies, environmental sociology and environmental management as well as criminology and socio-legal studies, and draws upon a wide range of examples of crimes against the environment – ranging from toxic waste, logging, wildlife smuggling, bio-piracy, the use and transport of ozone depleting substances through to illegal logging and fishing, water pollution and animal abuse. The book is divided into three parts: Part 1 sets out theoretical approaches and perspectives on the subject; Part 2 explores the (national and international) dimensions of environmental crime and the explanations for it; Part 3 deals with the range of responses to environmental crime - environmental law enforcement, regulation, environmental crime prevention and the role of global institutions and movements.
