Papers on Language and Culture: an African Perspective Mary Nyambura Muchiri,2009-05-19 Most of the papers reproduced here have either been presented at a national or international conference, and some have been published elsewhere. I have obtained permission to republish because I think it is important to have them all together. The idea came to me when I was asked, during an interview, why I wrote on such different topics as part of my scholarship. The question was based on the different publications in which the person asking had found them. I had to explain that they are all on language and culture, two areas that are closely interrelated. It occurred to me that having all the papers published in one volume would help show how they relate to one another, and thereby provide a more meaningful dialogue on the general topic. I therefore hope that although each paper stands alone, use of cross-referencing will provide a cumulative effect that is impossible when the papers are read as separate publications. The last chapter is not a paper in the traditional sense, in that it is just a list of words. However, it adds to the readers understanding of the Kikuyu language. The semantic domains are a people groups way of understanding, categorizing and labeling the world around them. I hope it will be especially important as a source for future scholars who will want to analyze the culture and thought processes of their ancestors.

In the Spirit of Ubuntu ,2009-01-01 “This is an excellent and timely book ... In the Spirit of Ubuntu: Stories of Teaching and Research represents a seminal educational intervention that should re-direct the way we see and interact with learning and pedagogical projects and relationships. The book is well organized, is written in non-alienating, humanist language, and should be very useful for students, researchers, and the general public. Students in the West, who are not familiar with the philosophy of ubuntu, should be exposed to the contents of this book.”—Ali A Abdi, in Alberta Journal of Educational Research, Vol. 58, No. 4

Toyin Falola and African Epistemologies A. Bangura,2015-02-11 While there are five important festschriften on Toyin Falola and his work, this book fulfills the need for a single-authored volume that can be useful as a textbook. I develop clearly articulated rubrics and overarching concepts as the foundational basis for analyzing Falola's work.

Mission as Accompaniment Brian E. Konkol,2017-06-15 Mechanistic dehumanization occurs when human beings are objectified and exploited as a means to an end, comparable to expendable components of a machine. This misconception of human value is a source and sustainer of overproduction, an excess of consumption, and the pursuit of unrestrained economic growth, damaging both people and the planet. Can the Evangelical Lutheran Church in America (ELCA) Global Mission respond to mechanistic dehumanization through mission as accompaniment? The notion of mission as accompaniment, which emerges from liberation theology and development methodology, promotes solidarity among church companions that embodies interdependence and mutuality. Grounded in the New Testament expression of koinonia, Mission as Accompaniment is affirmed in this study as a suitable foundation to counteract mechanistic dehumanization. Through this research with the University of KwaZulu-Natal (South Africa) Theology and Development program, Brian E. Konkol incorporates economics, ecology, anthropology, and postcolonial missiology. He maintains that two particular elements—the African concept of Ubuntu, and an Olive Agenda—when integrated into mission as accompaniment, will equip the ELCA Global Mission with an advocacy-driven trajectory in response to mechanistic dehumanization.

The Host Gaze in Global Tourism Omar Moufakkir,Yvette Reisinger,2013 Most tourism theories have been developed from the tourists' perspective and focus on the Anglo-American experience. This unique book for researchers and students of tourism is the first to look at the host gaze; how it is constructed, how it has developed, how it varies between countries and how the tourism industry can affect it. By looking at the gazes of both Western and non-Western hosts, this book analyses the consequences such a gaze can have upon the tourist.

Human Rights Judith Blau,Alberto Moncada,2015-12-03 In an era of globalization and greater connectivity, human rights have come to the fore. Human rights depend on treaties but also increasingly on local and national laws and grassroots activism. The authors provide a basic introduction to human rights, and they unveil long-standing yet intensifying obstacles to attaining them-most notably the opposing logics of capitalism and of solidarity and collective struggles. They suggest ways to overcome these contradictions and create greater participation by the U.S. in the international community.

Thinking International Relations Differently Arlene B. Tickner,David L. Blaney,2013-03-01 A host of voices has risen to challenge Western core dominance of the field of International Relations (IR), and yet, intellectual production about world politics continues to be highly skewed. This book is the second volume in a trilogy of titles that tries to put the international back into IR by showing how knowledge is actually produced around the world. The book examines how concepts that are central to the analysis of international relations are conceived in diverse parts of the world, both within the disciplinary boundaries of IR and beyond them. Adopting a thematic structure, scholars from around the world issues that include security, the state, authority and sovereignty, globalization, secularism and religion, and the international - an idea that is central to discourses about world politics but which, in given geocultural locations, does not necessarily look the same. By mapping global variation in the concepts used by scholars to think about international relations, the work brings to light important differences in non-Western approaches and the potential implications of such differences for the IR discipline and the study of world politics in general. This is essential reading for anyone who is concerned about the history, development and future of International Relations.

It offers new understandings of bottom-up reconciliation approaches and the cultural dimension of reconciliation.

Berkshire Encyclopedia of Sustainability 2/10 Chris Laszlo,Karen Christensen,Daniel S. Fogel,Gernot Wagner,Peter J. Whitehouse,2010-01-01 The Business of Sustainability is a core resource for policy makers, members of the development community, entrepreneurs, and corporate executives, as well as business and economics students and their professors. It contains rich analysis of how sustainability is being factored into industries across the globe, with enlightening case studies of businesses serving as agents of change. Contributing authors provide a groundbreaking body of research-based knowledge. They explain that the concept of sustainability is being re-framed to be positive about business instead of being tied to the old notion of a trade-off between business and society (that is, if business wins, society and the environment must lose), and they explore how economic development can contribute to building our common future.

Religion and Development in Africa Ezra Chitando,Masiwa Ragies Gunda ,Lovemore Togarasei,2020-06-09 What is development? Who defines that one community/ country is developed, while another community/ country is under-developed? What is the relationship between religion and development? Does religion contribute to development or underdevelopment in Africa? These and related questions elicit quite charged reactions in African studies, development studies, political science and related fields. Africa's own history, including the memory of marginalisation, slavery and exploitation by global powers ensures that virtually every discussion on development is characterised by a lot of emotions and conflicting views. In this volume scholars from various African countries and many different religions and denominations contribute to this debate.--

Handbook of Organizational and Managerial Wisdom Eric H. Kessler,James R. Bailey,2007-05-16 A brilliant and comprehensive introduction to the most seminal component of leadership: wisdom. The diversity of the readings and wisdom of the authors make this a most original and valuable addition to the management canon. —Warren Bennis, Distinguished Professor of Management, University of Southern California and author of On Becoming a Leader This wonderful compilation proves that management is as much art as science, and that deep thinking can inform and inspire practice to be more humane, ethical, and, yes, wise. —Rosabeth Moss Kanter, Harvard Business School Professor and best-selling author of Confidence: How Winning Streaks and Losing Streaks Begin and End If you'll forgive a pun, this is a wise book about organizational and managerial

wisdom. It shows what's possible when some of our best thinkers turn their collective attention to such timely subjects as EQ, negotiation, global politics, and individual and organizational ethics. —Steve Kerr, Chief Learning Officer, Goldman Sachs, and Past President of the Academy of Management One of the 'most promising' forthcoming management books. —EUROPEAN ACADEMY OF MANAGEMENT To wade into the topic wisdom is to see organizing differently. To wade into this volume is to see wisdom differently. Both forms of effort embody a wonderful moment of wisdom itself. —Karl E. Weick, Distinguished Professor of Organizational Behavior and Psychology, University of Michigan Some interesting issues emerge when one views organizations from a wisdom-based perspective. Does technology promote or inhibit wisdom? How do HR systems, organizational forms, management practices, and operational capabilities relate to wisdom? What are the ethical and social dimensions of wisdom? What makes a wise leader? Can wisdom be developed and utilized strategically? Do conceptions and manifestations of wisdom vary across cultures? Can one teach wisdom? Editors Eric Kessler and James Bailey have produced a ground-breaking compendium of globally renowned thinkers in the Handbook of Organizational and Managerial Wisdom. This Handbook systematically explores the characteristics of understanding, applying, and developing organizational and managerial wisdom. Key Features Organizes wisdom around the five primary philosophical branches—logic, ethics, aesthetics, epistemology, and metaphysics Applies wisdom in organizations and management through international examples that synthesize a set of practical principles for academics and practicing managers Offers an outstanding collection of world-renowned scholars who give profound insights regarding wisdom

Human Person Chris Vervliet, 2009-01-01 The Human Person, African Ubuntu and the Dialogue of Civilisations contributes to the ongoing discussions about the clash of civilisations, illustrating the potential of a dialogue based on the dignity of the human person. The author invites the reader to an intellectual exploration, which is premised on the thesis that 'a person is a person through other persons', the central idea of the (South) African Ubuntu philosophy. He discusses the differences and similarities in the philosophies of such reputed African leaders like the late Leopold Senghor, Julius Nyerere and Kwame Nkrumah, showing how Ubuntu not only shares similar concerns about interpersonal relations but also attempts to come to terms with present-day requirements and hindsight. The book highlights Ubuntu's potential to promote corporate life and reconcile it with African concerns for consultation and participation. It widens the debate by comparing Ubuntu with the personalism inherent in European, American and some non-Western traditions through a discussion of such themes as corporate culture, societal pluralism and sustainable development.

Occupational Therapies without Borders - Volume 2 E-Book Frank Kronenberg, Nick Pollard, Dikaïos Sakellariou, 2011-10-24 The companion text to Occupational Therapy without Borders - Volume 1: learning from the spirit of survivors! In this landmark text writers from around the world discuss a plurality of occupation-based approaches that explicitly acknowledge the full potential of the art and science of occupational therapy. The profession is presented as a political possibilities-based practice, concerned with what matters most to people in real life contexts, generating practice-based evidence to complement evidence-based practice. As these writers demonstrate, occupational therapies are far more than, as some critical views have suggested, a monoculture of practice rooted in Western modernity. Nobel Peace Laureate Desmond Tutu captures the ethos of this book, which essentially calls for engagements in the service of a purpose that is larger than the advancement of our profession's interests: Your particular approach to advancing our wellbeing and health strikes me as both unique and easily taken for granted. Whilst you value and work with medical understandings, your main aim seems to go beyond these. You seem to enable people to appreciate more consciously how what we do to and with ourselves and others on a daily basis impacts on our individual and collective wellbeing. As occupational therapists you have a significant contribution to make [...] allowing people from all walks of life to contribute meaningfully to the wellbeing of others. Links philosophy with practical examples of engaging people in ordinary occupations of daily life as a means of enabling them to transform their own lives Includes contributions from worldwide leaders in occupational therapy research and practice Describes concrete initiatives in under-served and neglected populations Looks at social and political mechanisms that influence people's access to useful and meaningful occupation Chapters increase diversity of contributions – geographically, culturally and politically Emphasis on practice, education and research maintains academic credibility A glossary and practical examples in nearly every chapter make text more accessible to students

Theatre as Witness Yaël Farber, 2017-09-28 With a Foreword by Archbishop Desmond Tutu Yael Farber's trilogy of plays bears powerful testimony to the personal truths of those who lived through the brutal Apartheid regime in South Africa. Woman in Waiting tells of Thembi Mtshali's separation from her mother as a child, only to continue this legacy of waiting when forced to leave her own baby to mind other people's children in the white suburbs. Amajuba is a moving tapestry of different personal perspectives on growing up under Apartheid. He Left Quietly is the harrowing experience of Duma Kumalo, one of the wrongly accused Sharpeville Six, on South Africa's Death Row; preparations made for his death and ultimate reprieve.
