Chasing the Chinese Dream Nick Holdstock, 2017-09-22 China is undergoing the biggest and fastest societal and economic change in human history. Driving this dizzying transformation is the idea of the 'Chinese Dream', the promise that in the new China, anyone can make it. Journalist and writer Nick Holdstock has travelled the length of this huge country in order to find out the reality behind this rhetoric - from the factory-owner, to the noodle seller, from the karaoke maids to the hoteliers, and from the deserted, ageing countryside to the young and overcrowded cities. Chasing the Chinese Dream follows a cast of extraordinary characters: we meet the people getting rich; running factories and buying luxury cars and Louis Vuitton bags. But we also meet those left behind, trapped by a system which forces long hours and no prospects upon them. A spell-binding and magical narrative, this book looks to tell the story of modern

Family Networks and the Russian Revolutionary Movement, 1870–1940 Katy Turton,2017-12-04 This book explores the role played by families in the Russian revolutionary movement and the first decades of the Soviet regime. While revolutionaries were expected to sever all family ties or at the very least put political concerns before personal ones, in practice this was rarely achieved. In the underground, revolutionaries of all stripes, from populists to social-democrats, relied on siblings, spouses, children and parents to help them conduct party tasks, with the appearance of domesticity regularly thwarting police interference. Family networks were also

vital when the worst happened and revolutionaries were imprisoned or exiled. After the revolution, these family networks continued to function in the building of the new Soviet regime and amongst the socialist opponents who tried to resist the Bolsheviks. As the Party persecuted its socialist enemies and eventually turned on threats perceived within its ranks, it deliberately included the spouses and relatives of its opponents in an attempt to destroy family networks for good.

**What Can and Can't Be Said** Dell Upton,2015-11-24 An original study of monuments to the civil rights movement and African American history that have been erected in the U.S. South over the past three decades, this powerful work explores how commemorative structures have been used to assert the presence of black Americans in contemporary Southern society. The author cogently argues that these public memorials, ranging from the famous to the obscure, have emerged from, and speak directly to, the region's complex racial politics since monument builders have had to contend with widely varied interpretations of the African American past as well as a continuing presence of white supremacist attitudes and monuments.

Morality in the Age of Political Redemption András

Lánczi,2023-10-04 In modern times politics in the Western world has become the ultimate source of morality, with the decline of religious and spiritual certainties. Today, public legitimacy, both political and moral, can only be derived from the idea that authority is based on individual decisions. The foundation of modern Western morality is based on the priority of the individual, hence the entitlement of modern democracy. This book is a case in favour of communal based individualism. Narrow-minded individualism can only lead to modern forms of nihilistic morality, such as egoism and narcissism. Today the schisms of morality within Western culture are more and more visible; between the USA and Europe; and is within Europe, which has been exacerbated by the rift between Europe and Russia. The book argues that if these schisms are not handled in a moral sense, then Nietzsche's prediction that Europe was to face two hundred years of nihilism might come true, and would threaten Western civilization.
