Poverty, Racism, and Sexism Christopher B. Doob, 2021-05-03

Exploring the structural causes and consequences of inequalities based on a person's race, class, and gender, *Poverty, Racism and Sexism: The Reality of Oppression in America* concentrates on this formidable set of disadvantages, demonstrating how Americans are adversely affected by just one or a combination of three social factors. Grounded in sociological thought, the text highlights unfolding stories about major social inequalities and relentless campaigns for people's rights. Weaving together such concepts as individualism, social reproduction, social class, and intersectionality, the book provides a framework for readers to understand the vast injustices these groups encounter, where and why they originated, and why they continue to endure. *Poverty, Racism and Sexism* is a compact, versatile volume which will prove an invaluable resource for those studying social inequality, social problems, social stratification, contemporary American society, social change, urban sociology, and poverty and inequality.

Greater than Equal Sarah Caroline Thuesen, 2013-08-01

During the half century preceding widespread school integration, black North Carolinians engaged in a dramatic struggle for equal educational opportunity as segregated schooling flourished. Drawing on archival records and oral histories, Sarah Thuesen gives voice to students, parents, teachers, school officials, and

civic leaders to reconstruct this high-stakes drama. She explores how African Americans pressed for equality in curricula, higher education, teacher salaries, and school facilities; how white officials co-opted equalization as a means of forestalling integration; and, finally, how black activism for equality evolved into a fight for something greater than equal--integrated schools that served as models of civic inclusion. These battles persisted into the Brown era, mobilized black communities, narrowed material disparities, fostered black school pride, and profoundly shaped the eventual movement for desegregation. Thuesen emphasizes that the remarkable achievements of this activism should not obscure the inherent limitations of a fight for equality in a segregated society. In fact, these unresolved struggles are emblematic of fault lines that developed across the South, and serve as an urgent reminder of the inextricable connections between educational equality, racial diversity, and the achievement of first-class citizenship.

Argentine Economic Update ,1997

Asian Development Outlook 2012 Update Asian Development Bank,2012-10-01 According to the findings in the Asian Development Outlook 2012 Update, dimming global growth prospects and soft domestic demand in the region's two largest economies are slowing the pace of developing Asia's expansion. Growth is now expected to slide from 7.2% in 2011 to 6.1% in 2012, with a bounce back to 6.7% in 2013. The possibility of a shock emanating from the unresolved euro area sovereign debt crisis or a sharp fiscal contraction in the United States pose the biggest downside risks to the economy. Fortunately, most developing Asian economies have room to counteract such shocks with fiscal and monetary policy. However, there is currently no regionwide need for countercyclical policy intervention.
