Indiana Notary Public Guide Indiana Secretary of State,2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

To Fly and Fight Clarence E. "Bud" Anderson, 2017-05-12 Bud Anderson is a flyers flyer. The Californians enduring love of flying began in the 1920s with the planes that flew over his fathers farm. In January 1942, he entered the Army Air Corps Aviation Cadet Program. Later after he received his wings and flew P-39s, he was chosen as one of the original flight leaders of the new 357th Fighter Group. Equipped with the new and deadly P-51 Mustang, the group shot down five enemy aircraft for each one it lost while escorting bombers to targets deep inside Germany. But the price was high. Half of its pilots were killed or imprisoned, including some of Buds closest friends. In February 1944, Bud Anderson, entered the uncertain, exhilarating, and deadly world of aerial combat. He flew two tours of combat against the Luftwaffe in less than a year. In battles sometimes involving hundreds of airplanes, he ranked among the groups leading aces with 16 aerial victories. He flew 116 missions in his old crow without ever being hit by enemy aircraft or turning back for any reason, despite one life or death confrontation after another. His friend Chuck Yeager, who flew with Anderson in the 357th, says, In an airplane, the guy was a mongooosethe best fighter pilot I ever saw. Buds years as a test pilot were at least as risky. In one bizarre experiment, he repeatedly linked up in midair with a B-29 bomber, wingtip to wingtip. In other tests, he flew a jet fighter that was launched and retrieved from a giant B-36 bomber. As in combat, he lost many

friends flying tests such as these. Bud commanded a squadron of F-86 jet fighters in postwar Korea, and a wing of F-105s on Okinawa during the mid-1960s. In 1970 at age 48, he flew combat strikes as a wing commander against communist supply lines. To Fly and Fight is about flying, plain and simple: the joys and dangers and the very special skills it demands. Touching, thoughtful, and dead honest, it is the story of a boy who grew up living his dream.
