Unquestionably, the biggest e-commerce platform in the world is Amazon, which is an internet giant with a global presence and reaches. The company began as an online seller of books, but quickly adopted emerging trends and branched out into other areas such as sales of entertainment media (like DVDs, VHSs, CDs, online video and mp3 streaming and downloads, software and video games). Some years ago, Amazon diversified into the production of consumer electronics including the Kindle E-book reader, Kindle Fire Tablets, Fire TV and the Fire Phone. By selling on Amazon, you get the advantage of tapping into its more than 85 million unique monthly customers, that is a heck of a lot of eyeballs and those eyeballs can translate into higher sales volume. Not only that, once you get a customer to your store, though the buyer might not be looking for your store specifically, just stumble upon your store as a result of the keyword that the buyer typed into the Amazon search bar, you can turn that buyer into a repeat customer provided your item is good and is as described in addition to offering great customer service and fulfilment. How cool can that be you might not get that buyer if not for the fact that you have put up your items for sale on Amazon. Amazon also has a great marketplace infrastructure as it has a single stream of check-out and fulfilment support in order to create a seamless experience for buyers. Moreover, Amazon is a well-recognised brand, and this means it is trusted by people, if not buyers will not be trooping into Amazon daily looking for items to buy. There are so many other services that Amazon is involved in, such as Selling your Apps, your Business and much more.
