Contemporary British Horror Cinema Walker Johnny Walker,2015-10-01 Combining industrial research and primary interview material with detailed textual analysis, Contemporary British Horror Cinema looks beyond the dominant paradigms which have explained away British horror in the past, and sheds light on one of the most dynamic and distinctive - yet scarcely talked about - areas of contemporary British film production. Considering

high-profile theatrical releases, including *The Descent*, *Shaun of the Dead* and *The Woman in Black*, as well as more obscure films such as *The Devil's Chair*, *Resurrecting the Street Walker* and *Cherry Tree Lane*, *Contemporary British Horror Cinema* provides a thorough examination of British horror film production in the twenty-first century.

Hooked on Horror Anthony J. Fonseca, June Michele Pulliam, 1999 A description of about 1000 contemporary and classic titles in horror fiction. There is background information on the history, trends and appeal of the genre. Works are classified into 13 sub-genres, keywords are listed with each entry to lead users to related titles, and awards are cited.

Curious Video Game Machines Lewis Packwood, 2023-11-30 The story of video games is often told as the successive rise of computers and consoles from famous names like Atari, Commodore, Nintendo, Sega, Sony and Microsoft. But beyond this familiar tale, there's a whole world of weird and wonderful gaming machines that seldom get talked about. *Curious Video Game Machines* reveals the fascinating stories behind a bevy of rare and unusual consoles, computers and coin-ops – like Kimtanktics, a 1970s wargame computer made out of calculator parts, or the suite of Korea-exclusive consoles made by car manufacturer Daewoo. Then there's the Casio Loopy, a 1990s console that doubled up as a sticker printer, the RDI Halcyon, a 1985 LaserDisc-based machine that could recognize your voice, and the Interton VC 4000, a German console made by a hearing-aid company, as well as a range of bizarre arcade machines, from early attempts at virtual reality to pedal-powered flying contraptions. There are tales of missed opportunities, like the astonishingly powerful Enterprise 64 computer, which got caught in development hell and arrived too late to make an impact on the British microcomputer market. And there are tales of little-known triumphs, like the Galaksija DIY computer kit that introduced a whole generation of Yugoslavians to computing before the country became engulfed by war.

Featuring exclusive interviews with creators, developers and collectors, Curious Video Game Machines finally shines a light on the forgotten corners of video-game history.

Halliwell's Who's who in the Movies Leslie Halliwell, 2001

9/11 - The world's all out of tune Dietrich Helms, Thomas Phleps (verst.), 2015-07-31 »The world's all out of tune« hieß es, kaum waren die Bilder von den einstürzenden Türmen des World Trade Centers und dem brennenden Pentagon um die Welt gegangen. Und ebenso schnell, wie die US-Administration zur Bestätigung dieser Weltsicht die Operation »Infinite Justice« resp. »Enduring Freedom« in Gang setzte, reagierte auch die Musikwelt auf die terroristischen Anschläge mit der Produktion hunderter »9/11-Songs« und »September 11-Tracks« - von Pop, Rock, Folk, Country, HipHop bis Techno und NewAge, von arrivierten Popstars bis zur vox populi übrigens keineswegs »out of tune«. Der Band sucht »Nine-Eleven« und das Pop-Territorium in Beziehung zu setzen, kontroverse Positionen auszuloten und Neu- bzw. Umorientierungen des popmusikalischen Konstrukts von Gewaltfreiheit, Friedensliebe, überhaupt gesellschaftlicher Solidarität auf die Spur zu kommen.

YouTube Jean Burgess,Joshua Green,2018-08-28 Since launching as a website for everyday video-sharing in 2005, YouTube has become one of the world's most powerful digital media platforms. Originally published in 2009 when YouTube was only four years old, this book was the first to systematically investigate its cultural impacts and politics, highlighting the productive tensions between its amateur community rhetoric and its commercial media logics. Since then, YouTube has grown as a platform and matured as a company. Its business model is built on coordinating the interests of and extracting value from its content creators, audiences, advertisers and media partners, in a commercial setting where YouTube now competes with other powerful social media and streaming television platforms. Meanwhile, YouTube's diverse communities of content creators, who developed the platform's most distinctive cultural forms and genres, have strong ideas and interests of their own. While preserving the original edition's forensic analysis of YouTube's early popular culture and uses, this fully revised and updated edition weaves fresh examples, updated theoretical perspectives and comparative historical insights throughout each of its six chapters. Burgess and Green show how, over its more than a

decade of existence, YouTube's dual logics of commerciality and community have persisted, generating new genres of popular culture, new professional identities and business models for the media industries, and giving rise to ongoing platform governance challenges. The book is essential reading for anyone interested in the contemporary and future implications of digital media platforms and will be particularly valuable for students and scholars in media, communication and cultural studies.

The Martians Have Landed! Robert E.

Bartholomew, Benjamin Radford, 2011-11-08 History is replete with examples of media-created scares and panics. This book presents more than three dozen studies of media scares from the 17th century to the 21st century, including hoaxes perpetrated via newspapers, radio, television and cyberspace. From the 1835 batmen on the Moon hoax to more recent bird flu scares and Hurricane Katrina myths, this book explores hoaxes that highlight the impact of the media on our lives and its tendency to sensationalize. Most of the hoaxes covered occurred in the United States, though incidents from Europe, Asia, Africa, South America and Australia are featured as well. Several are global in scope, revealing the power global media wields.

Horror Noire Robin R. Means Coleman, 2013-03

From King Kong to Candyman, the boundary-pushing genre of the horror film has always been a site for provocative explorations of race in American popular culture. In *Horror Noire: Blacks in American Horror Films from 1890's to Present*, Robin R. Means Coleman traces the history of notable characterizations of blackness in horror cinema, and examines key levels of black participation on screen and behind the camera. She argues that horror offers a representational space for black people to challenge the more negative, or racist, images seen in other media outlets, and to portray greater diversity within the concept of blackness itself. *Horror Noire* presents a unique social history of blacks in America through changing images in horror films. Throughout the text, the

reader is encouraged to unpack the genre's racialized imagery, as well as the narratives that make up popular culture's commentary on race. Offering a comprehensive chronological survey of the genre, this book addresses a full range of black horror films, including mainstream Hollywood fare, as well as art-house films, Blaxploitation films, direct-to-DVD films, and the emerging U.S./hip-hop culture-inspired Nigerian Nollywood Black horror films. *Horror Noire* is, thus, essential reading for anyone seeking to understand how fears and anxieties about race and race relations are made manifest, and often challenged, on the silver screen.

Australian Screen in the 2000s Mark David Ryan, Ben Goldsmith, 2017-11-23 This book provides coverage of the diversity of Australian film and television production between 2000 and 2015. In this period, Australian film and television have been transformed by new international engagements, the emergence of major new talents and a movement away with earlier films'

preoccupation with what it means to be Australian. With original contributions from leading scholars in the field, the collection contains chapters on particular genres (horror, blockbusters and comedy), Indigenous Australian film and television, women's filmmaking, queer cinema, representations of history, Australian characters in non-Australian films and films about Australians in Asia, as well as chapters on sound in Australian cinema and the distribution of screen content. The book is both scholarly and accessible to the general reader. It will be of particular relevance to students and scholars of Anglophone film and television, as well as to anyone with an interest in Australian culture and creativity.

The Pleasures of Horror Matt Hills, 2005-06-20 *Pleasures of Horror* is a stimulating and insightful exploration of horror fictions—literary, cinematic and televisual—and the emotions they engender in their audiences. The text is divided into three sections. The first examines how horror is valued and devalued in different cultural fields; the second investigates the cultural politics of the contemporary horror film; while the final part considers horror fandom in relation to its embodied practices (film festivals), its reading formations (commercial fan magazines and fanzines) and the role of special effects. *Pleasures of Horror* combines a wide range of media and textual examples with highly detailed and closely focused exposition of theory. It is a fascinating and engaging look at responses to a hugely popular genre and an invaluable resource for students of media, cultural and film studies and fans of horror.
