Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on “sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth’s thinking. In them he articulates a new vision that he calls “dark ecology,” which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed “Uncivilization” manifesto, asks hard questions about how we’ve lived and how we should live.

Hyperbole and a Half Allie Brosh, 2013-10-29 #1 New York Times Bestseller “Funny and smart as hell” (Bill Gates), Allie Brosh’s *Hyperbole and a Half* showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, “The God of Cake,” “Dogs Don’t Understand Basic Concepts Like Moving,” and her astonishing, “Adventures in Depression,” and “Depression Part Two,” which have been hailed as some of the most insightful meditations on the disease ever written. Brosh’s debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn’t me wrote it—but I soon discovered that I’m not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!

Invaders and Infidels (Book 1) Sandeep Balakrishna, 2020-11-28 The Islamic conquest of India is probably the bloodiest story in history. It is a discouraging tale, for its evident moral is that civilisation is a precious good, whose delicate complex of order and freedom, culture and peace can at any moment be overthrown by barbarians invading from without or multiplying within. ~Will Durant, American historian *Invaders and Infidels: From Sindh to Delhi: The 500-Year Journey of Islamic Invasions* is a work of gripping history, which tells the story of the origins and trajectory of Islamic invasions into India. It begins with the first Muslim conquest and ends with Babur's invasion of Hindustan, spanning the period of the Delhi Sultanate which was in power for almost 320 years. This epochal story encompasses a vast sweep of events, which changed the history of India forever, and introduced it to an alien faith and a religious despotism such as the country had never experienced before. It comprises major and minor sagas of great heroism, untold savagery, stout resistance, brutal intrigues and epic tragedies. Embedded in this narrative are two major themes, largely overlooked in the inherited Indian historical and cultural memory. For more than three hundred years, alien Muslim invasions into India were largely fleeting, transitory and unstable. However, the lasting legacy of these Muslim invasions is the permanent destruction and disappearance of Classical India. *Invaders and Infidels* will fascinate anyone interested in the story of pre-Medieval India, a gateway era in the history of this ancient culture and civilisation.

Time: Sense, Space, Structure , 2016-05-09 Essays discuss chronicles, clarify ideas of creation temporally understood, the meaning of “simultaneous times,” or simultaneity, and the concept of “no-time.” Essays also examine time in social and political contexts, as measured by clocks, as notated in music, as embodied in memorializing stone, and as the subject and medium of consciousness.

Communicating at Work: Principles and Practices for Business and the Professions Ronald B. Adler, Jeanne Marquardt Elmhurst, 2009-09-18 As the leading text in its field, *Communicating at Work* takes a pragmatic approach that applies scholarly principles to real world business situations. Strong multicultural focus, emphasis on working in teams, and thorough coverage of presentational speaking continue to be hallmark features. The tenth edition features a more streamlined organization, new Technology Tip boxes, new Case Study sidebars, updated coverage of intercultural communication, new communication networks, and more.

What We Leave Behind Stanislaw Lubinski, 2022-10-13 Everything looked perfect. Sand – unique Baltic sand, the best in the world – and the calm sea. But wait. Something was amiss. Something was wrong It starts with a day at the beach. A single white sock that somehow spoils everything. It's enough to send writer and ornithologist

Stanislaw Lubieniski on a quest to understand what we throw away, where it goes and whether it will be our legacy. By analysing items he unearths on his trips into nature – a plastic bottle, a tube of Russian penis-enlargement cream, a cigarette butt, an empty aerosol can – tracing their origins and explaining the harm they can do, he shows how consumer society has developed out of control, to the point of environmental catastrophe. He also looks with a birdwatcher's eye at how various animals have come to adapt to and even rely on our rubbish, and interrogates the cultural significance of waste and the origins of our throw-away lifestyles. Finally, he adds a personal touch by examining his own environmental neurosis and by going out with refuse crews to watch them work. While Lubieniski never hectors his readers, nor shames them, his clear-eyed, persuasive and humble polemic reminds us what we, as individuals, can and cannot do to address an apocalyptic issue while there's still something worth saving. And when her parents take a job running Stagecoach Pass, a rundown western theme park in Arizona, Aven moves with them across the country knowing that she'll have to answer the question over and over again. Her new life takes an unexpected turn when she bonds with Connor, a classmate who also feels isolated because of his own disability, and they discover a room at Stagecoach Pass that holds bigger secrets than Aven ever could have imagined.
