Policy Debates on Reprogenetics Svea Luise Herrmann, 2009-06-15 Policy Debates on Reprogenetics takes an in-depth look at recent public policy debates over stem cell research and therapeutic cloning in Great Britain and Germany in order to determine the effect of such debates on the progress of scientific knowledge. Svea Luise Herrmann argues that debates about government policy do not tend to lead to more societal and political control over scientific research; rather, the discussions, when framed as questions of ethics, allow societies to air anxieties without retarding or challenging scientific progress. As our understanding of genetics continues to grow, this volume will be a useful resource for scientists and policy makers alike.

It's Your Ship Captain D. Michael Abrashoff, 2007-10-15 The legendary New York Times bestselling tale of top-down change for anyone trying to navigate today's uncertain business seas. When Captain Abrashoff took over as commander of USS Benfold, it was like a business that had all the latest technology but only some of the productivity. Knowing that responsibility for improving performance rested with him, he realized he had to improve his own leadership skills before he could improve his ship. Within months, he created a crew of confident and inspired problem-solvers eager to take the initiative and responsibility for their actions. The slogan on board became It's your ship, and Benfold was soon recognized far and wide as a model of naval efficiency. How did Abrashoff do it? Against the backdrop of today's United States Navy, Abrashoff shares his secrets of successful management including: See the ship through the eyes of the crew: By soliciting a sailor's suggestions, Abrashoff drastically reduced tedious chores that provided little additional value. Communicate, communicate, communicate: The more Abrashoff communicated the plan, the better the crew's performance. His crew eventually started calling him Megaphone Mike, since they heard from him so often. Create discipline by focusing on purpose: Discipline skyrocketed when Abrashoff's crew believed that what they were doing was important. Listen aggressively: After learning that many sailors wanted to use the GI Bill, Abrashoff brought a test official aboard the ship-and held the SATs forty miles off the Iraqi coast. From achieving amazing cost savings to winning the highest gunnery score in the Pacific Fleet, Captain Abrashoff's extraordinary campaign sent shock waves through the U.S. Navy. It can help you change the course of your ship, no matter where your business battles are fought.

False Dawn Lee Penn, 2004 The interfaith movement, which began with the 1893 World's Parliament of Religions in Chicago, has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to 'One World'. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI), founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-heeded religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far-right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of 'global governance', and creation of a new, Earth-based 'global spirituality'-in effect, a one-world religion. Therefore, the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order: the 'new civilization' now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the 'anti-tradition' (the forces of materialism and secular humanism) finally giving way to the 'counter-tradition' (the satanic inversion of true spirituality), leading to the regime of Antichrist. The 'anti-tradition' weakens and dissolves traditional spiritualities, after which the 'counter-tradition' sets up a counterfeit in their place. Since Guénon's time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well-known that counter-traditional movements have also made great strides, and now stand closer to the centers of global political and religious power than ever before. The 'counter-tradition' is making inroads on the political and cultural Right, as much as it is doing on the Left. *False Dawn* painstakingly documents these trends, and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy, and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here-all of it unsettling, disquieting, occasionally downright scary. 'William Murchison, Radford Distinguished Professor, Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions. 'Douglas LeBlanc, Editor, GetReligion.org

Tracing Your Liverpool Ancestors Mike Royden, 2010-03-10 *Tracing Your Liverpool Ancestors'* gives a fascinating insight into everyday life in the Liverpool area over the past four centuries. Aimed primarily at the family and social historian, Mike Royden's highly readable guide introduces readers to the wealth of material available on the city's history and its people. In a series of short, information-packed chapters he describes, in vivid detail, the rise of Liverpool through shipping, manufacturing and trade from the original fishing village to the cosmopolitan metropolis of the present

day. Throughout he concentrates on the lives of the local people on their experience as Liverpool developed around them. He looks at their living conditions, at poverty and the laboring poor, at health and the ravages of disease, at the influence of religion and migration, at education and the traumatic experience of war. He shows how the lives of Liverpoolians changed over the centuries and how this is reflected in the records that have survived. His useful book is a valuable tool for anyone researching the history of the city or the life of an individual ancestor.

Corruption, Politics and Development H. Marquette,2003-11-04 In 1997, the World Bank announced a strategy to help its borrowers combat corruption, despite earlier claims that work of this kin violated the Bank's non-political mandate. Despite many attempts to reshape corruption as an economic issue rather than a political one, the non-political mandate has never been satisfactorily addressed. Heather Marquette argues that the Bank should focus in its strengths and avoid the more controversial components of its anti-corruption programme, which threaten its credibility.
