Drama Therapy and Storymaking in Special Education Paula Crimmens,2006-02-17 Many aspects of drama therapy make it an ideal technique to use with students with special learning needs. This practical resource book for professionals covers the broad spectrum of students attending special needs schools, including those with attention deficit disorder, autism and Asperger syndrome, and students with multiple disabilities. Paula Crimmens places therapeutic storymaking within the context of drama therapy and offers practical advice on how to structure and set up sessions to be compatible with special needs learning environments. She shows how story sessions can address issues of self-esteem and self-mastery, and how their use in groups is invaluable for building social and communication skills. The book includes traditional stories from around the world as session material, and includes guidance on how to devise stories relevant to older students, as well as a review of recent research into the effectiveness of drama therapy in engaging and retaining the attention of students with an intellectual disability.

Drama at the Heart of the Secondary School John Rainer,Martin Lewis,2012-03-12 Drama at the Heart of the Secondary School provides a rationale for the curricular centrality of drama together with rich and detailed examples of cross-phase thematic projects which are drama-led, but which promote learning across a wide range of curriculum areas, from the humanities and other arts, to English and literacy, science and PSHE. Each unit explores relevant and stimulating themes and topics that will engage the students, promote empathy, pose questions, and produce creative responses. Starting from relatively simple beginnings, the drama is structured in layers of increasing sophistication and complexity. Each layer adds another dimension to the potential learning opportunities available across a wide range of curriculum areas and suitable for learners of varying experience and ability. A wide range of curriculum areas of enquiry are referenced, and each unit offers unique ways of student learning designed to encourage excellent drama skills as well as embracing the 'learning to learn', Citizenship and PSHE agendas that are fundamental to good teaching and learning. Features include: Lists of dramatic techniques and keywords Cross curricular connections and ideas highlighted in the text Opportunities to address RSA 'Opening Minds' competencies and PLT skills Examples of curriculum models suitable for thematic work An outline of the principles of assessment for each unit This accessible and practical textbook is essential for trainee and practising teachers interested in using drama to facilitate thematic, cross-curricular work in the classroom.

Windows into The West Wing Patrick Webster, 2020-04-21 The West Wing, first broadcast in 1999, is thought by many to have been one of the most significant dramas shown on network television. Despite its overly idealized depiction of American political life, and blatant contradictions in the way we consider America, its values, its aspirations, and its behavior in the world, The West Wing nonetheless succeeds in attaining popular national and international aesthetic appeal. This book aspires to explain the appeal of the show by considering issues such as race, religion, sexuality, disability, and education--from both a practical and theoretical perspective--through the lenses of feminism, gender theory, Marxism, psychoanalytical theories, structuralism, poststructuralism, postcolonialism and more. It seeks to offer informative and revealing readings of one of the most significant television productions of recent times.

Bhangra Moves Anjali Gera Roy, 2017-07-05 Bhangra is commonly understood as the hybrid music produced in Britain by British Asian music producers through mixing Panjabi folk melodies with western pop and black dance rhythms. This is derived from a Punjabi harvest dance of the same name. This book looks at Bhangra's global flows from one of its originary sites, the Indian subcontinent, to contribute to the understanding of emerging South Asian cultural practices such as Bhangra or Bollywood in multi-ethnic societies. It seeks to trace Bhangra's moves from Punjab and its 'return back' to look at the forces that initiate and regulate global flows of local texts and to ask how their producers and consumers redirect them to produce new definitions of culture, identity and nation. The critical importance of this book lies in understanding the difference between the present globalizing wave and previous trans-local movements. Gera Roy contrasts the frames of cultural imperialism with those of cultural invasion to show how Indian cultures have constantly reinvented themselves by cross-pollinating with 'invading' cultures such as Hellenic, Persian, Arabic and many others in the past. By looking at Bhangra's flows to and from India, the book revises the relation between culture, space and identity and challenges boundaries. It weighs both the uses and costs of visibility provided by global networks to marginalized groups in diverse localities and explores whether collaborations between Bhangra practitioners, largely of working class origin, give ordinary

people any control over the circulation of culture in the global village. Finally, the book considers whether cultural practices can alter hierarchies and power structures in the real world.

Fixing the Musical Douglas L. Reside,2023 Thousands of shows have opened on Broadway. Why do we remember some and not others? The musical theatre repertory is not composed of titles popular in the theatre but by those with successful cast recordings, movie versions, or even illegal bootlegs on YouTube. The shows audiences know, and the texts and music they expect to hear when they attend a production, are defined by media consumed at home more than by memories of performances witnessed in the theatre. For example, author Doug Reside shows that it is no accident that the serious book musical with a fixed score developed in the 1940s - when commercially pressed and marketed record albums made it possible to record most of the score of a new musical in a fixed medium. And Hamilton, a musical with dense lyrics and revolutionary musical style, would not have been as easily accessible to world audiences if most hadn't already had the opportunity to learn the score by listening to free digital streams of the original cast recording. The technologies that made these media possible developed concurrently with and shaped the American musical as an art form. Reside uncovers how the affordances and limitations of these technologies established a repertory of titles that are most frequently performed and defined by the texts used in these performances. Fixing the Musical argues that the musicals we most remember are those which most effectively used their era's best recording and distribution technologies to document and share the work with those who would never see the original production on Broadway.

Jane Austen on Film and Television Sue Parrill,2010-06-28 Jane Austen's career as a novelist began in 1811 with the publication of *Sense and Sensibility*. Her work was finally adapted for the big screen with the 1940 filming of *Pride and Prejudice* (very successful at the box office). No other film adaptation of an Austen novel was made for theatrical release until 1995. Amazingly, during 1995 and 1996, six film and television adaptations appeared, first *Clueless*, then *Persuasion*, followed by *Pride and Prejudice*, *Sense and Sensibility*, the Miramax *Emma*, and the Meridian/A&E *Emma*. This book traces the history of film and television adaptations (nearly 30 to date) of Jane Austen manuscripts, compares the adaptations to the manuscripts, compares the way different adaptations treat the novels, and analyzes the adaptations as examples of cinematic art. The first of seven chapters explains why the novels of Jane Austen have become a popular source of film and television adaptations. The following six chapters each cover one of Austen's novels: *Sense and Sensibility*, *Pride and Prejudice*, *Emma*, *Mansfield Park*, *Persuasion*, and *Northanger Abbey*. Each chapter begins with a summary of the main events of the novel. Then a history of the adaptations is presented followed by an analysis of the unique qualities of each adaptation, a comparison of these adaptations to each other and to the novels on which they are based, and a reflection of relevant film and literary criticism as it applies to the adaptations.

This exciting new collection brings together twelve original essays that critically engage with the socially-networked, multi-platform, and cloud-based world of today, examining the connected viewing phenomenon across television, film, video games, and social media. The result is a wide-ranging analysis of shifting business models, policy matters, technological infrastructure, new forms of user engagement, and other key trends affecting screen media in the digital era. *Connected Viewing* contextualizes the dramatic transformations taking place across both media industries and national contexts, and offers students and scholars alike a diverse set of methods and perspectives for studying this critical moment in media culture.

Staging Feminisms Anita Singh, 2021-07-15 This book questions how feminist beliefs are enacted within an artistic context. It critically examines the intersection of violence, gender, performance and power through contemporary interventionist performances. The volume explores a host of key themes like feminism and folk epic, community theatre, performance as radical cultural intervention, volatile bodies and celebratory protests. Through analysing performances of theatre stalwarts like Usha Ganguly, Maya Krishna Rao, Sanjoy Ganguly, Shilpi Marwaha and Teejan Bai, the volume discusses the complexities and contradictions of a feminist reading of contemporary performances. A major intervention in the field of feminism and performance, this book will be useful for scholars and researchers of gender studies, performance studies, theatre studies, women's studies, cultural studies, sociology of gender and literature.

Teaching Contemporary English Literature Hans Osterwalder, 2017-08-14 This book provides a theoretical introduction to the task-based methodology in language and literature teaching. For teachers the main points of interest are Part Two and Three, where a plethora of contemporary texts both from Britain and the US are given a literary analysis which is followed by detailed task-based lesson plans. Part Two focuses on multiculturalism, one of the seminal issues of our time, Part Three tackles gender, another highly topical theme which students are naturally interested in. Well-known authors like the British-Asian writer Hanif Kureish and the Indian-American

novelist Jhumpa Lahiri feature in the chapter on multiculturalism; the gender question is represented by Carol Ann Duffy, the current Poet Laureate and Caryl Churchill, the main representative of feminist drama.
