The Year 2000 Computer Problem United States. Congress. House. Committee on Government Reform. Subcommittee on Government Management, Information, and Technology, 1999

Maximum Security Anonymous, 1997 'A brilliant excursion into the decadence of contemporary culture' Sunday Times Eric Packer is a twenty-eight-year-old multi-billionaire asset manager. We join him on what will become a particularly eventful April day in turn-of-the-twenty-first-century Manhattan. He's on a personal odyssey, to get a haircut. Sitting in his stretch limousine as it moves across town, he finds the city at a virtual standstill because the President is visiting, a rapper's funeral is proceeding, and a violent protest is being staged in Times Square by anti-globalist groups. Most worryingly, Eric's bodyguards are concerned that he may be a target . . . An electrifying study in affectlessness, infused with deep cynicism and measured detachment; a harsh indictment of the life-denying tendencies of capitalism; as brutal a dissection of the American dream as Wolfe's Bonfire or Ellis's Psycho, *Cosmopolis* is a caustic prophecy all too quickly realized. 'A prose-poem about New York . . . DeLillo has always been good at telling us where we're heading . . . we ignore him at our peril' Blake Morrison, *Guardian*

It combines a highly visual approach with step-by-step instructions, concise explanations of database techniques, and task-based learning.
