Language and Intercultural Communication in the New Era Farzad Sharifian,Maryam Jamarani,2013-01-04 Studies of intercultural communication in applied linguistics initially focused on miscommunication, mainly between native and non-native speakers of English. The advent of the twenty-first century has witnessed, however, a revolution in the contexts and contents of intercultural communication; technological advances such as chat rooms, emails, personal weblogs, Facebook, Twitter, mobile text messaging on the one hand, and the accelerated pace of people's

international mobility on the other have given a new meaning to the term 'intercultural communication'. Given the remarkable growth in the prevalence of intercultural communication among people from many cultural backgrounds, and across many contexts and channels, conceptual divides such as 'native/non-native' are now almost irrelevant. This has caused the power attached to English and native speaker-like English to lose much of its automatic domination. Such developments have provided new opportunities, as well as challenges, for the study of intercultural communication and its increasingly complex nature. This book showcases recent studies in the field in a multitude of contexts to enable a collective effort towards advancements in the area.

The American Legal Profession in Crisis James E. Moliterno,2013-02-26 Throughout history, the American legal profession has tried to hold tight to its identity by retreating into its traditional values and structure during times of self-perceived crisis. The American Legal Profession in Crisis: Resistance and Responses to Change analyzes the efforts of the legal profession to protect and maintain the status quo even as the world around it changed. Author James E. Moliterno, consistently argues that the profession has resisted societal change and sought to ban or discourage new models of legal representation created by such change. In response to every crisis, lawyers asked: How can we stay even more 'the same' than we already are? The legal profession has been an unwilling, capitulating entity to any transformation wrought by the overwhelming tide of change. Only when the shifts in society, culture, technology, economics, and globalization could no longer be denied did the legal profession make any proactive changes that would preserve status quo. This book demonstrates how the profession has held to its anachronistic ways at key crisis points in US history: Watergate, communist infiltration, waves of immigration, the explosion of litigation, and the current economic crisis that blends with dramatic changes in technology, communications, and

globalization. Ultimately, Moliterno urges the profession to look outward and forward to find in society and culture the causes and connections with these periodic crises. Doing so would allow the profession to grow with the society, solve problems with, rather than against, the flow of society, and be more attuned to the very society the profession claims to serve. This paperback version includes a commentary on the prevailing crisis in legal education.

Windows 8: The Missing Manual David Pogue,2013-02-27 With Windows 8, Microsoft completely reimagined the graphical user interface for its operating system, and designed it to run on tablets as well as PCs. It's a big change that calls for a trustworthy guide—Windows 8: The Missing Manual. New York Times columnist David Pogue provides technical insight, lots of wit, and hardnosed objectivity to help you hit the ground running with Microsoft's new OS. This jargon-free book explains Windows 8 features so clearly—revealing which work well and which don't—that it should have been in the box in the first place.

Digital Forensics and Cyber Crime Sanjay Goel,2010-01-04 The First International Conference on Digital Forensics and Cyber Crime (ICDF2C) was held in Albany from September 30 to October 2, 2009. The field of digital for- sics is growing rapidly with implications for several fields including law enforcement, network security, disaster recovery and accounting. This is a multidisciplinary area that requires expertise in several areas including, law, computer science, finance, networking, data mining, and criminal justice. This conference brought together pr- titioners and researchers from diverse fields providing opportunities for business and intellectual engagement among attendees. All the conference sessions were very well attended with vigorous discussions and strong audience interest. The conference featured an excellent program comprising high-quality paper pr- entations and invited speakers from all around the world. The first day featured a plenary session including

George Philip, President of University at Albany, Harry Corbit, Suprintendent of New York State Police, and William Pelgrin, Director of New York State Office of Cyber Security and Critical Infrastructure Coordination. An outstanding keynote was provided by Miklos Vasarhelyi on continuous auditing. This was followed by two parallel sessions on accounting fraud /financial crime, and m- timedia and handheld forensics. The second day of the conference featured a mesm- izing keynote talk by Nitesh Dhanjani from Ernst and Young that focused on psyc- logical profiling based on open source intelligence from social network analysis. The third day of the conference featured both basic and advanced tutorials on open source forensics.
