Writing Groups for Doctoral Education and Beyond Claire Aitchison,Cally Guerin,2014-04-24 Writing is the principal means by which doctoral candidature is monitored and measured; this, combined with the growing tendency to use publications as proxy measures of individual and institutional productivity, underlines the centrality of writing in academia. One of the central questions for scholars in higher education, therefore, is 'How do we make writing happen?', and it is this question which the book seeks to answer. The book provides detailed illustrations of collaborative writing pedagogies which are powerfully enabling, and through theoretical and conceptual interrogation of these practices, the authors point the way for individuals as well as institutions to establish writing groups that are lively, responsive and context-specific. Key topics include: new pedagogical responses for increased writing productivity and the 'push to publish';

innovations for supporting academic writing quality, confidence and output; scaffolding the thesis writing process; new theoretical explorations of collaborative writing approaches; writing group formulations and pedagogical approaches; writing groups for non-native speakers of English; writing as women in higher education. A particular strength of this book is that it showcases the potential of writing groups for advanced academic writing by pulling together a unique mix of authors and scholarly approaches, representing a wide range of new theoretical and pedagogical frames from diverse countries. Writing Groups for Doctoral Education and Beyond will be attractive to academics seeking new ways to advance their writing productivity, doctoral students, their supervisors and those who are tasked with the job of supporting them through the completion and dissemination of their research.

Assistive Technology C. Sik-Lányi,E.-J. Hoogerwerf,K. Miesenberger,2015-08-27 Assistive Technology (AT) is the term used to describe products or technology-based services which support those with disabilities or other limitations to their daily activities, enabling them to enjoy a better quality of life. This book presents the proceedings of the 13th European Conference on the Advancement of Assistive Technology (AAATE 2015), held in Budapest, Hungary in September 2015. This biennial conference has established itself as a leading forum in the transdisciplinary area of Assistive Technology, providing a unique platform for the gathering of experts from around the world to review progress and challenges in the interdisciplinary fields which contribute to AT, such as research, development, manufacturing, supply, provision and policy. The theme of the 2015 conference is 'Attracting new areas and building bridges', and this book contains 138 reviewed papers and 28 poster presentations delivered at the conference, covering AT themes as diverse as aging, blindness, mobility, assisted living and accessibility for people with dementia and cognitive

impairment. Offering a current overview of many aspects of AT, this book will be of interest to all those – from researchers and manufacturers to healthcare professionals and end-users – whose work or daily life involves the relationship between technology and disability.

Life Writing and Literary Métissage as an Ethos for Our Times Erika Hasebe-Ludt,Cynthia Chambers,Carleton Derek Leggo,2009 This book introduces literary métissage as a way to research, teach, and live ethically «with all our relations» in our precarious times. The authors theorize and perform literary métissage through the praxis of life writing, braiding their autobiographical texts, in various (mixed) genres, into seven themes. Life Writing and Literary Métissage as an Ethos for Our Times explores this writing praxis, with its more inclusive and generative notions of knowledge and knowledge practices, as a tool for creating more just societies and schools.

Stimulating Story Writing! Simon Brownhill,2015-10-16 Stimulating Story Writing! Inspiring Children aged 7-11 offers innovative and exciting ways to inspire children to want to create stories and develop their story writing skills. This practical guide offers comprehensive and informed support for professionals to effectively engage 'child authors' in stimulating story writing activity. Packed full of story ideas, resource suggestions and practical activities, the book explores various ways professionals can help children to develop the six key elements of story, these being character, setting, plot, conflict, resolution and ending. All of the ideas in the book are designed to complement and enrich existing writing provision in classrooms with strategies such as role play, the use of different technologies, and using simple open ended resources as story stimuli. Separated into two sections and with reference to the Key Stage 2 curricula, this timely new text provides professionals with tried and tested strategies and ideas that can be used with immediate effect. Chapters include: • Creating Characters • The Plot Thickens • Inspired Ideas • Resourcing the Story Stimulation This

timely new text is the perfect guide for inspiring children aged 7-11 in the classroom and will be an essential resource for teachers and students on teacher training courses.

Grants Jean M. Fromm,2007 Grants are available from thousands of sources, both private and public. To the grantseeker, however, this wealth of sources appears like an impenetrable jungle. Where are the grants I need and what do I need to do to submit my ideas and proposals? This book is designed to answer these questions by aiming the grantseeker to both the grant givers and by providing a bibliography of book for further research.

Better Answers Ardith Cole,2023-10-10 Student's writing skills are improving tremendously... Last year's fourth-graders started using the sandwich method mid-year and almost all of them scored in the highest possible category when they took the state's standardized English-language arts test just a few months later. Wells Central Schools, Wells Central is just one of numerous schools that attribute their success to Ardith Davis Cole's Better Answers process. Since 2002, her book Better Answers has offered teachers and school districts a powerful alternative to test-prep workbooks. It presents a dramatically different instructional model that helps students construct thoughtful test responses, but it also prepares them for any task requiring thorough, cogent answers to questions and prompts -- both in and out of school. Now, with students tested more frequently than ever, and with teachers increasingly concerned about incorporating substantive test-taking skills into children's learning, Ardith Cole responds with a new updated and expanded edition of Better Answers. Informed by Ardith's ongoing work in classrooms where students struggle over constructed-response tasks, the new edition makes the Better Answers sandwich even easier to implement. The book has also been significantly reorganized, as well as expanded to include two new chapters, Understanding the Prompt and What to do When. Also included is a resource-packed

CD-ROM that contains everything teachers need to support their lessons and is a great tool for staff development: lesson plans for text-based and self-based responses; power point slides, charts, and other visual supports; sets of sample texts with prompts; sample student responses; assessment forms; extensive bibliography of print and online resources. The Better Answers process is easy to grasp and uses a gradual-release instructional process that begins with teacher modeling, invites increasing amounts of student participation, and eventually moves students into independent response writing. The book clearly explains each element of the process and provides helpful activities, authentic classroom vignettes, and tips on how to handle typical stumbling blocks along the way.

Practical DWR 2 Projects Frank Zammetti,2008-03-11 Practical DWR Web 2.0 Projects addresses the needs of most developers who would rather learn by example and by doing. This book contains several projects that developers can sink their teeth into doing. Written by accomplished Ajax and Java Web developer and author, Frank Zammetti, this book explores DWR and all it offers. It features six full, working applications that use DWR. This book allows you to lean by example, as you tear the applications apart, you see what makes them tick, and even discover how to extend them at your own pace.

Cloud Computing: A Hands-On Approach Arshdeep Bahga,Vijay Madisetti,2013-12-09 About the Book Recent industry surveys expect the cloud computing services market to be in excess of $20 billion and cloud computing jobs to be in excess of 10 million worldwide in 2014 alone. In addition, since a majority of existing information technology (IT) jobs is focused on maintaining legacy in-house systems, the demand for these kinds of jobs is likely to drop rapidly if cloud computing continues to take hold of the industry. However, there are very few educational options available in

the area of cloud computing beyond vendor-specific training by cloud providers themselves. Cloud computing courses have not found their way (yet) into mainstream college curricula. This book is written as a textbook on cloud computing for educational programs at colleges. It can also be used by cloud service providers who may be interested in offering a broader perspective of cloud computing to accompany their own customer and employee training programs. The typical reader is expected to have completed a couple of courses in programming using traditional high-level languages at the college-level, and is either a senior or a beginning graduate student in one of the science, technology, engineering or mathematics (STEM) fields. We have tried to write a comprehensive book that transfers knowledge through an immersive hands-on approach, where the reader is provided the necessary guidance and knowledge to develop working code for real-world cloud applications. Additional support is available at the book's website: www.cloudcomputingbook.info Organization The book is organized into three main parts. Part I covers technologies that form the foundations of cloud computing. These include topics such as virtualization, load balancing, scalability & elasticity, deployment, and replication. Part II introduces the reader to the design & programming aspects of cloud computing. Case studies on design and implementation of several cloud applications in the areas such as image processing, live streaming and social networks analytics are provided. Part III introduces the reader to specialized aspects of cloud computing including cloud application benchmarking, cloud security, multimedia applications and big data analytics. Case studies in areas such as IT, healthcare, transportation, networking and education are provided.

Professional Writing for the Criminal Justice System Jill Harrison, PhD,Daniel Weisman, MSW, PhD,Joseph L. Zornado, PhD,2017-04-21 Underscores the critical importance of effective

writing in the justice system and how to achieve it This user-friendly guide to effective writing for the justice system teaches readers to write cogently and accurately across the spectrum of criminal justice-related disciplines. With an examination of common writing problems that interfere with good reporting and documentation, it underscores the importance of skilled written communication as a cornerstone of competent practice within criminology. It provides examples of strong writing that demonstrate communication of cultural competency and help students develop critical thinking/writing skills. Of outstanding value are numerous examples of real-world writing alongside discussion questions and explanations, enabling students to think critically and truly understand what constitutes good writing. Actual forms and records used in practice are included along with real-world writing examples drawn from all areas of practice: police, corrections, probation and parole services, social work, miscellaneous court documents, and victim advocate services. The book's interactive approach to writing includes forms on which students can practice their skills, practice tests, and chapters organized around the standard curriculum taught in most criminal justice programs. Key Features: Addresses the increasingly common issue of student deficiencies in cultural competency and critical thinking as they relate to writing skills Offers an interactive approach based on real practice and tied to students' interests Includes examples of good and poor writing, with corrections and explanations for the "bad" examples Displays actual forms and records used by law enforcement agencies, correctional departments, and related organizations Fosters the development of critical and culturally competent writing skills

   Educators as Writers Carol Smallwood,2006 You know that if you finish the novel you're working on it would sell - or maybe you have written a story for a children's book. Your colleagues and family tell you it's great, but you don't know what to do next. You're an educator not a writer, and the

publishing world seems out of your grasp. Educators as Writers: Publishing for Personal and Professional Development is written by fellow educators and a few editors, who provide a «how-to» to see your name in print. Fifty-four articles cover topics such as memoirs, blogging, children's books, freelancing, finding publishers, author websites, poetry contests, style guides, networking, and using classroom skills to write.

Service Learning in the PreK-3 Classroom Vickie E. Lake,Ithel Jones,2012 Based on field trials with over 2,000 students and 215 educators, this one-of-a-kind resource presents all the background knowledge and skills needed to effectively use service learning in preK and primary classrooms. Rich in both theory and practice, the book reflects the tenets of the National Association for the Education of Young Children's(NAEYC) developmentally appropriate practices (DAP), combining community service with differentiated curriculum-based learning to meet the academic and social needs of young children in meaningful ways. Sample lesson plans are based on tested classroom projects and correlated to national service learning, Head Start, and core content standards. It includes dozens of ready-to-use templates for lesson planning, surveying, assessment, evaluation, permissions, and documentation. An accompanying CD-ROM offers customizable versions of the book's forms along with additional sample lesson plans and a PowerPoint presentation for use in preservice and professional development--

Thinking Outside the Book Carol Smallwood,2015-03-26 Professionals in all areas of librarianship will find inspiration in the essays collected here—each of them innovative tips for increasing circulation, enhancing collections, and improving flexibility. With extensive experience in the nation's top libraries and media centers, the 73 contributors describe what really works based on their real-world experiences. Organized by subject, the essays offer succinct and practical

guidelines for dozens of tasks. Topics include preparing and delivering distinctive presentations; forming a successful grant proposal; hosting a traveling multimedia exhibition; organizing effective community partnerships; writing blogs; hosting authors; creating cybertorials; preserving local culture—and many others.
