Hard Times and New Deal in Kentucky George T. Blakey,2014-07-15 The Great Depression and the New Deal touched the lives of almost every Kentuckian during the 1930s. Fifty years later the Commonwealth is still affected by the legacies of that era and the policies of the Roosevelt administration. George T. Blakey has written the first full study of this turbulent decade in Kentucky, and he offers a fresh perspective on the New Deal programs by viewing them from the local and state level rather than from Washington. Thousands of Kentuckians worked for New Deal programs such as the Civilian Conservation Corps and the Works Projects Administration; thousands more kept their homes through loans from the Home Owners Loan Corporation. Tobacco growers adopted new production techniques and rural farms received their first electricity because of the Agricultural Adjustment and Rural Electrification administrations. The New Deal stretched from the Harlan County coal mines to a TVA dam near Paducah, and it encompassed subjects as small as Social Security pension checks and as large as revived Bourbon distilleries. The impact of these phenomena on Kentucky was both beneficial and disruptive, temporary and enduring. Blakey analyzes the economic effects of this unprecedented and massive government spending to end the depression. He also discusses the political arena in which Governors Laffoon, Chandler, and Johnson had to wrestle with new federal rules. And he highlights social changes the New Deal brought to the Commonwealth: accelerated urbanization, enlightened land use, a lessening of state power and individualism, and a greater awareness of Kentucky history. *Hard Times and New Deal* weaves together private memories of older Kentuckians and public statements of contemporary politicians; it includes legislative debates and newspaper accounts, government statistics and personal reminiscences. The result is a balanced and fresh look at the patchwork of emergency and reform activities which many people loved, many others hated, but no one could ignore.

Springer Handbook of Robotics Bruno Siciliano,Oussama Khatib,2016-07-27 The second edition of this handbook provides a state-of-the-art overview on the various aspects in the rapidly developing field of robotics. Reaching for the human frontier, robotics is vigorously engaged in the growing challenges of new emerging domains. Interacting, exploring, and working with humans, the new generation of robots will increasingly touch people and their lives. The credible prospect of practical robots among humans is the result of the scientific endeavour of a half a century of robotic developments that established robotics as a modern scientific discipline. The ongoing vibrant expansion and strong growth of the field during the last decade has fueled this second edition of the Springer Handbook of Robotics. The first edition of the handbook soon became a landmark in robotics publishing and won the American Association of Publishers PROSE Award for Excellence in Physical Sciences & Mathematics as well as the organization's Award for Engineering & Technology. The second edition of the handbook, edited by two internationally renowned scientists with the support of an outstanding team of seven part editors and more than 200 authors, continues to be an authoritative reference for robotics researchers, newcomers to the field, and scholars from related disciplines. The contents have been restructured to achieve four main objectives: the enlargement of foundational topics for robotics, the enlightenment of design of various types of robotic systems, the extension of the treatment on robots moving in the environment, and the enrichment of advanced robotics applications. Further to an extensive update, fifteen new chapters have been introduced on emerging topics, and a new generation of authors have joined the handbook's team. A novel addition to the second edition is a comprehensive collection of multimedia references to more than 700 videos, which bring valuable insight into the contents. The videos can be viewed directly augmented into the text with a smartphone or tablet using a unique and specially designed app. Springer Handbook of Robotics Multimedia Extension Portal: <http://handbookofrobotics.org/>

Black Identities Mary C. WATERS,2009-06-30 The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

DoD Digital Modernization Strategy Department of Defense,2019-07-12 The global threat landscape is constantly evolving and remaining competitive and modernizing our digital environment for great power competition is imperative for the Department of Defense. We must act now to secure our future.This Digital Modernization Strategy is the cornerstone for advancing our digital environment to afford the Joint Force a competitive advantage in the modern battlespace.Our approach is simple. We will increase technological capabilities across the Department and strengthen overall adoption of enterprise systems to expand the competitive space in the digital arena. We will achieve this through four strategic initiatives: innovation for advantage, optimization, resilient cybersecurity, and cultivation of talent.The Digital Modernization Strategy provides a roadmap to support implementation of the National Defense Strategy lines of effort through the lens of cloud, artificial intelligence, command, control and communications and cybersecurity.This approach will enable increased lethality for the Joint warfighter, empower new partnerships that will drive mission success, and implement new reforms enacted to improve capabilities across the information enterprise.The strategy also highlights two important elements that will create an enduring and outcome driven strategy. First, it articulates an enterprise view of the future where more common foundational technology is delivered across the DoD Components. Secondly, the strategy calls for a Management System that drives outcomes through a metric driven approach, tied to new DoD CIO authorities granted by Congress for both technology budgets and standards.As we modernize our digital environment across the Department, we must recognize now more than ever the importance of collaboration with our industry and academic partners. I expect the senior leaders of our Department, the Services, and the Joint Warfighting community to take the intent and guidance in this strategy and drive implementation to achieve results in support of our mission to Defend the Nation.

Water Consumption, Tariffs and Regulation Francesc Hernandez-Sancho,Maria Molinos-Senante,2018-05-15 Water Consumption, Tariffs and Regulation aims to provide a statistical overview about water abstraction, consumption, tariffs and data on sewage and wastewater treatment at an international level. It is mainly based on the statistical information provided by IWA Specialist Group on Statistics and Economics. The book is structured in three main parts. Part I presents tables and figures relative to water consumption and sanitation status and focuses on water abstraction, water delivered, water consumption and the evolution of sewer connection and wastewater treatment. Part II focuses on the analysis of water tariffs by investigating the structure of water tariffs by analysing the importance of the variable and fixed charge. It presents drinking water tariffs and illustrates the relationship between tariffs and GDP and also the size of the cities. Finally, charges in wastewater are dealt with country by country. Part III analyses the main aspects relative to water regulation and describes the importance of private operators in the management of the water cycle. Information relative to the principles used to fix drinking water prices is presented with an assessment of access to public water services.

Balance of Payments Manual International Monetary Fund,2005-11-16 The fifth edition of Balance of Payments Manual, issued in 1993, presents revised and updated standards for concepts, definitions, classifications, and conventions for compilation of balance of payments and international investment position statistics that reflect the widespread changes that have taken place in international transactions since the fourth edition was published in 1977. As the international standard, the Manual serves as a guide for IMF member countries that regularly report balance of payments data to the IMF. The Manual contains significantly expanded and restructured coverage of financial flows and stocks and international transactions in services. Harmonization with the System of National Accounts and other IMF statistical systems is also greatly increased. See also companion volumes, the Balance of Payments Compilation Guide and the Balance of Payments Textbook.

Idli Orchid And Will Power Vithal Kamat,2018-11-20 The story of an entrepreneur who moved from a single, family style restaurant, to create a

chain known across India. But his passion for hospitality did not stop there. Vithal Kamat had a dream to make a five star hotel. He went on to make THE ORCHID, a five-star ecotel, which won numerous awards for being the world's best environmentally sensitive hotel. The Orchids multiplied and today stand as icons of hospitality. This is the story of what went into the making of this empire. This is an inspiring story of a man willing to face any odds for his dream, armed with determination, dedication and discipline. There are moments in our lives, where we feel like giving up on our vision and aspirations. This true life story of hotelier Vithal Kamat shows that all it takes to make it, is the belief in your dreams and the conviction to see them through.

Recent Advances in Modeling and Simulation Tools for Communication Networks and Services Nejat Ince, Arnold Bragg, 2007-09-20 This book contains a selection of papers presented at a symposium organized under the aegis of COST Telecommunications Action 285. COST (European Cooperation in the field of Scientific and Technical Research) is a framework for scientific and technical cooperation, allowing the coordination of national research on a European level. Action 285 sought to enhance existing tools and develop new modeling and simulation tools.

The Unnatural History of the Sea Callum Roberts, 2009-01-05 Humanity can make short work of the oceans' creatures. In 1741, hungry explorers discovered herds of Steller's sea cow in the Bering Strait, and in less than thirty years, the amiable beast had been harpooned into extinction. It's a classic story, but a key fact is often omitted. Bering Island was the last redoubt of a species that had been decimated by hunting and habitat loss years before the explorers set sail. As Callum M. Roberts reveals in *The Unnatural History of the Sea*, the oceans' bounty didn't disappear overnight. While today's fishing industry is ruthlessly efficient, intense exploitation began not in the modern era, or even with the dawn of industrialization, but in the eleventh century in medieval Europe. Roberts explores this long and colorful history of commercial fishing, taking readers around the world and through the centuries to witness the transformation of the seas. Drawing on firsthand accounts of early explorers, pirates, merchants, fishers, and travelers, the book recreates the oceans of the past: waters teeming with whales, sea lions, sea otters, turtles, and giant fish. The abundance of marine life described by fifteenth century seafarers is almost unimaginable today, but Roberts both brings it alive and artfully traces its depletion. Collapsing fisheries, he shows, are simply the latest chapter in a long history of unfettered commercialization of the seas. The story does not end with an empty ocean. Instead, Roberts describes how we might restore the splendor and prosperity of the seas through smarter management of our resources and some simple restraint. From the coasts of Florida to New Zealand, marine reserves have fostered spectacular recovery of plants and animals to levels not seen in a century. They prove that history need not repeat itself: we can leave the oceans richer than we found them.

Sustainable Energy in China, 2007 This timely new book uses historical data from 1980 and alternative scenarios through 2020 to assess China's future energy requirements and the resources available to meet them. Current trends are putting China on an unsustainable and insecure energy growth path, characterized by the use of enormous quantities of dirty coal and an alarming oil import dependence. The authors find that what is urgently needed is a high-level commitment to an integrated, coordinated, and comprehensive policy that is set in the framework of the energy law currently being prepared.

Factories in the Field Carey McWilliams, 2000-04-15 This book was the first broad exposé of the social and environmental damage inflicted by the growth of corporate agriculture in California. *Factories in the Field*—together with the work of Dorothea Lange, Paul Taylor, and John Steinbeck—dramatizes the misery of the dust bowl migrants hoping to find work in California agriculture. McWilliams starts with the scandals of the Spanish land grant purchases, and continues on to examine the experience of the various ethnic groups that have provided labor for California's agricultural industry—Chinese, Japanese, Mexicans, Filipinos, Armenians—the strikes, and the efforts to organize labor unions

The Byzantine Text-Type & New Testament Textual Criticism Harry Sturz, 2022-06-08 Should the Byzantine text-type be considered valuable in determining the original text of the New Testament? Does it bear independent witness to ancient readings? Dr. Harry Sturz, in a book published in 1984, maintained that it should be valued and that it could help with finding older readings and thus contribute to our knowledge of and confidence in the text of the Greek New Testament. His position, that the Byzantine text-type should be weighed along with other witnesses to the ancient text, differs from those who dismiss Byzantine manuscripts, which were largely copied later, but also from those who hold that the Byzantine text has priority or even is determinative of what the final reading should be. He uses carefully laid out arguments and numerous specific examples in making his case. This book is divided into two parts. The first outlines the positions both for relying on the Byzantine text and for largely ignoring it. Part two examines the evidence and outlines an argument that neither side of this debate should win the field, but rather that the Byzantine text should be valued, but not made exclusive. Energion Publications is pleased to offer this reprint edition, reproducing the text of the old book exactly, and adding a preface by Dr. David Alan Black. We believe that Dr. Sturz's arguments provide a strong case and are as relevant today as they were in 1984. We also believe that not just scholars but all believers should be made aware of discussions about the text of Scripture so that they can understand the arguments for the reliability of the text we have today. This book is primarily aimed at students of New Testament textual criticism and at scholars who are seeking to refine their art. The first section especially is accessible to any serious reader. While the second section does include Greek text and excellent references, the main argument is clear and accessible.

The Church Awakening Charles R. Swindoll, 2010-09-08 In THE CHURCH AWAKENING, Charles Swindoll discusses the challenges, struggles, and priorities of the church in the twenty-first century. He reveals the problems inherent in the entertainment-based postmodern church and shows how a return to biblical teaching will restore its strength and impact. Now being replaced by a feel-good message instead of what Christians need to know to stand strong in a world that's lost its way--Swindoll exposes the problems of--and solutions for--the postmodern evangelical church. Just as he opened readers' eyes with his bold statements in *The Grace Awakening*, now he offers a straightforward volume revealing how to reestablish a life-altering church with Christ as Lord and Master. Illuminating and empowering, THE CHURCH AWAKENING will ignite a revolution in the way Christians do church for years to come.

At a Crossroads María Marta Ferreyra, Ciro Avitabile, Javier Botero, Ivarez, Francisco Haimovich Paz, 2017-05-18 Higher education in Latin America and the Caribbean has expanded dramatically in the past 15 years, as the average gross enrollment rate has more than doubled, and many new institutions and programs have been opened. Although higher education access has become more equitable, and higher education supply has become more varied, many of the 'new' students in the system are, on average, less academically ready than are their more advantaged counterparts. Furthermore, only half of higher education students, on average, complete their degree, and labor market returns to higher education vary greatly across institutions and programs. Thus, higher education is at a crossroads today. Given the region's urgency to raise productivity in a low-growth, fiscally constrained environment, going past this crossroads requires the formation of skilled human capital fast and efficiently. 'At a Crossroads: Higher Education in Latin America and the Caribbean' contributes to the discussion by studying quality, variety, and equity of higher education in Latin America and the Caribbean. The book presents comprehensive evidence on the recent higher education expansion and evolution of higher education labor market returns. Using novel data and state-of-the-art methods, it studies demand and supply drivers of the recent expansion. It investigates the behavior of institutions and students and explores the unintended consequences of large-scale higher education policies. Framing the analysis are the singular characteristics of the higher education market and the market segmentation induced by the variety of students and institutions in the system. At this crossroads, a role emerges for incentives, information, accountability, and choice.
