From the City to the Desert Raffael Beier,2019-08-23 In recent years, large-scale housing and resettlement projects have experienced a renaissance in many developing countries and are increasingly shaping new urban peripheries. One prominent example is Morocco's Villes Sans Bidonville (cities without shantytowns) programme that aims at eradicating all shantytowns in Morocco by resettling its population to apartment blocks at the urban peripheries. Analysing the specific resettlement project of Karyan Central, a 90-year-old shantytown in Casablanca, this book sheds light on both process and outcome of resettlement from the perspective of affected people. It draws on rich empirical data from a structure household survey (n=871), qualitative interviews with different stakeholder, document analysis, and non-participant observation gathered during four months of field research. The author emphasises that the VSB programme, although formally part of anti-poverty and urban inclusion policies, puts primary focus on the clearance of the shantytown. Largely based on ill-informed policy assumptions, stigmatisation, rent-seeking, and opaque implementation practices, the VSB programme interpreted adequate housing in a narrow sense. By showing how social interactions, employment patterns, and access to urban functions have changed because of resettlement, the book provides sound empirical evidence that housing means more than four walls and a roof.

The Pedagogy of Standardized Testing Arlo Kempf,2016-04-29 Based on a large-scale international study of teachers in Los Angeles, Chicago, Ontario, and New York, this book illustrates the ways increased use of high-stakes standardized testing is fundamentally changing education in the US and Canada with a negative overall impact on the way teachers teach and students learn. Standardized testing makes understanding students' strengths and weaknesses more difficult, and class time spent on testing consumes scarce time and attention needed to support the success of all students—further disadvantaging ELLs, students with exceptionalities, low income, and racially minoritized students.

Return from the Dead David Stuart Davies,2004 Beware, the Dead are coming back! This is a unique and fascinating collection of early mummy stories that helped to establish the chilling concept of the Dead returning to life as a potent sub-genre of horror fiction. The main feature on the mummy bill, 'The Jewel of the Seven Stars' by Bram Stoker, is generally regarded as his best work after Dracula. A weird mixture of adventure, the supernatural and science fiction is found in Jane Webb's 'The Mummy', a tale written in 1827 but set in 2126. 'Some Words with a Mummy' is by the great horror writer Edgar Allen Poe. Arthur Conan Doyle's 'The Ring of Thoth' is the classic mummy tale and was the basis for the 1932 movie 'The Mummy' starring Boris Karloff and, indeed most mummy films ever since. 'Lot 249', another Doyle chiller, completes this collection, which is guaranteed to entertain and possibly prompt a nightmare.

More Noble Than War Nicholas Blincoe,2019-10-29 By turns tragic and hopeful, the history of Israel and Palestine through the lens of the world's most popular sport Soccer has never been apolitical. This is especially true for Israel and Palestine. The game played a direct role in shaping the politics of both countries, and the view from the stands or the pitch shines a light on key moments in the region's volatile history. In More Noble Than War, Nicholas Blincoe weaves a dramatic narrative filled with driven players and coaches who are inspired as much by nationalism as a love of the game. Blincoe traces the history from the sport's introduction through church leagues, the rising tensions after the creation of Israel, and the decades of violence, war, and hunger strikes that have decimated teams. More Noble Than War is a must-read for soccer fans and anyone seeking a new understanding of the world's most intractable conflict.
