**The Importance of Mangroves to People** Norman  
Clive Duke,2014 This global synthesis report  
serves as a call to action to decision makers. It  
provides a science-based synthesis of the  
different types of goods and services provided by  
mangroves and the associated risks in losing these  
services in the face of ongoing global habitat  
loss and degradation. The report provides  
management and policy options at the local,  
regional and global level with the aim of  
preventing further losses through effective  
conservation measures, sustainable management and  
successful restoration. In addition to the report,  
key figures and maps are available to download as  
individual files.--Publisher's description.

*Introduction to Permanent Plug and Abandonment  
of Wells* Mahmoud Khalifeh,Arild Saasen,2020-01-27  
This open access book offers a timely guide to

challenges and current practices to permanently plug and abandon hydrocarbon wells. With a focus on offshore North Sea, it analyzes the process of plug and abandonment of hydrocarbon wells through the establishment of permanent well barriers. It provides the reader with extensive knowledge on the type of barriers, their functioning and verification. It then discusses plug and abandonment methodologies, analyzing different types of permanent plugging materials. Last, it describes some tests for verifying the integrity and functionality of installed permanent barriers. The book offers a comprehensive reference guide to well plugging and abandonment (P&A) and well integrity testing. The book also presents new technologies that have been proposed to be used in plugging and abandoning of wells, which might be game-changing technologies, but they are still in laboratory or testing level. Given its scope, it addresses students and researchers in both academia and industry. It also provides information for engineers who work in petroleum industry and should be familiarized with P&A of hydrocarbon wells to reduce the time of P&A by considering it during well planning and construction.
