**Central America, Panama, and the Dominican Republic** Mr. Marco Pinon, Mr. Alejandro Lopez Mejia, M. (Mario) Garza, Mr. Fernando L Delgado, 2012-07-16 Central America, Panama, and the Dominican Republic coped well with the global financial crisis of 2008-09. The impact was generally less severe and shorter lived than in previous episodes, the balance of payments adjustment was orderly, and the stability of the financial system was not compromised. This resilience can be attributed to a large extent to the strengthening of the fiscal frameworks, monetary management, and financial reforms conducted in the years preceding the global crisis. Nevertheless, the region faces considerable challenges for the period ahead, including the need to raise medium term growth above historical levels and protect macroeconomic and financial stability. This book argues that meeting these challenges will have to come from within, in light of the anticipated modest demand growth from trade partners. Raising growth in the region will depend on the adoption of structural reforms that generate substantial productivity gains. Rebuilding fiscal space and securing debt sustainability will hinge on efforts to increase tax revenue and reorienting spending to social and investment priorities. In the non-officially dollarized economies, it will also be essential to strengthen the monetary policy frameworks to keep inflation low and increase exchange rate flexibility, and improve financial regulation and supervision.

**Asian Transnational Security Challenges** Caroline Ziemke-Dickens, Julian Droogan, 2010 The Council for Asian transnational Threat Research (CATR) has its roots in the initial months following the September 11, 2001 terrorist attacks on New York and Washington. Although the United States initially received widespread global support for what the Bush administration called the global war on terror, over time, as the US war on terror expanded its reach beyond al-Qaida's safe haven in Taliban-controlled Afghanistan, allies and partners began to question some aspects of the US approach. Regional experts criticized the disproportionately military response to what they regarded as a threat with primarily political, social, and economic roots and the focus on religiously-motivated

jihadists that overlooked other, largely secular, but no less dangerous, violent extremist movements. The regional view of the landscape of transnational threats in Asia extended well beyond al-Qaida, involving loose networks of violent groups that traded resources and know-how, but did not necessarily have a central leadership, common motivations, or a shared agenda. To understand and cope with this threat landscape would require a multilateral and nuanced approach, in which states across Asia could work in partnership with the United States to develop comprehensive responses to an increasingly complex threat environment.--DTIC abstract.

**Young Guns** Eric Cantor,Paul Ryan,Kevin McCarthy,2010-09-14 America urgently

needs a new direction. But who will provide it? The time has come to move the country forward with a clear agenda based on common sense for the common good. THERE IS A BETTER WAY. Make no mistake: Congressmen Eric Cantor, Paul Ryan, and Kevin McCarthy are proud Republicans. But they believe the party had lost sight of the ideals it believes in, like economic freedom, limited government, the sanctity of life, and putting families first. This isn't your grandfather's Republican party. These Young Guns of the House GOP—Cantor (the leader), Ryan (the thinker), and McCarthy (the strategist)—are ready to take their belief in the principles that have made America great and translate it into solutions that will make the future even better, solutions that will create private sector jobs, maximize individual freedom, and establish a better world for our children. This groundbreaking book is a call to action that sets forth a plan for growth, opportunity, and commitment that will propel this country to prosperity once again. Together, the Young Guns are changing the face of the Republican party and giving us a new road map back to the American dream.

Relatives Raising Children Joseph Crumbley, Robert L. Little, 1997 The rapid growth of kinship foster care--full-time parenting of children by relatives or other adults who have a kinship bond with a child--has caught many child welfare agencies off guard. This monograph presents information needed by professionals, agencies, institutions, communities, and organizations to develop and provide services to kinship caregivers, kinship families, children, and parents. The monograph contains discussions of common clinical issues, suggests intervention strategies, examines kinship care's legal implications, and offers policy and program recommendations. Chapter 1 compares relative or kinship care to traditional family foster care, and outlines the characteristics of kinship care that necessitate changes in outlook and practice. Chapter 2 analyzes the clinical issues that must be considered in serving children, parents, and kinship caregivers. Chapters 3 and 4 provide guidance on child welfare practice with kinship families. Chapter 5 considers the effect of culturally based child-rearing practices, gender roles, and hierarchy of authority on child welfare practice with kinship families, as well as the impact of parental incarceration, substance abuse, and HIV/AIDS. Chapter 6 looks at the legal rights, responsibilities, and status of kinship families, caregivers, parents, and children. Chapter 7 discusses federal and state issues for program and policy development; this chapter also examines the philosophy and values underlying provision of financial support to kinship families, the emerging federal role, state policy directions, and permanency planning. Contains 40 references. (KB)

**Perspectives on Learning Assessment in the Arts in Higher Education** Diane Leduc, Sébastien Béland, 2021-11-04 Drawing on theoretical and empirical insights from

art teachers in Canada and Europe, this edited volume explores the question of how learning in the arts can be effectively and fairly assessed in the context of higher education. The chapters consider a rich variety of assessment practices across music, visual and plastic arts, performing arts, design, fashion, dance and music and illustrate how knowledge, competencies, skills and progress can be viably and fairly assessed. Contextual challenges to assessment are also considered in depth, and particular attention is paid to the challenges of reconciling teaching in the arts, aimed at an intuitive transformation of the student, and assessing learning that takes on its meaning in subjectivity and sensitivity. This text will benefit researchers, academics and educators in higher education with an interest in assessment in the artistic disciplines and in the topic of creativity more broadly. Those specifically interested in educational assessment policy and the visual arts will also benefit from this book.
