DAVIDJC MACKAY

2 DYING IN AMERICA INSTITUTE OF MEDICINE, COMMITTEE ON APPROACHING DEATH: ADDRESSING KEY END-OF-LIFE ISSUES, 2015-03-19 For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social, psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. Dying in America evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

2 WOMEN IN THE LABOR FORCE , 2006

2 DIRECTORY OF RESEARCH GRANTS 2008 SCHOOLHOUSE PARTNERS LLC, 2008-05 Volume 2 of 2 - With more than 5,100 listings of grants programs from 1,880 sponsors, the Directory of Research Grants is a comprehensive directory of grants available to researchers in every field of study. The directory has a broad focus, featuring grants for basic research, equipment acquisition, building construction/renovation, fellowships, and 23 other program types. Government grants include CFDA, NSF and NIH program numbers. Each record includes grant title, description, requirements, amount, application deadline, contact information (phone, fax and email), web address, sponsor name and address, and samples of awarded grants (when available). Printed in two volumes, each with extensive indexes - subject, program type and geographic to help you to identify the right program quickly.

2 HOW TO BUILD A SUCCESSFUL INTERNATIONAL WEB SITE MARK BISHOP, 1998 How To Build A Successful International Web Site provides the information you need to go multilingual. You will learn to create cool international web sites, use HTML in every language, find and use multilingual web translation services and products, manage software to display in foreign languages, submit URLs to international search engines, and avoid cross-cultural faux pas. You'll also find plenty of international business information, references, links, and the tools you'll need to make your web site multilingual.

2 SUSTAINABLE ENERGY - WITHOUT THE HOT AIR DAVID JC MACKAY, 2016-05-14 The enlightening, best-selling book on understanding sustainable energy and how we can make energy plans that add up. If you've ever wondered how much energy we use, and where it comes from - and where it could come from - but are fed up with all the hot air and 'greenwash', this is the book for you. Renewable resources are 'huge', but our energy consumption is also 'huge'. To compare 'huge' things with each other, we need numbers, not adjectives. Sustainable Energy - Without the Hot Air addresses the energy crisis objectively, cutting through all the contradictory statements from the media, government, and lobbies of all sides. It gives you the numbers and the facts you need, in bite-sized chunks, so you can understand the issues yourself and organises a plan for change on both a personal level and an international scale - for Europe, the United States, and the world. In case study format, this informative book also answers questions surrounding nuclear energy, the potential of sustainable fossil fuels, and the possibilities of sharing renewable power with foreign countries. Written by David Mackay, who was an esteemed professor of engineering at the University of Cambridge and Chief Scientific Advisor to the UK Department of Climate Change, this is an uplifting, jargon-free and informative read for all. In it, David debunks misinformation and clearly explains the calculations of expenditure per person to encourage people to make individual changes that will benefit the world at large. If you've thrown your hands up in despair thinking no solution is possible, then read this book - it's an honest, realistic, and humorous discussion of all our energy options.

2 A SAFETY NET THAT WORKS ROBERT DOAR, 2017-02-13 This is an edited volume reviewing the major means-tested social programs in the United States. Each author addresses a major program or area, reviewing each area's successes and recommending how to address shortcomings through policy change. In general, our means-tested programs do many things well, but some adjustments to each could make the system much more effective. This book provides policymakers with a broad overview of the issues at hand in each program and how to address them.

2 INDICATORS OF WELFARE DEPENDENCE ,

2 THE USE OF FORCE IN UN PEACE OPERATIONS TREVOR FINDLAY, STOCKHOLM INTERNATIONAL PEACE RESEARCH INSTITUTE, 2002 One of the most vexing issues that has faced the international community since the end of the Cold War has been the use of force by the United Nations peacekeeping forces. UN intervention in civil wars, as in Somalia, Bosnia and Herzegovina, and Rwanda, has thrown into stark relief the difficulty of peacekeepers operating in situations where consent to their presence and activities is fragile or incomplete and where there is little peace to keep. Complex questions arise in these circumstances. When and how should peacekeepers use force to protect themselves, to protect their mission, or, most troublingly, to ensure compliance by recalcitrant parties with peace accords? Is a peace enforcement role for peacekeepers possible or is this simply war by another name? Is there a grey zone between peacekeeping and peace enforcement? Trevor Findlay reveals the history of the use of force by UN peacekeepers from Sinai in the 1950s to Haiti in the 1990s. He untangles the arguments about the use of force in peace operations and sets these within the broader context of military doctrine and practice. Drawing on these insights the author examines proposals for future conduct of UN operations, including the formulation of UN peacekeeping doctrine and the establishment of a UN rapid reaction force.

2 LOG HOME LIVING , 2002-05 Log Home Living is the oldest, largest and most widely distributed and read publication reaching log home enthusiasts. For 21 years Log Home Living has presented the log home lifestyle through striking editorial, photographic features and informative resources. For more than two decades Log Home Living has offered so much more than a magazine through additional resources-shows, seminars, mail-order bookstore, web site, and membership organization. That's why the most serious log home buyers choose Log Home Living.

2 TRANSPORTATION ENERGY DATA BOOK , 1984

2 OPERATING GRANTS FOR NONPROFIT ORGANIZATIONS 2005 GRANTS PROGRAM, 2005-04-30 Few needs are more important to a nonprofit organization than funding for operating costs. In this new directory, nonprofits and other organizations seeking grants and funding opportunities to support general operating expenses will find over 1,300 current operating grants—organized by state—with contact and requirement information for each. Three user-friendly indexes (subject, sponsor, and geographic restriction) help grantseekers quickly find the ideal funding opportunity.
