R.U.R., or Rossum's Universal Robots is a play written in 1920 by Karel Čapek, a Czech writer who wrote many plays and novels, many of them with science-fiction and dystopian themes. R.U.R. is perhaps the most well-known of these works in the English-speaking world because it brought the word "robot" into the language. "Robot" is derived from the Czech word meaning "worker." The play is set in the island headquarters of the R.U.R. corporation. The corporation has been manufacturing artificial beings which resemble humans, but who are tireless workers. They can be mass-produced in large numbers and are being adopted as workers in many countries. In the first scene of the play, they are visited by a young woman, Helena Glory, who aspires to relieve the lot of the robots, who she sees as oppressed. However, in what must be the fastest seduction scene in all drama, she is wooed and agrees to marry Harry Domin, the factory manager, who she has just met. She still however aspires to improve the life of robots and find a way to give them souls. Ultimately, however, this

admirable desire leads to disaster for humankind. The play was translated into English, and slightly abridged, by Paul Selver and Nigel Playfair in 1923. This version quickly became popular with both British and American audiences and was well received by critics.

*Free Culture* Lawrence Lessig, 2015-11-13 How big media uses technology and the law to lock down culture and control creativity. Free Culture is an entertaining and important look at the past and future of the cold war between the media industry and new technologies. - Marc Andreessen, cofounder of Netscape. Free Culture goes beyond illuminating the catastrophe to our culture of increasing regulation to show examples of how we can make a different future. These new-style heroes and examples are rooted in the traditions of the founding fathers in ways that seem obvious after reading this book. Recommended reading to those trying to unravel the shrill hype around 'intellectual property.' - Brewster Kahle, founder of the Internet Archive. The web site for the book is

**The Adult Learner** Malcolm S. Knowles,Elwood F. Holton III,Richard A. Swanson,Petra A. Robinson,2020-12-21 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of *The Adult Learner* has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of *The Adult Learner* will provide basic instructor

aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

**Good Economics for Hard Times** Abhijit V. Banerjee,Esther Duflo,2019-11-12 The winners of the

Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one

that shines a light to help us appreciate and understand our precariously balanced world.

*American Indian Stories* Zitkala-Sa,2012-03-15 A testimony to the power of one woman's spirit, this moving collection of autobiographical tales and family stories portrays a Native American teacher's struggle between her heritage and American society.

*Progressive Nation* Jerome Pohlen,2008-06 A Selection of the Progressive Book ClubFrom the sites of famous sit-ins, marches, and strikes to the locales of events that led to landmark Supreme Court decisions, this inspiring travel guide journeys to more than 400 of the places in the United States that are important to progressive politics. Organized by state, it includes the stories of hundreds of women and men of action who, through creativity and hard work, changed American society for the better. Visit the battlegrounds and celebrate the victories of civil libertarians, feminists, African Americans, gays, lesbians, environmentalists, labor organizers, and media activists. Make a stop at the

home of abolitionists Levi and Catharine Coffin, Grand Central Station on the Underground Railroad. Check out Alice's Restaurant Church, the namesake of Arlo Guthrie's song protesting the draft. Learn about the first women's convention held by Elizabeth Cady Stanton in Seneca Falls at the Women's Hall of Fame. See the site of the Haymarket Riot in Chicago where laborers protested working conditions. Join the many people who pay homage at the grave site of Leonard Matlovich, the gay Vietnam War veteran who fought the U.S. military--and won--when he was wrongfully discharged for homosexuality. Each entry features a listing of books and websites for further information, making this an essential lefty resource. For liberal-minded adventurous travelers, educational family vacationers, and progressives who want to know their history, this book will inspire them to do more than just cast a vote.
