Data Science for Economics and Finance Sergio Consoli,Diego Reforgiato Recupero,Michaela Saisana,2021 This open access book covers the use of data science, including advanced machine learning, big data analytics, Semantic Web technologies, natural language processing, social media analysis, time series analysis, among others, for applications in economics and finance. In addition, it shows some successful applications of advanced data science solutions used to extract new knowledge from data in order to improve economic forecasting models. The book starts with an introduction on the use of data science technologies in economics and finance and is followed by thirteen chapters showing success stories of the application of specific data science methodologies, touching on particular topics related to novel big data sources and technologies for economic analysis (e.g. social media and news); big data models leveraging on supervised/unsupervised (deep) machine learning; natural language processing to build economic and financial indicators; and forecasting and nowcasting of economic variables through time series analysis. This book is relevant to all stakeholders involved in digital and data-intensive research in economics and finance, helping them to understand the main opportunities and challenges, become familiar with the latest methodological findings, and learn how to use and evaluate the performances of novel tools and frameworks. It primarily targets data scientists and business analysts exploiting data science technologies, and it will also be a useful resource to research students in disciplines and courses related to these topics. Overall, readers will learn modern and effective data science solutions to create tangible innovations for economic and financial applications.

AIX V6 Advanced Security Features Introduction and Configuration Chris Almond,Brad Gough,Christian Karpp,Rajeev Mishra,Liviu Rosca,Jackie Wilson,IBM Redbooks,2013-08-26 AIX Version 6.1 provides many significant new security technologies and security enhancements. The purpose of this IBM Redbooks publication is to highlight and explain the security features at the conceptual level, as well as provide practical examples of how they may be implemented. Some features are extensions of features made available in prior AIX releases, and some are new features introduced with AIX V6. Major new security enhancements will be introduced with AIX V6 in 2007: - Trusted AIX (Multilevel Security) - Role Based Access Control (RBAC) - Encrypted File System - Trusted Execution - AIX Security Expert Enhancements This IBM Redbooks publication will provide a technical introduction to these new enhancements. The topics are both broad and very complex. This book will serve as an initial effort in describing all of the enhancements together in a single volume to the security/system hardening oriented audience.

These decisions range from the more business-centric decisions, such as which should be your first process, to the more technical decisions, such as solution analysis and architectural considerations.

Third-Party Funding in International Arbitration Lisa Bench Nieuwveld, Victoria Shannon Sahani, 2016-04-24 Since the first edition of this invaluable book in 2012, third-party funding has become more mainstream in international arbitration practice. However, since even the existence of a third-party funding agreement in a dispute is often kept secret, it can be difficult to glean the specifics of successful funding agreements. This welcome book, now updated, expertly reveals the nuances of third-party funding in international arbitration, examines the phenomenon in key jurisdictions, and provides a reliable resource for users and potential users that may wish to tap into and make use of this distinctive funding tool. Focusing on Australia, the United Kingdom, the United States, Germany, the Netherlands, Canada, and South Africa, the authors analyze and assess the legal regime based upon legislation, judicial opinions, ethics opinions, and practitioner anecdotes describing the state of third-party funding in each jurisdiction. In addition to updating summaries of the law of the various jurisdictions, the second edition includes a new chapter addressing third-party funding in investor-state arbitration. Among the issues raised and examined are the following: · payment of adverse costs; · “Before-the-Event” (BTE) and “After-the-Event” (ATE) insurance; · attorney financing: pro bono representation, contingency representation, conditional fee arrangements; · loans; · ethical doctrines affecting the third-party funding industry; · possible future bundling, securitization, and trading of legal claims; · risk that the funder may put its own interests ahead of the client’s interests; and · whether the existence of a funding agreement must or should be disclosed to the decision maker. The second edition also includes discussion of recent institutional developments as they relate to third-party funding, including the work of the ICCA-Queen Mary Task Force on Third-Party Funding and how third-party funding is being incorporated into arbitral rules and investment treaties. Aply providing a thorough understanding of what third-party funding entails and what legal parameters exist, this book will be of compelling interest to parties aiming to take advantage of the high values, speed, reduced evidentiary costs, outcome predictability, industry expertise, and high award enforceability characteristic of the third-party funding arrangements available in international arbitration.

A Cabinetmaker's Notebook James Krenov, 2000 Cabinetmaking at the highest level is an art, a discipline, a philosophy--even a way of life--in addition to being a useful craft. In this book one of the greatest living cabinetmakers reflects on the deeper meanings of his craft and explains for less accomplished workers how the right attitudes toward materials, tools, and time can increase the joys of this complex activity. Craftspeople in every medium will be inspired by this account of getting started and developing habits that lessen the difficulties of a complex craft.

Estate Planning for Forest Landowners William C. Siegel, 2009 The purpose of this book is to provide guidelines and assistance to nonindustrial private forest owners and the legal, tax, financial, insurance, and forestry professionals who serve them on the

application of estate planning techniques to forest properties. The book presents a working knowledge of the Federal estate and gift tax law as of September 30, 2008, with particular focus on the unique characteristics of owning timber and forest land. It consists of four major parts, plus appendices. Part I develops the practical and legal foundation for estate planning. Part II explains and illustrates the use of general estate planning tools. Part III explains and illustrates the use of additional tools that are specific to forest ownership. Part IV describes the forms of forest land ownership, as well as the basic features of State transfer taxes and the benefits of forest estate planning. The appendices include a glossary and the Federal forms for filing estate and gift taxes.

Japanese Woodworking Tools Toshio Ōdate, 1998 This text shows how to use Japanese tools effectively and maintain them properly, and explains the role they play in traditional Japanese craftsmanship. It describes how to create razor-sharp cutting edges and introduces almost 50 different planes.

Traffic Control Systems Handbook, 1976 This handbook, which was developed in recognition of the need for the compilation and dissemination of information on advanced traffic control systems, presents the basic principles for the planning, design, and implementation of such systems for urban streets and freeways. The presentation concept and organization of this handbook is developed from the viewpoint of systems engineering. Traffic control studies are described, and traffic control and surveillance concepts are reviewed. Hardware components are outlined, and computer concepts, and communication concepts are stated. Local and central controllers are described, as well as display, television and driver information systems. Available systems technology and candidate system definition, evaluation and implementation are also covered. The management of traffic control systems is discussed.

Bendigo Shafter (Louis L'Amour's Lost Treasures) Louis L'Amour, 2017-08-29 At what point does a group of strangers become a community? When young Bendigo Shafter and a ragtag bunch of travelers settle in the rugged Wyoming mountains, they quickly come to depend on a toughness and wisdom many of them never knew they possessed. Led by the beautiful and resourceful widow Ruth Macken, the settlers battle harsh winters, renegade opportunists, and the destructive lure of gold. Through these brutally demanding experiences, young Bendigo is forged into a man. But when he travels to New York to reclaim the love of Ninon, his childhood sweetheart, Bendigo is faced with new challenges. Will hard-edged instincts, honed from years in the mountains, serve him in the big city? Does Ninon's heart belong to the lights and glamour of the theater? And if his destiny deems it so, will he be willing to leave the community he toiled so long and hard to build? Louis L'Amour's Lost Treasures is a project created to release some of the author's more unconventional manuscripts from the family archives. In Louis L'Amour's Lost Treasures: Volumes 1, Beau L'Amour takes the reader on a guided tour through many of the finished and unfinished short stories, novels, and treatments that his father was never able to publish during his lifetime. L'Amour's never-before-seen first novel, No Traveller Returns, faithfully completed for this program, is a voyage into danger and violence on the high seas. These exciting publications will be followed by Louis L'Amour's Lost Treasures: Volume 2. Additionally, many beloved classics will be rereleased with an exclusive Lost Treasures postscript featuring previously unpublished material, including outlines, plot notes, and alternate drafts. These postscripts tell the story behind the stories that millions of readers have come to know and cherish.

Treasure Mountain Louis L'Amour, 2003-09-30 In Treasure Mountain, Louis L'Amour delivers a robust story of two brothers searching to learn the fate of their missing father—and finding themselves in a struggle just to stay alive. Orrin and Tell Sackett had come to exotic New Orleans looking for answers to their father's disappearance twenty years before. To uncover the truth, the brothers enlisted the aid of a trailwise Gypsy and a

mysterious voodoo priest as they sought to re-create their father's last trek. But Louisiana is a dangerous land, and with one misstep the brothers could disappear in the bayous before they even set foot on the trail—a trail that led to whatever legacy their father had left behind . . . and a secret worth killing for.

Housing Markets and the Economy Karl E. Case, 2009 Based on the work of Karl Chip Case, who is renowned for his scientific contributions to the economics of housing and public policy, this is a must read during a time of restructuring our nation's system of housing finance.

Legal Aspects of the European System of Central Banks Liber

Amicorum, European Central Bank, 2005 The book contains a collection of articles on the European Union and the European System of Central Banks (ESCB), the Eurosystem, monetary law, central bank independence and central bank statutes as well as on financial law. The authors are current or former members of the Legal Committee of the ESCB (LEGCO). This book commemorates ten years of work by the Working Group of Legal Experts of the European Monetary Institute and by the LEGCO. It is dedicated to Mr Paolo Zamboni Garavelli, former Head of the Legal Department at the Banca d'Italia and member of LEGCO, who died in 2004.--Editor.

Their Footprints Remain Alex McKay, 2007 By the end of the 19th century, British imperial medical officers and Christian medical missionaries had introduced Western medicine to Tibet, Sikkim, and Bhutan. *Their Footprints Remain* uses archival sources, personal letters, diaries, and oral sources in order to tell the fascinating story of how this once-new medical system became imbedded in the Himalayas. Of interest to anyone with an interest in medical history and anthropology, as well as the Himalayan world, this volume not only identifies the individuals involved and describes how they helped to spread this form of imperialist medicine, but also discusses its reception by a local people whose own medical practices were based on an entirely different understanding of the world.

Finite Fields with Applications to Coding Theory, Cryptography and Related Areas

Gary L. Mullen, Henning Stichtenoth, Horacio Tapia-Recillas, 2012-12-06 The Sixth International Conference on Finite Fields and Applications, Fq6, held in the city of Oaxaca, Mexico, from May 21-25, 2001, continued a series of biennial international conferences on finite fields. This volume documents the steadily increasing interest in this topic. Finite fields are an important tool in discrete mathematics and its applications cover algebraic geometry, coding theory, cryptology, design theory, finite geometries, and scientific computation, among others. An important feature is the interplay between theory and applications which has led to many new perspectives in research on finite fields and other areas. This interplay has been emphasized in this series of conferences and certainly was reflected in Fq6. This volume offers up-to-date original research papers by leading experts in the area.
