A Frequency Dictionary of Portuguese Mark Davies, Ana Maria Raposo Preto-Bay, 2007-11-29 An invaluable tool for learners of Portuguese, this Frequency Dictionary provides a list of the 5000 most commonly used words in the language. Users can access the top 5000 words either through the main frequency listing or through an alphabetical index. Throughout the frequency listing there are also thrity thematically-organized 'boxed' lists of the top words from a variety of key topics such as sports, weather, clothing and relations. An engaging and highly useful resource, A Frequency Dictionary of Portuguese will enable students of all levels to get the most out of their study of Portuguese vocabulary. Former CD content is now available to access at www.routledge.com/9780415419970 as support material. Analytics in Smart Tourism Design Zheng Xiang, Daniel R. Fesenmaier, 2016-10-12 This book presents cutting edge research on the development of analytics in travel and tourism. It introduces new conceptual frameworks and measurement tools, as well as applications and case studies for destination marketing and management. It is divided into five parts: Part one on travel demand analytics focuses on conceptualizing and implementing travel demand modeling using big data. It illustrates new ways to identify, generate and utilize large quantities of data in tourism demand forecasting and modeling. Part two focuses on analytics in travel and everyday life, presenting recent developments in wearable computers and physiological measurement devices, and the implications for our understanding of on-the-go travelers and tourism design. Part three embraces tourism geoanalytics, correlating social media and geo-based data with tourism statistics. Part four discusses web-based and social media analytics and presents the latest developments in utilizing user-generated content on the Internet to understand a number of managerial problems. The final part is a collection of case studies using web-based and social media analytics, with examples from the Sochi Olympics on Twitter, leveraging online reviews in the hotel industry, and evaluating destination communications and market intelligence with online hotel reviews. The chapters in this section collectively describe a range of different approaches to understanding market dynamics in tourism and hospitality.

Team Teaching and Team Learning in the Language Classroom Akira Tajino, Tim Stewart, David Dalsky, 2015-12-14 This book reignites discussion on the importance of collaboration and innovation in language education. The pivotal difference highlighted in this volume is the concept of team learning through collaborative relationships such as team teaching. It explores ways in which team learning happens in ELT environments and what emerges from these explorations is a more robust concept of team learning in language education. Coupled with this deeper understanding, the value of participant research is emphasised by defining the notion of 'team' to include all participants in the educational experience. Authors in this volume position practice ahead of theory as they struggle to make sense of the complex phenomena of language teaching and learning. The focus of this book is on the nexus between ELT theory and practice as viewed through the lens of collaboration. The volume aims to add to the current knowledge base in order to bridge the theory-practice gap regarding collaboration for innovation in language classrooms.

Critical ELT Practices in Asia Kiwan Sung, Rod Pederson, 2012-09-13 This is the first, and long awaited work on critical approaches to teaching English for the purposes of democracy and social justice that challenges the current views of ELT, such as English being merely a tool for communication or the acquisition of basic skills or high test scores for advancement in education and the marketplace. - A timely work and a fresh look at critical approaches to ELT in Asia. - An invaluable work that simultaneously problematizes current ELT practices while introducing new possibilities for critical practices in localized contexts in Asia. - An important work that shines a light on how the forces of globalization not only dictate the spread of English as an international language, but how these forces also dictate what is taught and how. - An informative view on how ELT practices are being re-envisioned by critical educators in Asia. This groundbreaking volume, compiling critical perspectives of English language teaching in China, Hong Kong, Indonesia, Korea, and Sri Lanka, confronts colonial legacies observed in educational practices and policies that perpetuate a divide between the privileged and the underprivileged. ?The critical reflections scrutinize the nature of English as a commodified gatekeeper and simultaneously provide alternative visions for language education. - Ryuko Kubota, Professor, The university of British Columbia.

The Future of Same-day Delivery Sunil Chopra, 2017 In 2012 several retailers, including Amazon and Walmart, experimented with same-day delivery. Home delivery of pizzas had been a very successful model in the United States and had been copied all over the world. In contrast, home delivery attempts by companies like Kozmo and Urbanfetch had failed and both companies went bankrupt. The goal of this case is to build a framework that helps students identify the factors that influence the success or failure of home delivery models. After analyzing and discussing the case, students should be able to: - Build a basic framework identifying supply chain drivers that are influenced by a firm's decision to offer same-day home delivery - Understand the tradeoffs that influence the success of a same-day home delivery model - Identify qualitative factors to be considered when deciding between non-U.S. facility locations, including transportation time variability, consumer perceptions, and cultural differences.
