Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Ladies' Book of Etiquette, and Manual of Politéness Florence Hartley, 1860 Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and

sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.

Symbols and Themes in Sacred Texts Barnabas Tiburtius, 2020-03-10 In this information age, the need for explicit meaning in scriptures and rituals is a vital ingredient that is lacking. The literal interpretations and obligatory rituals have left a void in the individual's spiritual journey and hence, the increasing disappointment in organized religions. There are 50 articles in this book whose contents aim to provide a deeper spiritual meaning that is conveyed through certain specific symbols and themes such as Agni or Fire, Cave, Cloud, twice-born, Four beasts, Dragon, Trilogy, Hero, Charioteer, Hostile brothers, Inner demon, East, Nakedness, Reincarnation, Redemption, Deluge, Sword, and Twins. These common symbols and themes, across many mythologies and the spiritual significance they convey, are brought out so that the higher nature of man and the spiritual path one has to traverse can be indicated. The very fact that man seeks a higher and more meaningful knowledge denotes that he is on a path to exploring his true nature or awake to his true self. These symbols and themes cut across all dominant spiritual traditions such as Vedic, Buddhist, Hebraic, Christian, and Islamic religions. Symbols and Themes in Sacred Texts contain the key to unlock the spiritual treasure hidden from humanity through literal and archaic cultural interpretations.

AU-18 Space Primer Air Command Staff College, 2012-08-01 The US National Space Policy released by the president in 2006 states that the US government should develop space professionals. As an integral part of that endeavor, AU-18, *Space Primer*, provides to the joint war fighter an unclassified resource for understanding the capabilities, organizations, and operations of space forces. This primer is a useful tool both for individuals who are not space aware-unacquainted with space capabilities, organizations, and operations-and for those who are space aware, especially individuals associated with the space community, but not familiar with space capabilities, organizations, and operations outside their particular areas of expertise. It is your guide and your invitation to all the excitement and opportunity of space. Last published in 1993, this updated version of the *Space Primer* has been made possible by combined efforts of the Air Command and Staff College's academic year 2008 Jointspacemindedness and Operational Space research seminars, as well as select members of the academic year 2009 Advanced Space research seminar. Linking Literacy and Libraries in Global Communities Marlene Asselin, Ray Doiron, 2016-05-06 Libraries in today's global world have emerged as key players in building a culture for reading in communities while enhancing the literacy development of children, youth, adults and seniors. Whether one lives in a modern city with sophisticated library services or in a remote region of the world where access to books and literacy services may be limited, librarians and libraries are contributing to the development of learning communities. This book captures some of the essence of this work in libraries in order to inspire and support all those who value the role of libraries in building global communities. The authors highlight the emerging role of libraries and community partners in literacy development and provide

concrete examples via case studies drawn from global communities, demonstrating how libraries are working to support local literacies. They also suggest recommendations for supporting the critical role for libraries in supporting global literacies. The book will become essential reading for all those interested in literacy and libraries throughout the world.

The Jewish Community of Golders Green Pam Fox, 2016-10-03 The first Jews settled in Golders Green just before the First World War, and by 1930 the suburb had been recognised for its significant Jewish community. By 1960 the Jewish population of Golders Green had tripled. A century after the arrival of the first Jewish families, the community remains very diverse and is growing rapidly. Golders Green is now the most Jewishly populous neighbourhood in the country. Despite its prominence and its vibrancy, the Jewish Community of Golders Green have not been the subject of a detailed historical study. This book addresses this oversight and – based to a significant extent on the memories and knowledge of the community – fills an important gap in Anglo-Jewish history.

Slowdown Danny Dorling, 2020-03-31 The end of our high-growth world was underway well before COVID-19 arrived. In this powerful and timely argument, Danny Dorling demonstrates the benefits of a larger, ongoing societal slowdown. Drawing from an incredibly rich trove of global data, this groundbreaking book reveals that human progress has been slowing down since the early 1970s. Danny Dorling uses compelling visualizations to illustrate how fertility rates, growth in GDP per person, and even the frequency of new social movements have all steadily declined over the last few generations. Perhaps most surprising of all is the fact that even as new technologies frequently reshape our everyday lives and are widely believed to be propelling our civilization into new and uncharted waters, the rate of technological progress is also rapidly dropping. Rather than lament this turn

of events, Dorling embraces it as a moment of promise and a move toward stability, and he notes that many of the older great strides in progress that have defined recent history also brought with them widespread warfare, divided societies, and massive inequality.

Windows into Zimbabwe Franziska Kramer, Kramer Jurgen, 2019-12-18 Over the past fifteen years, Weaver Press has published seven anthologies of some one hundred short stories giving voice to new and established Zimbabwean writers. In *Windows into Zimbabwe* Franziska Kramer and Jrgen Kramer have selected from these anthologies twenty-three stories, which they consider the best or most representative of a particular period in the Zimbabwean narrative since 1980. They present the stories within sections which frame certain themes such as Independence, Gukurahundi, Land, Gender Relations, Money Matters, Social Relations, Exile and Resilience. For the general reader, *Windows into Zimbabwe* contains some wonderful stories rich in insight, perception, nuance and humour. Writers such as Charles Mungoshi, Petina Gappah, NoViolet Bulawayo, Valerie Tagwira and Shimmer Chinodya are included as well as relative newcomers with new perceptions and fresh voices. The compilers have also provided an introductory overview casting light on the relationship between fiction and society; and for teachers (in schools, colleges and universities) each story is accompanied by explanatory notes, questions and study tasks to further the readers understanding. *Windows into Zimbabwe* will positively deepen your appreciation of the country and its people.
