The Stigma of Addiction Jonathan D. Avery, Joseph J. Avery, 2019-01-09 This book explores the stigma of addiction and discusses ways to improve negative attitudes for better health outcomes. Written by experts in the field of addiction, the text takes a reader-friendly approach to the essentials of addiction stigma across settings and demographics. The authors reveal the challenges patients face in the spaces that should be the safest, including the home, the workplace, the justice system, and even the clinical community. The text aims to deliver tools to professionals who work with individuals with substance use disorders and lay persons seeking to combat stigma and promote recovery. The Stigma of Addiction is an excellent resource for psychiatrists, addiction medicine specialists, students across specialties, researchers, public health officials, and individuals with substance use disorders and their families.

The Fourth Industrial Revolution Klaus Schwab, 2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Advances in Computer Science and Ubiquitous Computing Doo-Soon Park, Han-Chieh Chao, Young-Sik Jeong, James J. (Jong Hyuk) Park, 2015-12-17 This book presents the combined proceedings of the 7th International Conference on Computer Science and its Applications (CSA-15) and the International Conference on Ubiquitous Information Technologies and Applications (CUTE 2015), both held in Cebu, Philippines, December 15 - 17, 2015. The aim of these two meetings was to promote discussion and interaction among academics, researchers and professionals in the field of computer science covering topics including mobile computing, security and trust management, multimedia systems and devices, networks and communications, databases and data mining, and ubiquitous computing technologies such as ubiquitous communication and networking, ubiquitous software technology, ubiquitous systems and applications, security and privacy. These proceedings reflect the state-of-the-art in the development of computational methods, numerical simulations, error and uncertainty analysis and novel applications of new processing techniques in engineering, science, and other disciplines related to computer science.

Evaluation Utilization John A. McLaughlin, Larry J. Weber, Robert W. Covert, Robert B. Ingle, 1988-10-11 This volume of New Directions for Program Evaluation serves as a vehicle to report the observations and practices of evaluators from a number of perspectives regarding the utilization of evaluations. Topical interest groups from the American Evaluation Association are represented in these chapters as well as authors engaged in research on evaluation. The sourcebook represents a review of factors that promote or inhibit utilization and a compendium of new directions in examining utilization. It provides a forum for the continued examination of the issues and practices associated with the utilization of program evaluations including a review of old concepts as well as new and emergent ideas about utilization. This is the 39th issue of New Directions for Program Evaluation. For more information on the series, please see the Journals and Periodicals page.

Noise Control Emory E. Knowles, 2003

The Medical Review Officer's Manual Robert B Swotinsky, 2021 The Medical Review Officer's Manual: MROCC's Guide to Drug Testing, Sixth Edition is a comprehensive, well-organized resource for Medical Review Officers (MROs), MRO Assistants, and everyone responsible for providing workplace drug and alcohol testing services. Written by Robert B. Swotinsky, MD, MPH, a Medical Review Officer with 30 years of experience, this clearly organized and indexed manual sets the standard of performance for MROs. It also remains the best possible resource of preparation for MROCC's MRO Certification Examination. This newly revised reference has been updated to address regulatory changes during the past five years, including: Additional prescription opioids (added to the federal panel in 2017) Oral fluid testing guidelines (2020) The Federal Motor Carrier Safety Administration Clearinghouse (2020) The updated federal Custody and Control Form (2020) An expanded discussion of testing of non-urine specimens Guidelines for drug test interpretation have been updated to reflect evolving standards of practice. These include the means of verifying medical explanations, the interpretation of marijuana-positives with respect to state-legalized marijuana use, and the use of cannabidiol (CBD). Scientific discussions have been updated to include recent citations for some of the less well-known parts of the federal regulations so readers can more easily locate the source material. Available as a package in both print and electronic formats, the eBook version will be updated periodically to keep you abreast of future changes in regulations and recommendations. The MRO Manual can also be used as a companion to The Medical Review Officer Team Manual: MROCC's Guide for MROs and MRO Team Members, Second Edition by James Ferguson, DO, FASAM published by OEM Press--

Strengths of the Social Safety Net in the Great Recession Christopher J. O'Leary, David Stevens, Stephen A. Wandner, Michael Wiseman, 2019-08-22 The contributors in

this book use administrative data from six states from before, during, and after the Great Recession to gauge the degree to which Supplemental Nutrition Assistance (SNAP) and Unemployment Insurance (UI) interacted. They also recommend ways that the program policies could be altered to better serve those suffering hardship as a result of future economic downturns.

Developing a Digital National Library for Undergraduate Science, Mathematics, Engineering and Technology Education National Research Council,Division of Behavioral and Social Sciences and Education,Board on Science Education,Steering Committee for Developing a Digital National Library for Undergraduate Science, Mathematics, Engineering, and Technology Education,1998-01-29 In 1996, the National Science Foundation (NSF) released a report about ways to improve undergraduate science, mathematics, engineering, and technology (SME&T) education. One recommendation called for establishing a digital library, similar to those that are being constructed for many research communities, that would make available electronically a wide variety of materials for improving teaching and learning of SME&T. The NSF asked the National Research Council to examine the feasibility of and issues associated with establishing such a digital national library. In response, an NRC steering committee commissioned a series of papers and convened a workshop to consider these issues. This resulting book delineates the issues that should be considered and provides recommendations to resolve them prior to committing funds.

Storms of My Grandchildren James Hansen,2011-01-04 _____ 'When the history of the climate crisis is written, Hansen will be seen as the scientist with the most powerful and consistent voice calling for intelligent action to preserve our planet's environment' - Al Gore 'Few people know more about climate change than James Hansen ... This unnerving and fluently written book is the definitive one to read' - BBC Wildlife 'Anyone concerned about the world our children and grandchildren must inherit owes it to themselves to read this book' - Irish Times _____ An urgent and provocative call to action from the world's leading climate scientist Dr James Hansen, the world's leading scientist on climate issues, speaks out with the full truth about global warming: the planet is hurtling to a climatic point of no return. Hansen - whose climate predictions have come to pass again and again, beginning in the 1980s when he first warned US Congress about global warming - is the single most credible voice on the subject worldwide. He paints a devastating but all-too-realistic picture of what will happen if we continue to follow the course we're on. But he is also a hard-headed optimist, and shows that there is still time to take the urgent, strong action needed to save humanity. _____ 'James Hansen gives us the opportunity to watch a scientist who is sick of silence and compromise; a scientist at the breaking point - the point at which he is willing to sacrifice his credibility to make a stand to avert disaster' - LA Times

International Financial Statement Analysis Thomas R. Robinson,Elaine Henry,Wendy L. Pirie,Michael A. Broihahn,2012-04-04 Up-to-date information on using financial statement analysis to successfully assess company performance, from the seasoned experts at the CFA Institute Designed to help investment professionals and students effectively evaluate financial statements in today's international and volatile markets, amid an uncertain global economic climate, International Financial Statement Analysis, Second Edition compiles unparalleled wisdom from the CFA in one comprehensive volume. Written by a distinguished team of authors and experienced contributors, the book provides complete coverage of the key financial field of statement analysis. Fully updated with new standards and methods for a post crisis world, this Second Edition covers the mechanics of the accounting process; the foundation for financial reporting; the differences and similarities in income statements, balance sheets, and cash flow statements around the world; examines the implications for securities valuation of any financial statement element or transaction, and shows how different financial statement analysis techniques can provide valuable clues into a company's operations and risk characteristics. Financial statement analysis allows for realistic valuations of investment, lending, or merger and acquisition opportunities Essential reading for financial analysts, investment analysts, portfolio managers, asset allocators, graduate students, and others interested in this important field of finance Includes key coverage of income tax accounting and reporting, the difficulty of measuring the value of employee compensation, and the impact of foreign exchange rates on the financial statements of multinational corporations Financial statement analysis gives investment professionals important insights into the true financial condition of a company, and International Financial Statement Analysis, Second Edition puts the full knowledge of the CFA at your fingertips.

Interstate Horseracing Act United States. Congress. House. Committee on Interstate and Foreign Commerce. Subcommittee on Transportation and Commerce,1978
