Russia, the West, and Military Intervention Roy

Allison, 2013-05-09 A detailed and carefully structured study of Soviet/Russian attitudes and responses to military interventions. It explores cases from the Gulf War in 1990 to the intervention led by Western states in Libya in 2011.

The Shining Path Gustavo Gorriti, 2000-11-09 First

published in Peru in 1990, *The Shining Path* was immediately hailed as one of the finest works on the insurgency that plagued that nation for over fifteen years. A richly detailed and absorbing account, it covers the dramatic years between the guerrillas' opening attack in 1980 and President Fernando Belaunde's reluctant decision to send in the military to contain the growing rebellion in late 1982. Covering the strategy, actions, successes, and setbacks of both the government and the rebels, the book shows how the tightly organized insurgency forced itself upon an unwilling society just after the transition from an authoritarian to a democratic regime. One of Peru's most distinguished journalists, Gustavo Gorriti first covered the Shining Path movement for the leading Peruvian newsweekly, *Caretas*. Drawing on hundreds of interviews and an impressive array of government and Shining Path documents, he weaves his careful research into a vivid portrait of the now-jailed Shining Path leader Abimael Guzman, Belaunde and his generals, and the unfolding drama of the fiercest war fought on Peruvian soil since the Chilean invasion a century before.

Ancient Aliens on Mars Mike Bara, 2013-10-02 New York

Times best-selling author and Secret Space Program researcher Mike Bara brings us this lavishly illustrated volume on alien structures on Mars. Was there once a vast, technologically

advanced civilization on Mars, and did it leave evidence of its existence behind for humans to find eons later? Did these advanced extraterrestrials vanish in a solar system-wide cataclysm of their own making, only to make their way to Earth and start anew? Was Mars once as lush and green as the Earth, and teeming with life? Did Mars once orbit a missing member of the solar system, a “Super Earth” that vanished in a disaster that devastated life on Earth and Venus and left us only the asteroid belt as evidence of its once grand existence? Did the survivors of this catastrophe leave monuments and temples behind, arranged in a mathematical precision designed to teach us the Secret of a new physics that could lift us back to the stars? Does the planet have an automated defense shield that swallows up robotic probes if they wander into the wrong areas? And are the lights still on down there, deep below the sands of Mars, just waiting for us to uncover them? Mike Bara examines all these questions and more in this astounding book, full of fascinating information on the following topics: Mars as the Abode of Life What Happened to Mars? The True Colors of Mars The Message of Cydonia The Politics of Mars The Pathfinder Sphinx Mars Global Surveyor Discoveries Face it, It’s a Face Tons More!

What You Need to Know about the Economics of Growing Old (but Were Afraid to Ask) Teresa Ghilarducci,2004 With the aid of her Economics of Aging class, Teresa Ghilarducci has compiled this comprehensive sourcebook as a guide through the maze of Social Security and the economics of growing old in America. *What You Need to Know About the Economics of Growing Old (But Were Afraid to Ask)* is divided into five sections. The first section addresses the status of the elderly and explores such issues as the average life expectancy and the number of elderly living in poverty. The second deals with the structure of the Social Security system and its disbursement of benefits. The third traces the economic path to old age. The fourth considers

changing social norms, including the increase in the number of women in the workforce. The final section looks at what happens when the elderly work for pay. This book will be valuable from the classroom to the halls of Congress. Simply put, it contains information everyone should know.

The Politically Incorrect Guide to Darwinism and Intelligent Design Jonathan Wells, 2006-08-21 Darwin is an emperor who has no clothes— but it takes a brave man to say so. Jonathan Wells, a microbiologist with two Ph.D.s (from Berkeley and Yale), is that brave man. Most textbooks on evolution are written by Darwinists with an ideological ax to grind. Brave dissidents—qualified scientists—who try to teach or write about intelligent design are silenced and sent to the academic gulag. But fear not: Jonathan Wells is a liberator. He unmaskes the truth about Darwinism— why it is wrong and what the real evidence is. He also supplies a revealing list of Books You're Not Supposed to Read (as far as the Darwinists are concerned) and puts at your fingertips all the evidence you need to challenge the most closed-minded Darwinist.

Women's Lived Experiences of the Gender Gap Angela Fitzgerald, 2021-06-20 This book explores gender inequity and the gender gap from a range of perspectives including historical, motherhood, professional life and diversity. Using a narrative approach, the book shares diverse experiences and perspectives of the gender gap and the pervasive impact it has. Through authors' in-depth insights and critical analysis, each chapter addresses the gender gap by providing a nuanced understanding of the impact of the particular lens. It shares a holistic understanding of lived experiences of gender inequity. The book offers interdisciplinary insights into current political, social, economic and cultural impacts on women and their lived experiences of inequity. It provides multiple voices from across the world and draws on narrative approaches to sharing evidence-based insights. It includes further insights and critique

of each chapter to widen the perspectives shared as the gender gap is explored and provide rigorous discussion about what possibilities and challenges are inherent in the proposed solutions as well as offering new ones. Chapter 10 and chapter 11 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Doctors of Deception Linda Andre, 2009-02-04 Mechanisms and standards exist to safeguard the health and welfare of the patient, but for electroconvulsive therapy (ECT)—used to treat depression and other mental illnesses—such approval methods have failed. Prescribed to thousands over the years, public relations as opposed to medical trials have paved the way for this popular yet dangerous and controversial treatment option. *Doctors of Deception* is a revealing history of ECT (or shock therapy) in the United States, told here for the first time. Through the examination of court records, medical data, FDA reports, industry claims, her own experience as a patient of shock therapy, and the stories of others, Andre exposes tactics used by the industry to promote ECT as a responsible treatment when all the scientific evidence suggested otherwise. As early as the 1940s, scientific literature began reporting incidences of human and animal brain damage resulting from ECT. Despite practitioner modifications, deleterious effects on memory and cognition persisted. Rather than discontinue use of ECT, the \$5-billion-per-year shock industry crafted a public relations campaign to improve ECT's image. During the 1970s and 1980s, psychiatry's PR efforts misled the government, the public, and the media into believing that ECT had made a comeback and was safe. Andre carefully intertwines stories of ECT survivors and activists with legal, ethical, and scientific arguments to address issues of patient rights and psychiatric treatment. Echoing current debates about the use of psychopharmaceutical interventions shown to have debilitating side-effects, she candidly presents ECT as a problematic therapy demanding greater scrutiny, tighter control,

and full disclosure about its long-term cognitive effects.

More Human Steve Hilton, Scott Bade, Jason

Bade, 2016-04-26 People feel angry and let down by their leaders, as well as by the institutions that dominate their lives: political parties, government bureaucracy, and corporations. Yet the cause of this malaise, according to political -- advisor -- turned -- tech -- CEO Steve Hilton, is not being addressed by politicians on the left or the right. Hilton argues that much of our daily experience -- from the food we eat, to the governments we elect, to the economy on which our wealth depends, to the way we care for our health and well -- being -- has become too big, too bureaucratic, and too distant from the human scale. More Human sets out a radical manifesto for change, aimed at the root causes of our problems rather than just the symptoms. Whether it's using the latest advances in neuroscience to inform the fight against poverty and inequality, or applying lessons from America's most radical schools to transform our children's education, this book is an agenda for rethinking and redesigning the outdated systems and structures of our politics, government, economy, and society to make them more suited to the way we want to live our lives today. To make them more human.

Wightman,2018-02-08 An edited collection of papers published by YoungMinds and funded by Health Education England. With 1 in 3 adult mental health conditions related directly to adverse childhood experiences, it is vital that we understand the impact that adversity and trauma can have on the mental health and wellbeing of young people, and how we can strengthen resilience and support recovery. Addressing Adversity presents evidence, insight, direction and case studies for commissioners, providers and practitioners in order to stimulate further growth in adversity and trauma-informed care, and spark innovation and good practice across England. Section 1: Understanding adversity, trauma and resilience includes evidence and analysis of the impact that adverse childhood experiences and trauma have on children and young people's mental health and wider outcomes across the lifecourse. Section 2: Addressing childhood adversity and trauma includes insights from the NHS in England, organisations and clinicians working with children and young people who have experienced forms of adversity and trauma. Section 3: Emerging good practice includes insight, case studies and working examples of adversity and trauma-informed service models being developed across England. The collection ends with an agenda for change, calling on all Directors of Public Health, commissioners and providers to make adversity and trauma-informed care a priority in their locality.

Constitutional Politics in Central and Eastern Europe Anna Fruhstorfer,Michael Hein,2016-10-12 The contributions to this edited volume discuss constitutional politics in 20 Central and Eastern European countries. The country chapters describe all constitutional amendments and new constitutions after the first post-communist constitution-making, all failed amendment attempts, and the political discourses about constitutional politics. Framed by a broad comparative chapter, the country studies are embedded in the established literature on constitutional politics. The book thus provides a better

understanding of constitutional politics in the region and beyond.

From Slavery to Freedom: Narrative Of The Life, Incidents in the Life of a Slave Girl, Up From Slavery, The Souls of Black Folk. Illustrated Frederick Douglass, Harriet Ann Jacobs, Booker Taliaferro Washington, W. E. B. Du Bois, 2021-01-08 African American history is the part of American history that looks at the past of African Americans or Black Americans. Of the 10.7 million Africans who were brought to the Americas until the 1860s, 450 thousand were shipped to what is now the United States. Most African Americans are descended from Africans who were brought directly from Africa to America and became slaves. The future slaves were originally captured in African wars or raids and transported in the Atlantic slave trade. Our collection includes the following works: Narrative Of The Life by Frederick Douglass. The impassioned abolitionist and eloquent orator provides graphic descriptions of his childhood and horrifying experiences as a slave as well as a harrowing record of his dramatic escape to the North and eventual freedom. Incidents In The Life Of A Slave Girl by Harriet Jacobs. Powerful by portrayal of the brutality of slave life through the inspiring tale of one woman's dauntless spirit and faith. Up From Slavery by Booker T. Washington. Washington rose to become the most influential spokesman for African Americans of his day. He describes events in a remarkable life that began in slavery and culminated in worldwide recognition. The Souls of Black Folk by W. E. B. Du Bois. W. E. B. Du Bois was an American sociologist, socialist, historian, civil rights activist, Pan-Africanist, author, writer and editor. Contents: 1. Frederick Douglass: Narrative Of The Life 2. Harriet Ann Jacobs: Incidents in the Life of a Slave Girl 3. Booker Taliaferro Washington: Up From Slavery 4. W. E. B. Du Bois: The Souls of Black Folk

Wait No More Benjamin Roseth, Angela Reyes, Pedro Farias, Miguel Porrúa, Harold Villalba, Sebastián Acevedo, Norma

Peña,Elsa Estevez,Sebastián Linares Lejarraaga,Pablo Fillotrani,2018-06-06 This book is about the smallest unit of public policy: the government transaction. Government transactions—requesting a birth certificate, registering a property, or opening a business, for example—are the way that citizens and companies connect with the government. Efficient transactions enhance the business climate, citizen perception of government, and access to crucial public programs and services. In Latin America and the Caribbean, however, government transactions are often headaches. Public institutions rarely coordinate with each other, still rely on paper, and are more concerned about fulfilling bureaucratic requirements than meeting citizens' needs. Wait No More empirically confirms a reality known anecdotally but previously unquantified and offers a path to escape the bureaucratic maze.
