The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics and comparative politics.

**Routledge Handbook of Environment and Society in Asia** Paul G. Harris,Graeme Lang,2014-09-19 Nowhere is the connection between society and the environment more evident and potentially more harmful for the future of the world than in Asia. In recent decades, rapid development of Asian countries with very large populations has led to an unprecedented increase in environmental problems such as air and water pollution, solid and hazardous wastes, deforestation, depletion of natural resources and extinction of native species. This handbook provides a comprehensive survey of the cultural, social and policy contexts of environmental change across East Asia. The team of international experts critically examine a wide range of environmental problems related to energy, climate change, air, land, water, fisheries, forests and wildlife. The editors conclude that, with nearly half of the human population of the planet, and several rapidly growing economies, most notably China, Asian societies will determine much of the future of human impacts on the regional and global environments. As climate change-related threats to society increase, the book strongly argues for increased environmental consciousness and action in Asian societies. This handbook is a very valuable companion for students, scholars, policy makers and researchers working on environmental issues in Asia.

**Die Effektivität transnationaler Maßnahmen gegen Menschenhandel in Europa** Christoph Lindner,2014-02-25 English summary: Human trafficking is a multipolar phenomenon in the context of migration and organized crime. Yet above all human trafficking in all its manifestations is a fundamental violation of human rights that is unacceptable for a modern society and its constitutional democracy. The European Union and the Council of Europe have acknowledged this and have in particular intensified legal action against human trafficking. But how successful has Europe been in legislating against human trafficking? What are the factors guaranteeing the effectiveness of the measures, where are the deficits and how can they be overcome? Christoph Lindner investigates these questions using a structured analysis model. German description: Menschenhandel ist ein multipolares Phänomen im Kontext von Migration und organisierter Kriminalität. Doch vor allem ist Menschenhandel in all seinen Erscheinungsformen eine fundamentale Menschenrechtsverletzung, die für eine moderne Gesellschaft und ihren Rechtsstaat nicht hinnehmbar ist. Die Europäische Union und der Europarat haben dies erkannt und insbesondere ihr rechtliches Vorgehen gegen Menschenhandel intensiviert. Aber wie gut ist Europa in seinen Rechtsakten gegen Menschenhandel? Welche Faktoren machen Massnahmen effektiv, wo liegen Defizite und wie lassen sich diese beseitigen? Christoph Lindner geht diesen Fragen mit Hilfe eines strukturierten Analysemodells nach.

**Sociedade de consumo hiperconectada** Henrique Lapa Lunardi,2022-02-10 Os estudos aprofundados sobre a temática mostram que os direitos do consumidor, bem como os direitos constitucionais da autonomia da vontade, da privacidade e da intimidade vêm sendo violados por sistemas autônomos de inteligência artificial, que por meio da manipulação dos dados pessoais e sensíveis cria padrões, que podem sugerir a tomada de decisões ao consumidor. Procura-se, dessa forma, responder à seguinte pergunta: como a inteligência artificial é capaz de vulnerar a autonomia do consumidor em seu poder de escolha, a partir do uso e manipulação de dados pessoais, sob a perspectiva de salvaguarda destes direitos humanos? Em decorrência do objetivo principal, elaboraram-se os seguintes objetivos específicos: a) pesquisar a sociedade de consumo e a vulnerabilidade do consumidor, buscando analisar a evolução dos conceitos no tempo e espaço. b) analisar as novas tecnologias e a inteligência artificial, pesquisando a evolução tecnológica e as suas atuais aplicações. c) validar a vulnerabilidade da autonomia do consumidor frente às relações de consumo envolvendo a inteligência artificial. Conclui-se pela necessidade de salvaguardar os direitos constitucionais e infraconstitucionais do consumidor nessa relação jurídica virtual, demonstrando que o direito à explicação ou à transparência, mesmo que amparados no CDC, necessitam de uma nova abordagem paradigmática diante dos atuais sistemas de inteligência artificial.

**A Lei Geral de Proteção de Dados e o Direito Registral** André Campos Martins,2023-02-13 O objetivo geral da obra é elaborar uma análise crítica dos institutos Lei Geral de Proteção de Dados, Lei no 13.709/2018, e sua aplicabilidade aos notários e registradores. A LGPD trouxe novas regras sobre a coleta e o tratamento de dados pessoais por empresas e por órgãos públicos. Por se tratar de uma lei com indicações genéricas de atuação, é fundamental avaliar o seu impacto nas serventias extrajudiciais, analisando a sua implantação e aplicabilidade. Nesse cenário, tem-se por necessário o exame de seus conceitos, garantias, sanções e da experiência prática já existente. Partindo das premissas conceituais e filosóficas, se analisará, dada a morosidade na aprovação da LGPD, o processo de aprovação da Lei, da sua proposição legislativa até a entrada em vigor e, ainda, a posterior aprovação da Emenda Constitucional no 115. Ademais, será exposta a intrínseca relação entre as normas esparsas e a recente norma específica, a Lei no 13.709/2018, com uma análise da LGPD e dos institutos comparados que tratam sobre o tema-problema, no cenário nacional e internacional. Já mais ao final da obra, serão expostos conceitos e definições sobre o instituto das serventias extrajudiciais, suas particularidades, natureza jurídica e, especialmente, a aplicabilidade da LGPD às serventias notarias, com a análise das especificidades quanto à aplicação de sanções aos notários e registradores, enquanto particulares no exercício de uma função pública, ou seja, enquanto agentes públicos.

**O Consumidor e modulação algorítmica de comportamento** Diego Araújo Coutinho,2021-07-26 Atualmente, a relevância da temática conectividade entre homem e máquina cresce a cada dia, seja pela dependência entre estes, seja pela imposição da Sociedade em Rede. A metamorfose digital é uma realidade que não se desvincula das novas necessidades sociais, em que a Inteligência Artificial utiliza algoritmos como instrumentos para a resolução de problemas no ambiente virtual. A conectividade humaniza máquinas e robotiza seres humanos, tendo como consequência a dependência destes para a resolução de atividades já impostas pelo inédito formato social. Essa realidade virtual alcança todos os setores, inclusive a economia, que precisa de constante crescimento do consumo para se manter equilibrada. No entanto, como meio de impulsionar o comércio eletrônico, sociedades empresárias utilizam a inteligência artificial para a formação de perfis de comportamento, valendo-se da tecnologia algorítmica para coletar rastros digitais deixados pelos usuários em acessos anteriores ao cyberspaço, para que o comportamento do consumidor seja modulado por intermédio de publicidades direcionadas que comprometem fortemente o poder decisório do ente vulnerável. Assim, esta obra procurou compreender a influência da IA no poder decisório do consumidor, estando este imerso na sociedade em rede, partindo do pressuposto que a vulnerabilidade principiológica deste é utilizada, pela classe dominante, para alcançar objetivos econômicos, olvidando-se da condição humana e transformando-o em mercadoria, sob a vinculação do consumo à felicidade. Para tanto, fez-se necessário analisar a atuação da Lei 13.709/2018, LGPD, especificamente no que tange a tutela dos dados comportamentais do consumidor.

**Alternative Investments** CAIA Association,Donald R. Chambers,Hossein B. Kazemi,Keith H. Black,2020-09-14 Whether you are a seasoned professional looking to explore new areas within the alternative investment arena or a new industry participant seeking to establish a solid understanding of alternative investments, Alternative Investments: An Allocator's Approach, Fourth Edition (CAIA Level II curriculum official text) is the best

way to achieve these goals. In recent years, capital formation has shifted dramatically away from public markets as issuers pursue better financial and value alignment with ownership, less onerous and expensive regulatory requirements, market and information dislocation, and liberation from the short-term challenges that undergird the public capital markets. The careful and informed use of alternative investments in a diversified portfolio can reduce risk, lower volatility, and improve returns over the long-term, enhancing investors' ability to meet their investment outcomes. Alternative Investments: An Allocator's Approach (CAIA Level II curriculum official text) is a key resource that can be used to improve the sophistication of asset owners and those who work with them. This text comprises the curriculum, when combined with supplemental materials available at [caia.org](http://caia.org), for the CAIA Level II exam. Over the course of my long career one tenet has held true, 'Continuing Education'. Since CalSTRS is a teachers' pension plan, it is no surprise that continuing education is a core attribute of our Investment Office culture. Overseeing one of the largest institutional pools of capital in the world requires a cohesive knowledge and understanding of both public and private market investments and strategies. We must understand how these opportunities might contribute to delivering on investment outcomes for our beneficiaries. Alternative Investments: An Allocator's Approach is the definitive core instruction manual for an institutional investor, and it puts you in the captain's chair of the asset owner. —Christopher J. Ailman, Chief Investment Officer, California State Teachers' Retirement System Given their diversified cash flow streams and returns, private markets continue to be a growing fixture of patient, long-term portfolios. As such, the need to have proficiency across these sophisticated strategies, asset classes, and instruments is critical for today's capital allocator. As a proud CAIA charterholder, I have seen the practical benefits in building a strong private markets foundation, allowing me to better assist my clients. —Jayne Bok, CAIA, CFA, Head of Investments, Asia, Willis Tower Watson

É fato que ela vem proporcionando uma série de conquistas em diversas áreas do conhecimento, incorporando-se ao cotidiano da sociedade contemporânea como condição para a sua sobrevivência. Em função disso, propomos a presente leitura como uma fonte de inspiração para a compreensão da responsabilidade do homem. Em linhas gerais, visamos equacionar o mundo tecnológico face à responsabilidade que naturalmente nasce com ele, pois contar apenas com os valores de um mundo competitivo é temerário. Esperamos, assim, que ao desbravar a presente coletânea de capítulos, o leitor não só perceba o papel da tecnologia para o aprimoramento do padrão de qualidade de vida da humanidade, mas também se atente para a forma como ela deve ser conduzida: responsável.

*Ethics in Psychology and the Mental Health Professions* Gerald P. Koocher, Patricia Keith-Spiegel, 2016 Revised edition of the authors' Ethics in psychology and the mental health professions, 2008.

Human Rights and Intellectual Property Rights Mpasi Sinjela, 2007-10-15 This collection offers an overview of the issues involved concerning the interface between human rights and intellectual property rights (IPRs). It makes clear that two schools of thought have developed. The first school maintains that human rights and IPRs are in fundamental conflict. Strong protection of IP is incompatible with human rights obligations. Thus, for resolving the conflict between the two, it is suggested that human rights should always prevail over IPRs. Whereas the second school of thought asserts that human rights and IPRs pursue the same aim; that is to define the appropriate scope of private monopoly power to create incentives for authors and inventors, while ensuring that the public has adequate access to the fruits of their efforts. Accordingly, they argue, human rights and IP

are compatible. However, what is needed is to strike a balance between the provision of incentives to innovate and public access to products of that innovation. This collection explores this balance and the extent to which human rights standards can influence the interpretation of IP norms, for example in defining the scope of IPRs. The discussion on the relationship of human rights and IPRs is an ongoing one; this volume makes a valuable contribution to the debate and will further stimulate the interest to explore and address these complex and challenging issues. This is the second volume in The Raoul Wallenberg Institute of Human Rights and Humanitarian Law ‘New Authors’ series, which contains the best theses from the human rights masters programmes in Lund and Venice.
