**Eden's Endemics** Elizabeth Callaway,2020-08-04 In the past thirty years biodiversity has become one of the central organizing principles through which we understand the nonhuman environment. Its deceptively simple definition as the variation among living organisms masks its status as a hotly contested term both within the sciences and more broadly. In *Eden's Endemics*, Elizabeth Callaway looks to cultural objects—novels, memoirs, databases, visualizations, and poetry— that depict many species at once to consider the question of how we narrate organisms in their multiplicity. Touching on topics ranging from seed banks to science fiction to bird-watching, Callaway argues that there is no set, generally accepted way to measure biodiversity. Westerners tend to conceptualize it according to one or more of an array of tropes rooted in colonial history such as the Lost Eden, Noah's Ark, and Tree-of-Life imagery. These conceptualizations affect what kinds of biodiversities are prioritized for protection. While using biodiversity as a way

to talk about the world aims to highlight what is most valued in nature, it can produce narratives that reinforce certain power differentials—with real-life consequences for conservation projects. Thus the choices made when portraying biodiversity impact what is visible, what is visceral, and what is unquestioned common sense about the patterns of life on Earth.

### **Borderlands into Bordered Lands**

Tatiana,2014-04-15 Since 1991, post-Soviet political elites in Ukraine, Russia, and Belarus have been engaged in nation- as well as state-building. They have tried to strengthen territorial sovereignty and national security, re-shape collective identities and re-narrate national histories. Former Soviet republics have become new neighbours, partners, and competitors searching for geopolitical identity in the new Eastern Europe, i.e. the countries left outside the enlarged EU. Old paradigms such as Eurasia or East Slavic civilisation have been re-invented and politically instrumentalized in the international relations and domestic politics of these countries. At the same time, these old concepts and myths have been contested and challenged by pro-Western elites. *Borderlands into Bordered Lands* examines the construction of post-Soviet borders and their political, social, and cultural implications. It focuses on the exemplary case of the

Ukrainian-Russian border, approaching it as a social construct and a discursive phenomenon. Zhurzhenko shows how the symbolic meanings of and narratives on this border contribute to national identity formation and shape the images of the neighbouring countries as the Other thereby shedding new light on the role of border disputes between Ukraine and Russia in bilateral relations, in EU neighbourhood politics and in domestic political conflicts. Zhurzhenko also addresses 'border making' on the regional level, focusing on the cross-border cooperation between Kharkiv and Belgorod and on the dilemmas of a Euroregion 'in absence of Europe': Finally, she reflects the everyday experiences of the residents of near-border villages and shows how national and local identities are performed at, and transformed by, the new border. *Borderlands into Bordered Lands* was honored by the American Association for Ukrainian Studies as best book 2009/2010 in the field of Ukrainian history, politics, language, literature and culture. **Food, Cuisine, and Cultural Competency for Culinary, Hospitality, and Nutrition Professionals** Sari Edelstein, 2011 *Food, Cuisine, and Cultural Competency for Culinary, Hospitality, and Nutrition Professionals* comprehensively covers unique food traditions as they apply to health. The text explores the critical importance of cultural sensitivity and competency in today's work setting, addresses health literacy issues of diverse client bases, and helps readers identify customer communication techniques that enable professionals to establish trust with clients of ethnicity not their own. Written and peer reviewed by experts in the culture discussed, each chapter in this groundbreaking text covers a distinct region or culture and discusses the various contexts that contribute to nutrition

and health: lifestyles, eating patterns, ethnic foods, menu planning, communication (verbal and non-verbal), and more. This book is consistent with The American Dietetic Association's Cultural Competence Strategic Plan.

**Idolising Children** Daniel Donahoo, 2007 Obsessed with our own youth and wanting perfect, genius children who live in a world of designer clothes and toys, it's time for us to find new ways of parenting and a new kind of childhood. With humour, insight and emotion, Daniel Donahoo reflects on the place of children in our society by looking at everything from fertility rates, childcare, the role of the media and the day-to-day joys and challenges of being a parent. Donahoo argues that idolising is a form of worship that adversely affects our children's development in their early years, and creates citizens who no longer understand their roles and responsibilities. It makes parents feel unnecessarily guilty and anxious. Without

blame or finger-pointing, *Idolising Children* examines how we arrived here and looks at what needs to change so that communities as a whole are responsible for raising children. Book jacket.

**The Comic History of England** Gilbert Abbott À Beckett, 1894 A'Beckett and Leech were original contributors to *Punch*, or the London Charivari magazine, established 1841. It became the famous *Punch* magazine and remained in publication to 2002. A'Beckett also wrote editorials for a similar concept magazine, *Figaro* in London that ceased publication in 1839. In commencing this work, the object of the Author was, as he stated in the Prospectus, to blend amusement with instruction, by serving up, in as palatable a shape as he could, the facts of English History. He pledged himself not to sacrifice the substance to the seasoning; and though he has certainly been a little free in the use of his sauce, he hopes that he

has not produced a mere hash on the present occasion. His object has been to furnish something which may be allowed to take its place as a standing at the library table, and which, though light, may not be found devoid of nutriment.-Preface.
