High Availability and Disaster Recovery for Temenos T24 with IBM DB2 and AIX Barrie Mike, Moditha Sanjay De Costa, Gowrimani Gopalakrishnan, Murali Neralla, IBM Redbooks, 2012-10-09 The Temenos T24 core banking application is a critical application for the banks that use it and has a primary focus on providing an appropriate level of high availability and disaster recovery. The level of availability is determined largely by the configuration of the infrastructure that supports T24. This infrastructure is built on hardware, middleware, and networking, in addition to the operational procedures and practices that are used to operate T24. Many options are available for meeting a client's high availability and disaster recovery requirements. The solution chosen by a Temenos T24 user depends on many factors. These factors include a user's detailed availability and recovery requirements; their existing datacenter standards, practices, and processes; and the available network infrastructure. Therefore, the optimum solution must be determined on a case-by-case basis for each deployment. This IBM® Redpaper™ publication serves as a guide to help IT architects and other technical staff who are designing, configuring, and building the infrastructure to support Temenos T24. It shows how IBM software can deliver high availability and disaster recovery for Temenos T24 to meet a client's requirements. This software might run on IBM AIX®, IBM WebSphere® Application Server, WebSphere MQ Server, and IBM DB2®. These IBM software components are typically used for a Temenos T24 deployment on an IBM middleware stack to ensure a highly available infrastructure for T24.

The Sustainability of Agro-Food and Natural Resource Systems in the Mediterranean Basin Antonella Vastola, 2015-04-24 This book is focused on the challenges to implement sustainability in diverse contexts such as agribusiness, natural resource systems and new technologies. The experiences made by the researchers of the School of Agricultural, Forestry, Food and Environmental Science (SAFE) of the University of Basilicata offer a wide and multidisciplinary approach to the identification and testing of different solutions tailored to the economic, social and environmental characteristics of the region and the surrounding areas. Basilicata's productive system is mainly based on activities related to the agricultural sector and exploitation of natural resources but it has seen,

in recent years, an industrial development driven by the discovery of oil fields. SAFE research took up the challenge posed by market competition to create value through the sustainable use of renewable and non-renewable resources of the territory. Moreover, due to its unique geographical position in the middle of the Mediterranean basin, Basilicata is an excellent “open sky” laboratory for testing sustainable solutions adaptable to other Mediterranean areas. This collection of multidisciplinary case studies and research experiences from SAFE researchers and their scientific partners is a stimulating contribution to the debate on the development of sustainable techniques, methods and applications for the Mediterranean regions.

Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary Truth and Reconciliation Commission of Canada, 2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

The Quest for Core Values in the Application of Legal Norms Khalid Ghanayim, Yuval Shany, 2021-10-24 Relations between societal values and legal doctrine are inevitably complex given the time lag between law and social reality, and the sociological space between legal communities involved in the development and application of the law and non-legal communities affected by it. It falls on open-ended concepts, such as proportionality, human rights, dignity, freedom, and truth, and on legal frameworks for balancing competing rights and interests, such as self-defense, command or corporate responsibility, and restrictions on freedom of expression, to negotiate chronic tensions between law and society and to bridge existing gaps. The present volume contains chapters by leading experts – former judges on constitutional courts and international courts, and some of the world's leading criminal law, public law, and international law scholars – offering their points of view and professional analysis of legal notions and doctrines that serve as hubs for the interpretation, application, and contestation of core values, which in turn constitute building blocks of the rule of law. The shared

perspective on the interplay between values and legal rules in public law, criminal law, and international law is likely to render the publication a valuable resource for both theoreticians and practitioners, law students, and seasoned legal experts working in diverse legal fields.

Cities and Agriculture Henk de Zeeuw, Pay Drechsel, 2015-09-16 As people increasingly migrate to urban settings and more than half of the world's population now lives in cities, it is vital to plan and provide for sustainable and resilient food systems which reflect this challenge. This volume presents experience and evidence-based state of the art chapters on the key dimensions of urban food challenges and types of intra- and peri-urban agriculture. First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder.

Honeypots Lance Spitzner, 2003 It's saturday night in Santa Barbara and school is done for the year. Everyone is headed to the same party. Or at least it seems that way. The place is packed. The beer is flowing. Simple, right? But for 11 different people the motives are way more complicated. As each character takes a turn and tells his or her story, the eleven individuals intersect, and reconnect, collide, and combine in ways that none of them ever saw coming.
