*Carcass management guidelines* Miller, L.P., Miknis, R.A. and Flory, G.A.,2020-12-28 Animal disease outbreaks pose many challenges for response authorities that can impact livelihoods, food security, and the environment. Proper disposal of animal carcasses that die or are culled during the outbreak is a key component of a successful response to a disease outbreak because it helps prevent or mitigate the further spread of pathogens and in case of zoonotic disease, to further protect human health. The practical guidelines presented hereby provide carcass and related waste management considerations and recommended procedures for use by Veterinary Services and other official response authorities when developing animal disease outbreak containment and eradication plans. The guidelines apply to animal disease outbreaks of varying sizes, whether the outbreak is isolated to a single premise or spans a region to cover numerous premises. However, they are focused on small to medium-sized holdings in countries without access to engineered landfills, rendering plants or controlled incinerators. The guidelines are written in the spirit of “keep it simple and doable”, considering the limited human and financial resources that many countries are constrained with. Its presentation and practical approach ensure that countries will find it very useful for their emergency operation procedures toolbox. Further, the guidelines directly contribute to the one-health approach by protecting the health of animals, humans, and the environment.

*Catastrophe Containment And Relief Trust—Approval Of Grant Assistance For Debt Service Relief* International Monetary Fund,2020-04-15 This paper proposes that the Executive Board determine that the global COVID-19 pandemic constitutes a Qualifying Public Health Disaster (QPHD) under the Catastrophe Containment (CC) Window of the Catastrophe Containment and Relief Trust (CCRT), in line with the new QPHD test approved by the Board on March 26. The CCRT has sufficient financial resources for an initial tranche of grant assistance for debt service relief covering eligible debt falling due from all CCRT-eligible members through October 13, 2020. Fundraising efforts continue to secure the financial resources needed to commit future such tranches for CCRT debt service relief, up to a cap of two years. Staff considers that the 25 members requesting CCRT assistance qualify for immediate CCRT relief.

**Evaluation of the Department of Veterans Affairs Mental Health Services** National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Care Services,Committee to Evaluate the Department of Veterans Affairs Mental Health Services,2018-03-29 Approximately 4 million U.S. service members took part in the wars in Afghanistan and Iraq. Shortly after troops started returning from their deployments, some active-duty service members and veterans began experiencing mental health problems. Given the stressors associated with war, it is not surprising that some service members developed such mental health conditions as posttraumatic stress disorder, depression, and substance use disorder. Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental health-related outcomes—in particular, suicide—at a higher rate than the general population. This report provides a comprehensive assessment of the quality, capacity, and access to mental health care services for veterans who served in the Armed Forces in Operation Enduring Freedom/Operation Iraqi Freedom/Operation New Dawn. It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs, but also barriers faced by patients in utilizing those services.

*Managing Cover Crops Profitably (3rd Ed. )* Andy Clark,2008-07 Cover crops slow erosion, improve soil, smother weeds, enhance nutrient and moisture availability, help control many pests and bring a host of other benefits to your farm. At the same time, they can reduce costs, increase profits and even create new sources of income. You'll reap dividends on your cover crop investments for years, since their benefits accumulate over the long term. This book will help you find which ones are right for you. Captures farmer and other research results from the past ten years. The authors verified the info. from the 2nd ed., added new results and updated farmer profiles and research data, and added 2 chap. Includes maps and charts, detailed narratives about individual cover crop species, and chap. about aspects of cover cropping.

**Guide for Organic Crop Producers** U. S. Department of Agriculture,2017-09-19 How to use this guide- To be certified organic by the U.S. Department of Agriculture (USDA), farms must be managed in accordance with the regulations in Title 7, Part 205 of the Code of Federal Regulations. Where the USDA organic seal appears, the text quotes from these Federal regulations. The verbatim text of the regulation language follows the section and paragraph (for example, § 205.203). The verbatim text is followed by an explanation of the regulation.

**Washington Confidential** Jack Lait,Lee Mortimer,2018-02-27 Scandalous, shocking, cheeky, impudent are words that will be used to describe this account of the hidden side of our glamorous, riotous capital city. For Lait and Mortimer, famous newspapermen, mince no words, pull no punches, tell their story in their own bold way. They have found out the truth and they tell the facts and name the names—which no one dared write or publish before. They deglamorize Washington and reveal it with its spats off and its morning coat unbuttoned. They tear the Velvet Curtain and show the behind-the-scenes intrigue, the sub-rosa night life, the shady side of sex, the sin side, the crime side. The amazing things they report will shock millions, arouse citizens all over the country as their previous book *Chicago Confidential* did... “P-S-S-S-T! “Here we go again—Confidential. “We turned New York inside out; but we both live there. We turned Chicago upside down; but we were both raised there. We descended on Washington not quite like Stanley invaded Africa, because in our combined 75 years of newspaper work we had been in the capital hundreds of times. It intrigued us because we never could understand it. So we decided brashly to do a Lait-Mortimer operation on it from scratch. Our principal discovery was that nobody understands Washington—the city, not the nation’s nerve-center. [...] “That’s why we were born—to tell you what you couldn’t find out without us—Confidential!”—Jack Lait and Lee Mortimer

**Cybersecurity Framework Manufacturing Profile** National Institute of Standards,2017-05-31 March 2017 If you like this book (or the Kindle version), please leave positive review. This document provides the Cybersecurity Framework implementation details developed for the manufacturing environment. The Manufacturing Profile of the Cybersecurity Framework can be used as a roadmap for reducing cybersecurity risk for manufacturers that is aligned with manufacturing sector goals and industry best practices. The Profile gives manufacturers:\* A method to identify opportunities for improving the current cybersecurity posture of the manufacturing system\* An evaluation of their ability to operate the control environment at their acceptable risk level\* A standardized approach to preparing the cybersecurity plan for ongoing assurance of the manufacturing system's security Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material. We publish compact, tightly-bound, full-size books (8 1/2 by 11 inches), with glossy covers. 4th Watch Books is a Service Disabled Veteran-Owned Small Business (SDVOSB), and is not affiliated with the National Institute of Standards and Technology. **Water for People, Water for Life** World Water Assessment Programme (United Nations),2003 The world's freshwater resources are coming under growing pressure through such environmental hazards as human waste, urbanization, industrialization, and pesticides. The problems are exacerbated through drought in many parts of the world. The improvement of the water quality itself and access to it have been major concerns for politicians and development agencies for over a decade. First officially formulated at the Rio Earth Summit of 1992, they have been restated or expanded since then. The UN Millennium Declaration of 2000 transformed general guidelines into specific targets. The international community pledged to halve by 2015 the proportion of people who are unable to reach, or to afford, safe drinking water and to stop the unsustainable exploitation of water resources, by developing water management strategies at the regional, national and local levels, which promote both equitable access and adequate supplies. Thus, ten years after Rio it is time to take stock. Based on the collective inputs of 23 United Nations agencies and convention secretariats, this Report offers a global overview of the state of the world's freshwater resources. It is part of an on-going assessment process to develop policies and help with their implementation as well as to measure any progress towards achieving sustainable use of water resources. Generously illustrated with more than 25 full-color global maps and numerous figures, the report reviews progress and trends and presents seven pilot case studies of river basins representing various social, economic and environmental settings: Lake Titicaca (Bolivia, Peru); Senegal river basin (Senegal, Mali, Mauritania, Guinea); Seine Normandy (France); Lake Peipsi/Chudskoe (Estonia, Russia); Ruhuna basin (Sri Lanka); Greater Tokyo region (Japan); and Chao Phraya (Thailand). It assesses progress in 11 challenge areas, including health, food, environment, shared water resources, cities, industry, energy, risk management, knowledge, valuing water and governance. Proposing methodologies and indicators for measuring sustainability, it lays the foundations for regular, system-wide monitoring and reporting by the UN, together with the development of standardized methodologies and data. With its comprehensive maps, glossary, references and coverage of a broad range of themes and examples of real-world river basins, the UN World Water Development Report will no doubt prove to be a most valuable reference work. Visit the United Nation's Water Portal for more information on the report and on the International Year of Freshwater 2003.
