The Battle for the Mind Bishop Noel

Jones, 2011-07-28 The dichotomy of this book juxtaposes success and failure while solidifying the truth that walking with God is not conflict free because the essential nature of man is a unity of two (dichotomy) distinct realities, one physical (body) and spiritual (soul, spirit, mind). When the question is asked, What is the mind? The authors present a logical case for

linking the paradigms of the mind from theology (truth) to philosophy (the search for truth) to provide a deeper understanding of two opposing forces that cause the battle between the desires of the flesh and the will of the spirit

Reparations for Indigenous Peoples Federico Lenzerini, 2008-01-24 Published in concomitance with the adoption of the United Nations Declaration on the Rights of Indigenous Peoples, this volume brings together a group of renowned legal experts and activists from different parts of the world who, from international and comparative perspectives, investigate the right of indigenous peoples to reparation for breaches of their individual and collective rights. The first part of the book is devoted to general aspects of this important matter, providing a comprehensive assessment of the relevant international legal framework and including overviews of the topic of reparations for human rights violations, the status of indigenous peoples in international law, and the vision of reparations as conceived by the communities concerned. The second part embraces a comprehensive investigation of the relevant practice at the international, regional, and national level, examining the best practices of reparations according to the ideologies and expectations of indigenous peoples and offering a comparative perspective on the ways in which the right of these peoples to redress for the injuries suffered is realized worldwide. The global picture painted by these contributions provides a view of

the status of relevant international law that is synthesized in the two final chapters of the book, which include a concrete example of how a judicial claim for reparation is to be structured and prescribes the best practices and strategies to be adopted in order to maximize the opportunities for indigenous peoples to obtain effective redress. As a whole, this volume offers a comprehensive vision of its subject matter in international and comparative law, with a practical approach aimed at supporting legal academics, administrators, and practitioners in improving the avenues and modalities of reparations for indigenous peoples.

A Violent Heart Gregory K. Moffatt, 2002-05-30 The author presents a broad perspective on the psychological and sociological roots of aggression, illustrating his analysis with true-crime examples. High-Stakes Testing R. Murray Thomas, 2005-03-23

The federal government's No Child Left Behind Act has thrust high-stakes testing - its goals, methods, and consequences - into the educational limelight. The four-fold purpose of this book is to: describe the nature of high-stakes testing; identify types of collateral damage that have attended the testing programs; analyze methods different groups of people have chosen for coping with the damage and suggest lessons to be learned from the high-stakes-testing experience. The six groups of people whose coping strategies are inspected include: politicians and their staffs; educational administrators and their staffs; parents and the public; test makers and test administrators; teachers and students. Importantly, the author avoids aligning himself with the test-bashing rhetoric of those who oppose high-stakes testing, especially the No Child Left Behind Act. Key features of this outstanding new book include: illustrative cases. The book offers more than 350 cases of collateral damage from high-stakes testing--and people's coping strategies--as reported in newspapers over the 2002-2004 period. background perspectives. Part I examines the influence of high-stakes testing on: 1) what schools teach; 2) how student progress is evaluated; 3) how achievement standards are set; and 4) how test results are used. participant responses. Part II, which is the heart of the book, devotes a separate chapter to the coping strategies of each of the major participants in the high-stakes testing movement: politicians and their staffs, educational administrators and their staffs, parents and the public, test-makers and

test-givers, teachers, and students. summary chapter. The last chapter (Lessons to Learn) offers suggestions for minimizing collateral damage by adopting alternative approaches not used in the creation of our current high-stakes testing programs, particularly the federal government's No Child Left Behind Act. This book is appropriate for any of the following audiences: students taking evaluation or administration courses in schools of education, inservice administrators and teachers, policy makers, and those members of the general public who are concerned about the fate of schooling in America.

Analysing Women's Imprisonment Pat Carlen, Anne Worrall, 2013-01-11 In both the UK and the rest of the world there have been rapid increases in the numbers of women in prison, which has led to an acceleration of interest in women's crimes and the social control of women, and women's experience of both prison and the criminal justice system is very different to men's. This text is concerned to address the key issues relating to women's imprisonment, contributing at the same time to an understanding of prison issues in general and the historical and contemporary politics of gender and penal justice. What are women's prisons for? What are they like? Why are lone mothers, ethnic minority and very poor women disproportionately represented in the women's prison population? Should babies be sent to prison with their mothers? These are amongst the issues with which this book is concerned. *Analysing Women's Imprisonment* is written as an introductory text to the subject, aiming to guide students of penology

carefully through the main historical and contemporary discourses on women's imprisonment. Each chapter has a clear summary ('concepts to know'), essay questions and recommendations for further reading, and will help students prepare confidently for seminars, course examinations and project work.
