Landscapes of Realism Dirk Göttsche, Rosa Mucignat, Robert Weninger, 2021-04-15 Few literary phenomena are as elusive and yet as persistent as realism. While it responds to the perennial impulse to use literature to reflect on experience, it also designates a specific set of literary and artistic practices that emerged in response to Western modernity. *Landscapes of Realism* is a two-volume collaborative interdisciplinary exploration of this vast territory, bringing together leading-edge new criticism on the realist paradigms that were first articulated in nineteenth-century Europe but have since gone on globally to transform the literary landscape. Tracing the manifold ways in which these paradigms are developed, discussed and contested across time, space, cultures and media, this first volume tackles in its five core essays and twenty-five case studies such questions as why realism emerged when it did, why and how it developed such a transformative dynamic across languages, to what extent realist poetics remain central to art and popular culture after 1900, and how generally to reassess realism from a twenty-first-century comparative perspective.

Kingdom Prayer Creed Brother Brad Smith, 2020-08-11 In *Kingdom Prayer Creed*, Brother Brad Smith takes a closer look at the text commonly known as The Lord's Prayer, and expands on it with other Biblical supporting texts. It is often recited by nervous church folk when confronted with the prospects of evil - however in this exposition of the Lord's Prayer, there is another angle that gives a deeper meaning to what Jesus was teaching the disciples to do. The *Kingdom Prayer Creed* is not simply a book about prayer, but encompasses how we are to live a fully loaded Christian life while anticipating the Kingdom of God to come. There are only 11 chapters and just over 50 pages, making the book short, succinct and easy reading. If you are looking to grow as a Christian in the Kingdom of God, then the *Kingdom Prayer Creed* is something you will enjoy sinking your teeth into.

The Internet in China Zixue Tai, 2007-05-07 The *Internet in China* examines the cultural and political ramifications of the Internet for Chinese society. The rapid growth of the Internet has been enthusiastically embraced by the Chinese government, but the government has also rushed to seize control of the virtual environment. Individuals have responded with impassioned campaigns against official control of information. The emergence of a civil society via cyberspace has had profound effects upon China--for example, in 2003, based on an Internet campaign, the Chinese Supreme People's Court overturned the ruling of a local court for the first time since the Communist Party came to power in 1949. The important question this book asks is not whether the Internet will democratize China, but rather in what ways the Internet is democratizing communication in China. How is the Internet empowering individuals by fostering new types of social spaces and redefining existing social relations?

Writing the Rapture Crawford Gribben, 2009-02-02 For the past twenty years, evangelical prophecy novels have been a powerful presence on American bestseller lists. Emerging from a growing conservative culture industry, the genre dramatizes events that many believers expect to occur at the end of the age - the rapture of the saved, the rise of the Antichrist, and the fearful tribulation faced by those who are left behind. Seeking the

forces that drove the unexpected success of the Left Behind novels, Crawford Gribben traces the gradual development of the prophecy fiction genre from its eclectic roots among early twentieth-century fundamentalists. The first rapture novels came onto the scene at the high water mark of Protestant America. From there, the genre would both witness the defeat of conservative Protestantism and participate in its eventual reconstruction and return, providing for the renaissance of the evangelical imagination that would culminate in the Left Behind novels. Yet, as Gribben shows, the rapture genre, while vividly expressing some prototypically American themes, also serves to greatly complicate the idea of American modernity—assaulting some of its most cherished tenets. Gribben concludes with a look at post-Left Behind rapture fiction, noting some works that were written specifically to counter the claims of the best-selling series. Along the way, he gives attention not just to literary fictions, but to rapture films and apocalyptic themes in Christian music. Writing the Rapture is an indispensable guide to this flourishing yet little understood body of literature.

Transnational Crimes in the Americas Marshall B. Lloyd, 2018-10-30 'Transnational Crimes in the Americas' addresses contemporary issues with respect to public institutions that are stakeholders in the fight against globalization of crime. Regional public organizations, with a primary focus on the Americas, constitute a framework for understanding the need for an institutional response within the Western Hemisphere. While other authors have addressed the growth of organized crime, no one has explained institutional developments in the struggle against transnational crimes. 'Transnational Crimes in the Americas' highlights existing organizations, emphasizing a regional response to transnational crimes, suggestions for a permanent criminal court in the Americas and an appraisal of the current state of institutional developments in the region.

Multilateral Cooperation in Tax Law Martin Klokar, Katharina Moldaschl, 2023-10-03 An in-depth analysis of various aspects of multilateral cooperation in tax law Tax evasion and aggressive tax planning causing base erosion and profit shifting (BEPS) has been a widely discussed topic among academics and tax policy makers over the past decades. Increasing globalization and digitalization have contributed to the intensification of this issue in recent years. At the same time, states continue to largely insist on their sovereignty in the area of tax law. However, due to their cross-border nature, issues related to BEPS are shared problems among the states and can typically not be solved by a single nation. Therefore, multilateral cooperation represents an option to build a bridge between the states' demand for sovereignty and the problems caused by BEPS. In this regard, the OECD, the UN, and the EU play an important role in introducing international tax standards in an attempt to effectively address tax evasion and aggressive tax planning in many ways. The interaction and cooperation between different international, supranational (EU), and regional organizations is an ongoing process. In this context, the topic Multilateral Cooperation in Tax Law was selected as the general topic for the master's

theses of the part-time 2021-23 class of the postgraduate LL.M. programme in International Tax Law at WU (Vienna University of Economics and Business). This volume aims to develop academic insights, provide practical guidance, and enable an in-depth analysis of various aspects of this topic. The book is divided into four parts. The first part deals with a general overview of the understanding of multilateral cooperation, the background that led to the need for multilateral cooperation and the different stakeholders that play a relevant role in it. While the chapters included in the second part focus on the most important developments on an international level (OECD and UN), the chapters encompassed in the third part analyse the multilateral cooperation initiatives of the EU. Finally, the chapters included in part four deal with selected issues related to multilateral cooperation in tax law, including mutual assistance and exchange of information, dispute resolution mechanisms, and measures in digitalized businesses.

Writing the Jerusalem Pilgrimage in the Late Middle Ages Mary Boyle, 2021 What do the bursar of Eton College, a canon of Mainz Cathedral, a young knight from near Cologne, and a Kentish nobleman's chaplain have in common? Two Germans, residents of the Holy Roman Empire, and two Englishmen, just as the western horizons of the known world were beginning to expand. These four men - William Wey, Bernhard von Breydenbach, Arnold von Harff, and Thomas Larke - are amongst the thousands of western Christians who undertook the arduous journey to the Holy Land in the decades immediately before the Reformation. More importantly, they are members of a much more select group: those who left written accounts of their travels, for the journey to Jerusalem in the late Middle Ages took place not only in the physical world, but also in the mind and on the page. Pilgrim authors contended in different ways with the collision between fifteenth-century reality and the static textual Jerusalem, as they encountered the genuinely multi-religious Middle East. This book examines the international literary phenomenon of the Jerusalem pilgrimage through the prism of these four writers. It explores the process of collective and individual identity construction, as pilgrims came into contact with members of other religious traditions in the course of the expression of their own; engages with the uneasy relationship between curiosity and pilgrimage; and investigates both the relevance of genre and the advent of print to the development of pilgrimage writing. Ultimately pilgrimage is revealed as a conceptual space with a near-liturgical status, unrestricted by geographical boundaries and accessible both literally and virtually.

Hospitaller Piety and Crusader Propaganda Theresa M. Vann, Donald J. Kagay, 2016-09-17 Guillaume Caoursin, the Vice-chancellor of the Order of the Hospital, wrote the *Obsidionis Rhodiae urbis descriptio* (Description of the Siege of Rhodes) as the official record of the Ottoman siege of the Knights in Rhodes in 1480. The *Descriptio* was the first authorized account of the Order's activities to appear in printed form, and it became one of the best sellers of the 15th century. The publication of the *Descriptio* not only fed Western Europe's hunger for news about an important Christian victory in the ongoing war with the Turks, it also served to shape public perceptions of the Hospitallers. Caoursin wrote in a humanistic style, sacrificing military terminology to appeal to an educated audience; within a few years, however, his Latin text became the basis for vernacular versions, which also circulated widely. Modern historians recognize the contributions that the Ottoman siege of Rhodes in 1480 made in the development of military technology, particularly the science of fortifications. This book is the first complete modern Latin edition with an English translation of the *Descriptio obsidionis Rhodiae*. Two other published eyewitness accounts, Pierre D'Aubusson's *Relatio obsidionis Rhodie* and Jacomo Curte's *De urbis Rhodiae obsidione a. 1480 a Turcis tentata*, also appear in modern Latin edition and English translation. This book also includes John Kay's *Description of the Siege of Rhodes* and an English translation of Ademar Dupuis' *Le siège de Rhodes*. The lengthy introductory chapters by Theresa Vann place the Ottoman siege of Rhodes in 1480 within the context of Mehmed II's expansion in the Eastern Mediterranean after he

captured Constantinople in 1453. They then examine the development of an official message, or propaganda, as an essential tool for the Hospitallers to raise money in Europe to defend Rhodes, a process that is traced through the chancery's official communications describing the aftermath of Constantinople and the Ottoman

Friendship among nations Evgeny Roshchin,2017-11-17 This is the first book-length study of the role that friendship plays in diplomacy and international politics. Through an examination of a vast amount of sources ranging from diplomatic letters and bilateral treaties, to poems and philosophical treatises, it analyses how friendship has been talked about and practised in pre-modern political orders and modern systems of international relations. The study highlights how instrumental friendship was for describing and legitimising a range of political and legal engagements with foreign countries and nations. It emphasises contractual and political aspects in diplomatic friendship based on the idea of utility. It is these functions of the concept that help the world stick together when collective institutions are either embryonic or no more.
