Boundary Spanners of Humanity R. S. Zaharna,2022 Boundary Spanners of Humanity tackles the growing severity of global problems and our strained ability to collaborate by critically re-examining two pivotal tools: communication and public diplomacy. R.S. Zaharna, a leading scholar of public diplomacy and international strategic communication, exposes the limitations of intercultural communication and state-based public diplomacy and proposes a pan-human vision of communication that can revolutionize how we communicate globally. The book reveals how dominant views of communication and public diplomacy are based on a 19th-century mindset of separateness that clashes with today's global connectivity and diversity. In a radical break from outdated models that divide humanity into cultural categories, Zaharna introduces a vision of humanity-centered public diplomacy featuring three complementary logics of communication. Used together, these communication logics are key to leveraging diversity, navigating connectivity, and enhancing our capacity for collaboration. Zaharna's innovative approach stems from decade-long, interdisciplinary research spanning ancient cosmologies, diverse intellectual heritages, contemporary social science, and emerging neuro-biological science. Boundary Spanners of Humanity provides a rich array of examples from ancient diplomacies to the covid-19 pandemic to illustrate a vision of pan-human communication that spans our diversity and harnesses it as an essential strength in collective problem solving and global collaboration--

Confronting Globalization P. Hayden,C. el-Ojeili,2005-06-01 Informed by critical theory, the essays in this collection examine the complex dynamics of globalization, the challenges that confront democracy, justice and rights under globalization, and new approaches that seek to contest the excesses of globalization and promote the struggle for global justice. They form a challenging and timely volume that will be essential reading for anyone interested in the normative dimensions of globalization.

Weapons of Mass Persuasion Steven R. Corman,Angela Trethewey,H. Lloyd Goodall,2008 These collected essays apply human communication concepts and theories to the communication problems encountered by nations, communities, and individuals to move beyond critique of the failed U.S. communication campaigns and strategies in the war on terror.

Civilizational Dialogue and World Order M. Michael,2009-05-25 The book comes at a very critical moment in the debate on civilization and responds to the lack of scholarly attention by international relations and political theorists as to how the discourse of dialogue of cultures, religions, and civilizations can contribute to the future of world order.

Universal and Particular—Ideological Developments in the Contemporary Chinese Confucian Revival Movement (2000–2020) Wei Shi,2023-11-27 Wei Shi's well-crafted study weaves together historical context, ideological complexities, and insightful case studies on Confucian metaphysics, ethics, and politics. Engagingly written, it seamlessly bridges the gap between universal and nationalist (particular) perspectives, offering a rich tapestry of ideas and satisfying unity. Shi describes the profound impact of Confucian revival on China's cultural identity. She argues that Confucian ideas continue to shape China's trajectory in an ever-changing world. Specialists, graduate students, and enthusiasts will find this work an invaluable resource in understanding the multifaceted landscape of China's Confucian revival in the twenty-first century.

The "Roads" and "Belts" of Eurasia Alexander Lukin,2020-03-02 This book addresses the challenges and opportunities of contemporary and future development of Eurasia. The main theme of the first part of the book is examining the reaction evoked in different countries by the Chinese "Belt and Road Initiative." The second part analyses other national and international integration and infrastructure projects in Eurasia. This unique publication brings together in one volume works by leading researchers from different countries, all united by their common interest in the political and economic processes unfolding in the Eurasian continent. By offering various points of view from experts from all over the world, this book provides a multi-dimensional analysis of the Eurasian future and will be of value to a wide range of readers, including scholars, publicists, the international business community and decision-makers.

Cultural Diplomacy: Beyond the National Interest? Ien Ang,Yudhishtir Raj Isar,Phillip Mar,2018-02-02 Cultural Diplomacy: Beyond the National Interest? is the first book bringing together, from the perspective of the cultural disciplines, scholarship that locates contemporary cultural diplomacy practices within their social, political, and ideological contexts, while examining the different forces that drive them. The contributions to this book have two methodologies: the first, to deconstruct and demystify cultural diplomacy, notably the 'hype' that accompanies it, especially when it is yoked to the notion of 'soft power'; the second, to better understand how contemporary cultural diplomacy actually operates. In applying a cultural lens to the question, this book probes whether there can be such a thing as a cultural diplomacy 'beyond the national interest'. This book was originally published as a special issue of the International Journal of Cultural Policy.

The Arab Avant-Garde Thomas Burkhalter,Kay Dickinson,Benjamin J. Harbert,2013-11-13 From jazz trumpeters drawing on the noises of warfare in Beirut to female heavy metallers in Alexandria, the Arab culture offers a wealth of exciting, challenging, and diverse musics. The essays in this collection investigate the plethora of compositional and improvisational techniques, performance styles, political motivations, professional trainings, and inter-continental collaborations that claim the mantle of "innovation" within Arab and Arab diaspora music. While most books on Middle Eastern music-making focus on notions of tradition and regionally specific genres, The Arab Avant Garde presents a radically hybrid and globally dialectic set of practices. Engaging the "avant-garde"—a term with Eurocentric resonances—this anthology disturbs that presumed exclusivity, drawing on and challenging a growing body of literature about alternative modernities. Chapters delve into genres and modes as diverse as jazz, musical theatre, improvisation, hip hop, and heavy metal as performed in countries like Iraq, Egypt, Lebanon, Syria, Palestine, and the United States. Focusing on multiple ways in which the "Arab avant-garde" becomes manifest, this anthology brings together international writers with eclectic disciplinary trainings—practicing musicians, area studies specialists, ethnomusicologists, and scholars of popular culture and media. Contributors include Sami W. Asmar, Michael Khoury, Saed Muhssin, Marina Peterson, Kamran Rastegar, Caroline Rooney, and Shayna Silverstein, as well as the editors.

Handbook of Research on Special Economic Zones as Regional Development Enablers Figueiredo, Paulo Guilherme,Leandro, Francisco José,Li, Yichao,2021-10-15 Special

economic zones (SEZs) are important doorways for countries to attract foreign investment and promote trade. A strong correlation between the creation of SEZs and economic development indicators has also been identified in previous studies, at the municipal level, in China. Thus, the fundamental question that needs to be explored is to what extent SEZs can play the role of development enablers in different regions, development states, and institutional settings. The Handbook of Research on Special Economic Zones as Regional Development Enablers discusses the diverse and international track records in the implementation of SEZs, the interplay of SEZ models and local institutional infrastructure and stakeholders, and the SEZ models that can best fit certain development states and/or settings. Covering topics such as the Belt and Road Initiative, local and national economies, and regional integration, this book is essential for government officials, development officers, scholars, students, researchers, entrepreneurs, public decision makers, aid agencies, company executives, investors, and academicians.

Is International Law International? Anthea Roberts, 2017-09-18 This book takes the reader on a sweeping tour of the international legal field to reveal some of the patterns of difference, dominance, and disruption that belie international law's claim to universality. Pulling back the curtain on the divisible college of international lawyers, Anthea Roberts shows how international lawyers in different states, regions, and geopolitical groupings are often subject to distinct incoming influences and outgoing spheres of influence in ways that reflect and reinforce differences in how they understand and approach international law. These divisions manifest themselves in contemporary controversies, such as debates about Crimea and the South China Sea. Not all approaches to international law are created equal, however. Using case studies and visual representations, the author demonstrates how actors and materials from some states and groups have come to dominate certain transnational flows and forums in ways that make them disproportionately influential in constructing the international. This point holds true for Western actors, materials, and approaches in general, and for Anglo-American (and sometimes French) ones in particular. However, these patterns are set for disruption. As the world moves past an era of Western dominance and toward greater multipolarity, it is imperative for international lawyers to understand the perspectives and approaches of those coming from diverse backgrounds. By taking readers on a comparative tour of different international law academies and textbooks, the author encourages them to see the world through the eyes of others -- an essential skill in this fast changing world of shifting power dynamics and rising nationalism.

The Oxford Handbook of International Trade Law, 2022-11-17 The rules and regulations governing international trade have grown at an exponential rate in the years since the Uruguay Round agreements established the WTO in 1995. These agreements continue to act as the multilateral foundation of the body of law, which is being expanded by its own committees and in new arrangements. As the international trade law system grows, it comes under increasing scrutiny from scholars, government officials, and trade law practitioners, it raises questions about the overlap with other international legal, political, and economic regimes. This Handbook considers the system of international trade law and what it means for States, for economic systems, for other international regimes, for civil society, and for human welfare. The book opens by focusing on the regulation of international trade, considering the history, economics, and sources of international trade law, as well as the possibilities for the future. It considers the intersection of international trade law with States, the economic and institutional context of the world trading system, the framework of its substantive law, and the balance of trade objectives versus ethical responsibilities. The book concludes by offering analysis of new trade law developments in the agricultural, digital, and financial sectors, as well as outlining the settlement of trade law disputes both in the WTO and bilateral/regional trade agreements. The second edition broadens the scope of analysis beyond the WTO, analysing regional trade agreements and preferential trade arrangements, including the Trans-Pacific Partnership, and Canada-EU Trade Agreement. The new edition also considers developments within the WTO such as in the area of agricultural export subsidies, and the Trade Facilitation Agreement.

Essays to a Degree David Fuller,

International Economic Law and the Challenges of the Free Zones Julien Chaisse, Jiaxiang Hu, 2019-05-02 Special economic zones (SEZs) have become a permanent feature of the world trade scene. This book, the first to provide a critical and comprehensive analysis of SEZs covering a wide spectrum of countries and regions, shows how SEZs, albeit established at the domestic level by different countries, raise multiple legal issues under international economic law. This first-rate book is the product of the Asia FDI Forum IV held in Hong Kong in 2018. Thoroughly exploring the development of the SEZ phenomenon and its players, the contributing authors (all leading economic law experts) review the issues raised by SEZs in the context of international trade law, international investment law and investment arbitration. They identify the extent to which SEZs have been coherent in their design and policymaking, in particular with regard to domestic law reforms. They address such aspects (both core themes and specific examples) as the following: investment protection in China's SEZs; state-owned enterprises regulation; dispute settlement; under what circumstances incentives available in SEZs count as export subsidies prohibited under World Trade Organization (WTO) rules; compliance with internal market rules in European Union (EU) free zones; local populations as victims of land expropriation; Brazil's Manaus Free Trade Zone; India's experience with multiple SEZs; the administrative approval system in the Shanghai Free Trade Zone; economic corridors and transit routes as SEZs; 'refugee cities': SEZs for migrants; how China's Supreme People's Court serves national strategy; how foreign investors challenge free-zone regimes; impacts of the establishment of SEZs on tax revenues; SEZs and labour migration; and management models. The chapters also include insights into the new emerging generation of international investment agreements; WTO accession, transparency, and case law materials clarifying specific trade issues associated with SEZs; and new rules to protect the environment and labour rights, as well as analysis of crucially significant cases such as Goetz v. The Republic of Burundi, Lee Jong Baek v. Kyrgyzstan and Ampal-American and Others v. Egypt. With its critical and comprehensive analysis of the dynamic SEZ phenomenon across legal, economic, investment, regulatory and policy matrices – including a thorough analysis of the success factors and required policies for SEZs – this book takes a giant step towards answering the question whether SEZs fundamentally contradict norms of international law or whether SEZs have to be considered as laboratories which facilitate the implementation of international economic policies. Its careful examination of theory and practice and its approach to lessons learned from case studies will reward trade and investment officials, policymakers, diplomats, economists, lawyers, think tanks, business leaders and others interested in this ever more important area of law and economics.

Performance Evaluation and Benchmarking Raghunath Nambiar, Meikel Poess, 2009-11-05 This book constitutes the reviewed proceedings of the first Conference on Performance Evaluation and Benchmarking, TPCTC 2009, held in Lyon, France, August 24-28, 2009. The 16 full papers and two keynote papers were carefully selected from 34 submissions. This book considers issues such as appliance, business intelligence, cloud computing, complex event processing, database performance optimizations, green computing, data compression, disaster tolerance and recovery, energy and space efficiency, hardware innovations, high speed data generation, hybrid workloads or operational data warehousing, unstructured data management, software management and maintenance, virtualization and very large memory systems

Beyond Civilization to Post-civilization Peter Baofu, 2006 Original Scholarly Monograph

A Companion to the Works of Elias Canetti Dagmar C. G. Lorenz, 2009 New essays providing a comprehensive scholarly introduction to the great writer and thinker Canetti. The Bulgarian-born scholar and author Elias Canetti was one of the most astute witnesses and analysts of the mass movements and wars of the first half of the 20th century. Born a Sephardic Jew and raised at first in the Bulgarian and Ladino languages, he chose to write in German. He was awarded the 1981 Nobel Prize in Literature for his oeuvre, which includes dramas, essays, diaries, aphorisms, the novel *Die Blendung (Auto-da-Fé)* and the long interdisciplinary treatise *Masse und Macht (Crowds and Power)*. These works express Canetti's thought-provoking ideas on culture and the human psyche with special focus on the phenomena of power, conflict, and survival. Canetti's masterful prose, his linguistic innovations, his brilliant satires and conceits continue to fascinate scholars and general readers alike; his challenging, genre-bending writings merge theory and literature, essay and diary entry. This Companion volume contains original essays by renowned scholars from around the world who examine Canetti's writing and thought in the context of pre- and post-fascist Europe, providing a comprehensive scholarly introduction.

The Internationalization of Law and Legal Education Jan Klabbers, Mortimer Sellers, 2009-01-29 The internationalization of commerce and contemporary life has led to a globalization of legal standards and practices. The essays in this text explore this new reality and suggest ways in which the new legal order can be made more just and effective.
