Eric Laursen

Mac 911 Christopher Breen,2002 This easy-to-use guide covers troubleshooting tips and tricks for Mac hardware and software, written by the well-known Macworld columnist and Macintosh guru Chris Breen. The book contains troubleshooting tips and techniques for both Mac OS 9 and OS X, and additional projects for making a Macintosh more productive-sharing files, making Mac OS X work more like Mac OS 9, and more.

Ketamine Karl Jansen,2001-01-01

Telematics and Computing Miguel Felix Mata-Rivera,Roberto Zagal-Flores,Cristian Barría-Huidobro,2019-10-24 This book constitutes the thoroughly refereed proceedings of the 8th International Congress on Telematics and Computing, WITCOM 2019, held in Merida, Mexico, in November 2019. The 31 full papers presented in this volume were carefully reviewed and selected from 78 submissions. The papers are organized in topical sections: GIS & climate change; telematics & electronics; artificial intelligence & machine learning; software engineering & education; internet of things; and informatics security.

Business Performance Measurement and Management

Paolo Taticchi,2010-01-22 Measuring and managing the performance of a business is one of the most genuine desires of management. Balanced scorecard, the performance prism and activity-based management are the most popular frameworks in this setting. Based on the findings of R.G. Eccles' acclaimed Performance Measurement Manifesto (1991) this book introduces new contexts and themes of application and presents emerging research areas related to business performance measurement and management, e.g. SMEs and sustainability. As a result of the 1st International Summer School Piero Lunghi on Perspectives of Business Performance Management this book is written both for students and academics, as well as for practitioners looking for new, yet proven ways to measure and manage business performance.

Irrationality Stuart Sutherland, 2007 Why do qualified professional make wrong decisions that cause enormous harm to others? And why do you sit through a boring play just because the tickets were expensive? Drawing on a mass of intriguing research, Stuart Sutherland analyses the causes of irrationality, demonstrating that the trait is present in all of us.

Dracula Hamilton Deane, John Lloyd Balderston, 1960 Drama Hamilton Deane and John L. Balderston, from Bram Stoker's novel Characters: 6 male, 2 female 3 Interior Scenes An enormously successful revival of this classic opened on Broadway in 1977 fifty years after the original production. This is one of the great mystery thrillers and is generally considered among the best of its kind. Lucy Seward, whose father is the doctor in charge of an English sanatorium, has been attacked by some mysterious illness. Dr. Van Helsing,

Construction Accounting & Financial Management Stephen Peterson, 2013-10-03 For all courses in construction accounting and construction finance, and for courses in engineering economics taught in construction management programs. This book helps construction professionals and construction management students master the principles of financial management, and adapt and apply them to the challenge of profitably managing construction companies. It integrates content that has traditionally been taught through separate accounting, finance, and engineering economics texts. Students learn how to account for a construction company's financial resources; how to manage its costs, profits, and cash flows; how to evaluate different sources of funding a company's cash needs; and how to quantitatively analyze financial decisions. Readers gain hands-on experience through 220 example problems and over 390 practice problems, many of them based on situations actually encountered by the author. This edition adds more than 100 new discussion questions, and presents financial equations and accounting transactions more visually to support more intuitive learning.

The Operating System Eric Laursen, 2021-05-04 What do we mean when we talk about “the State”? Multiple polls show a growing disillusionment with the State and representative government as vehicles for progressive change, and particularly as means to tame capitalism, let alone as a basis for seeing beyond it. In a quick and readable format, Eric Laursen proposes thinking about the State in an entirely new way—not simply as government or legal institutions, but as humanity’s analog to a computer operating system—opening up a new interpretation of the system of governance that emerged in Europe five-hundred years ago and now drives almost every aspect of human society. He also demonstrates powerfully why humanity’s life-and-death challenges—including racism, climate change, and rising economic exploitation—cannot be addressed as long as the State continues to exercise dominion.

Youth Fatal Crash and Alcohol Facts , 2006

Malware Forensics Cameron H. Malin, Eoghan Casey, James M. Aquilina, 2008-08-08 Malware Forensics: Investigating and Analyzing Malicious Code covers the complete process of responding to a malicious code incident. Written by authors who have investigated and prosecuted federal malware cases, this book deals with the emerging and evolving field of live forensics, where investigators examine a computer system to collect and preserve critical live data that may be lost if the system is shut down. Unlike other forensic texts that discuss live forensics on a particular operating system, or in a generic context, this book emphasizes a live forensics and evidence collection methodology on both Windows and Linux operating systems in the context of identifying and capturing malicious code and evidence of its effect on the compromised system. It is the first book detailing how to perform live forensic techniques on malicious code. The book gives deep coverage on the tools and techniques of conducting runtime behavioral malware analysis (such as file, registry, network and port monitoring) and static code analysis (such as file identification

and profiling, strings discovery, armoring/packing detection, disassembling, debugging), and more. It explores over 150 different tools for malware incident response and analysis, including forensic tools for preserving and analyzing computer memory. Readers from all educational and technical backgrounds will benefit from the clear and concise explanations of the applicable legal case law and statutes covered in every chapter. In addition to the technical topics discussed, this book also offers critical legal considerations addressing the legal ramifications and requirements governing the subject matter. This book is intended for system administrators, information security professionals, network personnel, forensic examiners, attorneys, and law enforcement working with the inner-workings of computer memory and malicious code. * Winner of Best Book Bejtlich read in 2008! * <http://taosecurity.blogspot.com/2008/12/best-book-bejtlich-read-in-2008.html> * Authors have investigated and prosecuted federal malware cases, which allows them to provide unparalleled insight to the reader. * First book to detail how to perform live forensic techniques on malicious code. * In addition to the technical topics discussed, this book also offers critical legal considerations addressing the legal ramifications and requirements governing the subject matter

High Schools on a Human Scale Tom Toch, 2003-05-15 The basic blueprint of American high schools hasn't changed in a century, and we are paying a heavy price. Anonymous, enormous, and resistant to change, huge American high schools are incapable of educating all children to high levels today, as dropout rates and remedial courses in college make increasingly clear. High Schools on a Human Scale shows the huge power of small schools, perhaps the nation's fastest-growing reform idea. Tom Toch takes us inside four very different small schools around the country—from an entrepreneur's high-tech charter school in San Diego to a school formed out of the breakup of a huge public high school in Manhattan. All are small enough so that every student is known

well by adults, and the results are remarkable. Together they show the proven virtues of small schools-safety, community, and high achievement. This book is sponsored in part by the Bill and Melinda Gates Foundation's \$40 million effort to support small schools nationwide.

Towards Ubiquitous Low-power Image Processing Platforms Magnus Jahre,Diana Göhringer,Philippe Millet,2020-12-15 This book summarizes the key scientific outcomes of the Horizon 2020 research project TULIPP: Towards Ubiquitous Low-power Image Processing Platforms. The main focus lies on the development of high-performance, energy-efficient embedded systems for the growing range of increasingly complex image processing applications. The holistic TULIPP approach is described in the book, which addresses hardware platforms, programming tools and embedded operating systems. Several of the results are available as open-source hardware/software for the community. The results are evaluated with several use cases taken from real-world applications in key domains such as Unmanned Aerial Vehicles (UAVs), robotics, space and medicine. Discusses the development of high-performance, energy-efficient embedded systems for the growing range of increasingly complex image processing applications; Covers the hardware architecture of embedded image processing systems, novel methods, tools and libraries for programming those systems as well as embedded operating systems to manage those systems; Demonstrates results with several challenging applications, such as medical systems, robotics, drones and automotive.

What Color Is Your Parachute? 1988 Richard Nelson Bolles,1988 Because of the willingness of Richard Bolles to constantly revise and update this phenomenally popular guide to job-hunting and career-changing, once more a book is produced that keeps pace with unique changes in society, and once more earns the name trusted. Features a new cover design.

Introduction to Nanoscience and Nanotechnology Gabor L.

Hornyak,H.F. Tibbals,Joydeep Dutta,John J. Moore,2008-12-22 The maturation of nanotechnology has revealed it to be a unique and distinct discipline rather than a specialization within a larger field. Its textbook cannot afford to be a chemistry, physics, or engineering text focused on nano. It must be an integrated, multidisciplinary, and specifically nano textbook. The archetype of the modern nano textbook

Microsoft Power BI Dashboards Step by Step Errin

O'Connor,2018-10-05 Your hands-on guide to building effective Power BI dashboards Expand your expertise—and teach yourself how to create world-class Power BI business analysis dashboards that bring data to life for better decision-making. If you're an experienced business intelligence professional or manager, you'll get all the guidance, examples, and code you need to succeed—even if you've never used Power BI before. Successfully design, architect, and implement Power BI in your organization Take full advantage of any Microsoft Power BI platform, including Power BI Premium Make upfront decisions that position your Power BI project for success Build rich, live dashboards to monitor crucial data from across your organization Aggregate data and data elements from numerous internal and external data sources Develop dynamic visualizations, including charts, maps, and graphs Bring data to life with stunning interactive reports Ensure dashboard security and compliance Drive user adoption through effective training

The Marketplace of Revolution T. H. Breen,2005 Citing evidence from museum collections, colonial wills, newspaper advertisements, and archaeological sites, argues that the increasing availability of British consumer goods into the colonies help set off the American Revolution.

Information Systems Essentials with MISource 2007

Stephen Haag,Maeve Cummings,2006-11-13 9 chapters plus 3 appendices cover the traditional core material of MIS. A comprehensive set of group projects and e-commerce projects

support an applied component to the course. Consistent with Haag's best-selling MIS for the Information Age, IS Essentials 2/e conveys the impact of IS on the individual with contemporary writing and lively examples.

Heritage Tourism in Southeast Asia Michael Hitchcock, Victor T. King, Mike Parnwell, 2010 This book examines heritage tourism across the Southeast Asian region from different disciplinary perspectives. With material that is new and topical, it makes an important contribution to the fields of tourism studies, cultural studies, development and planning studies, and beyond. Set against a backdrop of the demands, motivations and impacts of heritage tourism, the volume focuses on disputes and conflicts over what heritage is, what it means, and how it has been presented, re-presented, developed and protected. It examines the actors involved in encounters and contestation, drawing in issues of identity construction and negotiation, and requiring the contextualization of heritage in national and global processes of identity formation and transformation. Among the questions touched upon are the ownership of heritage, its appropriate use, access to it versus conservation needs, heritage as a commodity, as entertainment and as an educational medium.

Letters at 3am Michael Ventura, 1993 I'd rather have one or two of his whiplashing essays in my hands than almost any tome of philosophy. -- Thomas Moore

Ignite the flame of optimism with is motivational masterpiece, Find Positivity in **Can I Upgrade Previous Version Windows Windows 8 Customer Preview 5244.htm** .
